NEED TO BORROW?

Our Personal Line of Credit is a margin account. Borrowing against securities has its risks and is not appropriate for everyone. If the value of your collateral declines, you may be required to deposit cash or additional securities, or the securities in your account may be sold to meet the margin call. Interest will begin to accrue from the date of the loan and will be charged to the account. Available only on certain types of accounts.

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

DON'T SPEND YOUR REFUND, INVEST IT.

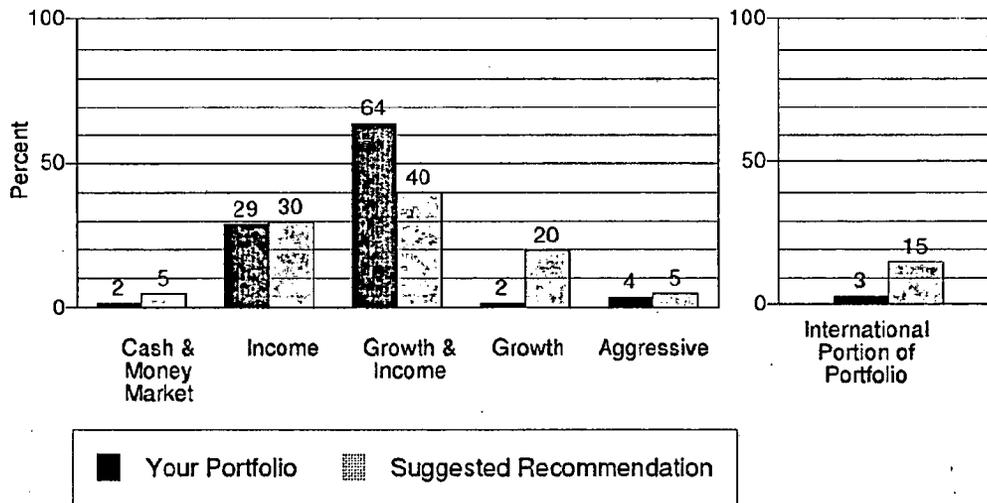

While it may be tempting to spend your tax refund on an exciting new gadget, a trendy vacation or a night on the town, investing your refund may make more sense. Investing today may mean even more fun in the future. Put the power of potential growth and compounding to work on your behalf. Invest your refund.

PAPER IS PASSE. REGISTER YOUR SECURITIES IN A FIRM-NAME ACCOUNT.
 Get rid of your paper certificates. When you register/hold securities in a firm-name account, Edward Jones becomes the custodian and day-to-day administrator while you reap many benefits. Simplified transactions, automated record keeping, consolidated information and timely reminders of bond calls, maturities and stock splits are conveniences that make sense. Call your investment representative to learn more.

Are you taking advantage of asset allocation?

The Value of Asset Allocation

Asset Allocation refers to the way you spread your investments among various investment categories. Proper asset allocation can help you better work toward your long-term financial goals. Edward Jones has developed suggested allocations for various Portfolio Objectives based on investors' circumstances.

This graph compares your Edward Jones investment and retirement account(s) investments to your Portfolio Objective. Through a comprehensive portfolio review, your investment representative can help you assess your financial goals, select an appropriate Portfolio Objective and identify the specific investments that should be included in your portfolio based on your specific situation. In addition, adjustments to your asset allocation will be influenced by your unique circumstances, including risk tolerance, time horizon, tax considerations and future investment or distribution needs.

(This graph includes all the assets in accounts listed under "A Unique Understanding of Your Financial Needs" on page 1 of this statement.)

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

Please refer to the important information and disclosures on the last page of this package.

NEED FUNDS TO PAY TAXES?

Consider your Edward Jones Personal Line of Credit. This margin account isn't available on all accounts. Borrowing against securities has risks and isn't appropriate for everyone. If the value of your collateral declines, you may be required to deposit cash or additional securities, or to sell securities in your account to meet the margin call. Interest begins to accrue from the loan date and is charged to your account.

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

DISCOVER WHY DIVIDEND-PAYING STOCKS MAY BE A BETTER CHOICE.

If you want investments that have the potential for rising income to help avoid losing purchasing power to inflation, consider dividend-paying stocks. Consider, though, that because stocks have price fluctuations, it's possible to receive more or less than your original investment when you sell stocks. And, dividends can increase, decrease or be eliminated at any point without notice.

