

Affidavit of Candace Louise Curtis

If called to testify I will testify that my name is Candace Louise Curtis. I live in American Canyon, California. I am one of five beneficiaries of a family trust. I was to receive a 1/5th trust share at the passing of my mother on November 11, 2011. After long term efforts to obtain information about my beneficial rights in trust property were not fruitful, and with reason to believe my little sisters had implemented a scheme to steal my share of the family trust, I filed a breach of fiduciary claim in order to obtain an accounting and fiduciary disclosures. I asked for a jury trial on February 27, 2012 and I am still trying to get to a trial. Since asking for an accounting I have been threatened with disinheritance and, having been forced to file a lawsuit to get this information, I have been threatened, demeaned, subjected to obstruction, evasion and attrition tactics and even sanctioned for applying to the federal court to enforce the affirmative duty commanded by the preliminary federal injunction the Defendant Co-Trustees have perpetually ignored.

After more than ten years of abuse at the hands of the fiduciaries' counsel, my financial condition has been stressed to the point that I am unable to pay sanctions without enjoying the benefit of my trust property. I would be more than happy to pay these sanctions if I can obtain a distribution of my trust property.

I declare under penalty of perjury that the above statements are true and correct.

Respectfully submitted February 21, 2022

Candace Louise Curtis
Plaintiff/Beneficiary