ACCOUNT INFORMATION

Please see your account agreement forms for complete conditions governing your account. All transactions are subject to applicable rules of the exchange market and its clearing house where the trade occurred, as well as of the Securities Exchange Commission, the Federal Reserve Board and any applicable self-regulatory organizations. Please notify us promptly, if you believe there has been an error made in your account, or if you have other concerns. Refer to the cover page of this statement for our contact information.

You can only withdraw \$2,500 per day from a bank teller using your Edward Jones VISA debit card.

With questions regarding your mortgage or home equity loans, please refer to the separate loan statement issued for a description of fees and charges.

Account Protection - Edward Jones provides account protection for the net equity of your assets (except annuities and insurance) held in custody by Edward Jones for your account. Of that total, the Securities Investor Protection Corporation (SIPC) provides \$500,000 of coverage, including \$100,000 for claims of cash awaiting reinvestment (SIPC coverage). The remaining net equity is protected by Customer Asset Protection Company (CAPCO). This protection does not guard against market loss.

REGULATORY DISCLOSURES

Securities Investor Protection Corporation (SIPC): Information from SIPC, including the SIPC Brochure can be obtained at www.sipc.org or by calling (202)371-8300.

Financial Statement - The firm's financial statement is available at your branch office, or a copy will be mailed upon written request.

Rights to your Free Credit Balance - We are permitted to use your free credit balances to conduct our business, subject to the limitations of 17C.F.R.240 15c3-3 under the Securities Exchange Act of 1934. You have the right to receive, during normal business operations, free delivery of your credit balances; any securities to which you are entitled and which have been fully paid; upon full payment of any debt to us, any securities purchased on margin.

Amount of money you can borrow - What you can borrow is not a commitment to loan funds. The amount available is typically 50% of the value of your investments held at Edward Jones. Your loan value could change daily. Your investment representative has access to daily values as well as more information on the "Amount of money you can borrow" should you wish to activate this feature. The minimum portfolio value required to be eligible for this feature is \$4,000. Single, joint and business accounts are eligible.

Loan/Margin Accounts - If you have a loan or margin account, this statement covers: your general brokerage account; a special misc. account maintained for you under section 4(F)(6) of Regulation T issued by the Board of Governors of The Federal Reserve System; a separate account for securities you have sold short. The permanent record of this account is available upon request. If you have a credit balance in your loan account, the surplus amount is included with the amount shown for "cash and money market" balance.

Tax Withholding on Retirement Accounts - Federal income taxes of 10% on IRA or 20% on qualified plan distributions will be withheld unless a higher amount is elected or an IRS exception applies.

State income taxes are withheld depending upon your state of residence upon distribution. Your withholding election will remain in effect until federal or state rule changes. Insufficient withholding may subject you to estimated income-tax payments to avoid penalties.

Fair Market Value Information for Individual Retirement Accounts - If you have an IRA, Roth, SEP or SIMPLE, your December 31st fair market value will be reported to the Internal Revenue Service as required by law.

Required Minimum Distributions (RMDs) - RMDs from other IRAs must be calculated separately, but the total amount may be removed from one or more of your IRAs. RMDs from qualified plans must be calculated and removed separately from each plan and cannot be part of your IRA RMD. If you turned age 70-1/2 last year, and deferred your first RMD until the current year or you have unpriced securities in this account, the RMD Summary Section is understated. Verification by a tax professional is recommended.

Transaction/Settlement Dates - Securities transactions are noted on the settlement date shown on the transaction confirmation, excepting transactions involving Edward Jones Tax-free Money Market Fund or Edward Jones Money Market Investment Shares or Retirement Shares which are listed on the trade date. Additional sections report pending trades and open orders.

Contingent Deferred Sales Charge - Shares sold on certain mutual fund classes may be subject to a contingent deferred sales charge.

Portfolio Objective - Inform us promptly of any material change in your portfolio objective or financial situation.

Debt Securities Transactions - For debt securities transactions, call features may exist which could affect yield; complete information will be provided upon request.

Information for Investors - Edward Jones is a member of the New York Stock Exchange and the Chicago Stock Exchange. The firm also transacts business with a variety of dealers in securities, including listed and over-the-counter stocks and bonds, government and agency issues and municipal securities. For equity securities, the firm monitors performance of competing market centers and dealers and routes orders to those that consistently guarantee execution at the national best bid or offer or better. Routed market orders generally are directed to market centers or dealers that offer opportunity for better prices through either automated or manual systems. For agency transactions, the name of the other broker or party to the transaction will be furnished upon written request. For agency and principal transactions, the date and time of execution will be furnished upon written request. Periodically, the firm may receive other remuneration on agency trades from other sources; information will be furnished upon written request.

TERMINOLOGY

Total Estimated Value - The approximate value of the assets held at Edward Jones and outside companies at the statement date shown or date specified in the detail of Your Assets. It is estimated as the prices used to value your securities are provided by an outside service and do not always represent exact market prices. Edward Jones can't guarantee

the accuracy of such values; if you need the exact price, contact your investment representative. Values for many fixed-income charges are estimates based on coupon rate and credit rating and may not represent actual transaction price. Values don't include accrued interest or dividends and for some investments don't reflect applicable charges and fees.

Your Assets Held Outside Edward Jones - Balances are provided for your information only to give an overall view of your investments with Edward Jones. SIPC coverage isn't extended to assets held outside the custody of Edward Jones. Refer to the statement received directly from these companies for details.

Tax Information for Income Distributions - Your year-end tax documents (eg. Form 1099) will provide specific classifications of your income distributions. The 2003 tax law allows Qualified (Q) dividends to be taxed at reduced rates: 15%, or 5% for individuals whose tax rates are 15% or less. Nonqualified (N) dividends are taxed at ordinary rates. Some, but not all, of Partially Qualified (P) dividends are taxed at reduced rates.

Cost Basis - Cost basis is the amount paid for a security, including commissions, reinvestments and original issue discount (OID) and adjustments for sales, principal returns, splits and spin offs. Some data may be unsubstantiated and should not be relied upon for tax preparation.

Amount Invested/Withdrawn - Amount invested reflects all purchases and other additions to your holdings, with the exception of dividend reinvestments. Amount withdrawn shows how much of your investment has been sold, redeemed or transferred. These figures should not be used for tax reporting or tax preparation.

Ratings and Recommendations - Edward Jones research opinions, Standard & Poor's and Moody's ratings may be shown for certain securities. Ratings or recommendations should not be considered an indication of future performance.

Account Activity - Entries appearing in Account Activity sections under columns headed "Where Invested" or "Sources of Funds" are additions to or subtractions from your account. For clients who maintain a money market account, entries indicating "Tax-Free Money Market" mean Edward Jones Tax-Free Money Market Fund and entries indicating "Money Market" mean Edward Jones Money Market Investment Shares or Retirement Shares depending on the share class owned. Activity dates appearing under "Sources of Funds" correspond to the sale date of the designated Edward Jones Money Market Fund. Entries appearing under "Where Invested" will be transacted as a purchase of the previously designated Edward Jones Money Market Fund on the second business day after the date shown, with the following exceptions which will be transacted on the date indicated:

NOTE

Each section contains specific instructions for transferring title of a certain kind of asset to your Living Trust as well as a personalized instruction letter to send to your various asset institutions.

Most sections also contain an Assignment as an "insurance policy" to effect the transfer of title between the time you execute the Assignment and the institution's carrying out your instructions. Each Assignment is signed before a notary public. The original, signed Assignment should be placed behind the appropriate tab in your white funding binder. (Note: Change of beneficiary designations do not require an assignment.)

We recommend that you hand-carry the instruction letter and enclosures to local institutions. You would take your Certificate and Affidavit of Trust (signed copies are located in the maroon binder) with you. If you take two copies of your instruction letter, you could have the representative with whom you are dealing sign and date one copy for you to keep in your white funding binder. We suggest you keep a copy of every instruction letter or form you prepare.

Often, sending the instruction letter triggers the institution to send their own form to you. You might choose to call first, and ask if the letter from you would be sufficient, or whether there is a required form to complete, and have them put it in the mail. Always enclose a copy of the Certificate of Trust as proof of your trust. (If they require more, use the Affidavit of Trust.)

Calling first regarding accounts where securities are involved is especially helpful to determine whether or not a medallion guarantee is required for your signatures. These institutions typically have a 1-800 number for convenience.

Please call our office if you have any questions.

Assignment of Bank Accounts

Instructions

PURPOSE: To transfer title on **bank accounts** from your names as individuals into the name of your Living Trust. You will need to execute new signature cards to be kept on file at the financial institution.

Make sure that your total assets, including CD's, do not exceed \$100,000.00 in any one banking institution.

LOCAL FINANCIAL INSTITUTION

STEP ONE: Take your Living Trust Portfolio to the financial institution and talk to the person at the New Accounts desk.

STEP TWO: Ask to have the title on your account changed to the name of your Living Trust. Point out that the trust permits either one of you to transact business on behalf of the trust. Therefore, the signature cards should only require one signature for bank transactions. If the bank permits it, ask to keep the same account numbers on the accounts. Also, request that your checks remain printed as they are (not in the name of your Living Trust). If the bank requires the name of your trust on the checks, that will not cause you any difficulties in most cases.

STEP THREE: Produce a copy of your Certificate of Trust to show the proper name for the account, to show that you are the Trustees and that you have authority to open this type of account in the name of your Living Trust.

STEP FOUR: Sign the new signature cards. (You should not have to use the word "Trustee" as part of your signature.)

OUT OF TOWN FINANCIAL INSTITUTION

STEP ONE: If your **bank account** is held at a financial institution out of town, send the instruction letter and a copy of the Certificate of Trust. (Some institutions may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio binder. Be ready to send a copy if it's requested.)

STEP TWO: When you receive the new signature cards in the mail, made out in the name of your Living Trust, sign them and send them back to the institution. (You should not have to use the "Trustee" as part of your signature.)

Assignment of Bonds

Instructions

PURPOSE: To transfer title of individual bond certificates in your possession to the name of your Living Trust.

FIRST WAY: OPEN A BROKERAGE ACCOUNT (the easiest way)

If you want to avoid the expense, effort, and possibility of loss by the postal service, call a local stock broker and inquire about opening up a brokerage account for your portfolio. Under this arrangement the brokerage firm holds onto the actual bond certificates and collects the interest on your behalf. Your ownership, transactions, and income are all reported to you on periodic statements, including a year end summary to be used in preparing your income tax returns. The brokerage account should be registered in the name of your Living Trust. There is very little risk under these accounts because they are generally insured for at least \$500,000 in the event of a brokerage firm failure.

SECOND WAY: HAVE A BROKER CHANGE TITLE ON BONDS FOR YOU

If you want to keep the bonds yourself, without opening an account, some brokerage firms will charge you a flat fee of \$15.00 to \$30.00 per bond to transfer them into the name of your trust for you.

THIRD WAY: SEND THE CERTIFICATES TO THE TRANSFER AGENT YOURSELF (the most complicated way)

NOTE: It is possible that the Transfer Agent will not issue new certificates because by 1998 almost all companies will be making these entries and transfers electronically. Call your Transfer Agent's 1-800 number to determine if you will receive newly-issued certificates. If new certificates will not be issued, we recommend you use the first way outlined above to transfer title of your bonds to your Living Trust.

STEP ONE:

Fill out the Irrevocable Bond Power form for each entity for which you have a bond certificate. You must write in the following information:

1. Your social security number
2. The total number of bond certificates
3. Name of the company or entity issuing the bonds
4. Certificate numbers of the bonds
5. Name of Bond Transfer Agent
6. Date

Do not sign the form until your signature can be guaranteed with a "Medallion Guarantee". Securities law requires that the signatures on any request involving the transfer of ownership of stocks and bonds must be guaranteed (not notarized). Your signature can be guaranteed with a "Medallion guarantee" at the offices of many major brokerage firms or certain commercial banks or trust companies. Call your local bank or brokerage firm to ask if they provide this service. You must have a "Medallion guarantee." A regular guaranteed signature will not always suffice.

It is safer to mail the Irrevocable Bond Power in a separate envelope to reduce the risk of fraudulent transfer if the document should get into the wrong hands.

STEP TWO:

On the instruction letter, fill in the name and address of the bond Transfer Agent for the issuing company or entity and sign it. The name and address of the Transfer Agent will usually be identified either on the actual bond certificate or on papers accompanying your interest checks.

STEP THREE:

Assemble the following package of documents to send to the Transfer Agent of the bond issuer:

1. The instruction letter requesting that the certificates be changed to the trust name.
2. The one page Certificate of Trust to show that you are the Trustee and that you have authority to hold bonds in the trust name. (Some Transfer Agents may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio. Be ready to send a copy if it's requested.)

3. The W-9 IRS form, signed and completed. This will provide the necessary tax information for the transfer.
4. The original bond certificates.

STEP FOUR: Mail this package to the Transfer Agent by registered, insured mail to reduce the consequences of lost certificates.

STEP FIVE: If the Transfer Agent needs additional information to complete the transfer, he/she will notify you directly. If you haven't heard from the Transfer Agent within six weeks, follow up with another letter.

Assignment of Brokerage Accounts

Instructions

PURPOSE: To transfer title of **brokerage "Street Name" accounts** from your names as individuals to the name of your Living Trust. These are accounts at a brokerage firm that hold your publicly traded stocks and bonds. The brokerage firm holds the actual certificates in its "street name" so it is easier for you to trade. By changing the name on the account, you automatically change the beneficial ownership of all the securities in that account.

LOCAL BROKERAGE OFFICE

STEP ONE: Take your Estate Planning Portfolio to the brokerage firm and talk with your broker.

STEP TWO: Ask to have title to your account changed to the name of your Living Trust. Point out that the trust permits either one of you to transact business on behalf of the trust. Therefore, any transactions in the account should only require one signature. If the institution permits it, ask to keep the same account numbers on the accounts.

STEP THREE: Produce a copy of the one page Certificate of Trust to show the proper name for the account, to show that you are the Trustees and that you have authority to open up this type of account in the trust name. (Some institutions may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio binder.)

STEP FOUR: Fill out and sign the attached W-9 IRS form, Payer's Request for Taxpayer Identification number and any other forms the brokerage firm may need to make the transfer.

STEP FIVE: Your broker will provide you with an Irrevocable Stock or Bond Power form and assist you in filling it out and getting a "Medallion guarantee" for your signature.

OUT OF TOWN BROKERAGE OFFICE

If your **brokerage account** is held by a firm whose offices are out of town, take the following steps:

STEP ONE: Call you broker's 1-800 number to get specific instructions.

STEP TWO: Have your signatures guaranteed with a "Medallion guarantee" on the Irrevocable Stock or Bond form. Securities law requires that the signatures on any request involving the transfer of ownership of stocks and bonds must be guaranteed (not notarized). Your signatures can be guaranteed at the offices of many major brokerage firms or at certain commercial banks or trust companies. Call your local bank or brokerage firm to ask if they provide this service. It is best to have a "Medallion" guarantee instead of a regular guaranteed signature.

STEP THREE: Send the following package of documents to the brokerage firm:

1. The instruction letter requesting that the accounts be changed to the trust name.
2. A copy of the one page Certificate of Trust to show the proper name for the account, to show that you are the Trustees and that you have authority to open up this type of account in the trust name. (Some institutions may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio binder. Be ready to send a copy if it's requested.)
3. The W-9 IRS form, signed and completed, to provide the necessary tax information for the new account.
4. The Irrevocable Stock or Bond Power form with your signature "Medallion guaranteed".

STEP FOUR: If they need additional information to complete the transfer, they will notify you directly. If the next month's brokerage statement is in the name of your trust, you'll know your request has been honored. If not, follow up with the company.

Assignment of Certificates of Deposit

Instructions

PURPOSE: To transfer title of **Certificates of Deposit** from your names as individuals to the name of your Living Trust. To change title, new signature cards on file at the financial institution must be executed in the name of your Living Trust.

LOCAL FINANCIAL INSTITUTION

STEP ONE: If your Certificate of Deposit is held at a local financial institution, go to that branch and talk with the person at the New Accounts desk.

STEP TWO: Ask to have title to your Certificate of Deposit changed to the name of your Living Trust. If the institution permits it, ask to keep the same account numbers on the certificates.

Ask if changing title to your Certificate of Deposit will trigger a penalty. If it will trigger a penalty, make sure to have a "P.O.D." (Payable on Death) designation in the name of your trust and, when the C.D. reaches maturity, if you wish to continue that type of investment, have the new C.D. titled in the name of your trust.

STEP THREE: Produce a copy of your Certificate of Trust to show the proper name for the account, to show that you are the Trustees and that you have authority to open this type of account in the name of your Living Trust. (Some institutions may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio binder.)

STEP FOUR: Sign the new signature account cards.

OUT OF TOWN FINANCIAL INSTITUTION

STEP ONE: If your Certificate of Deposit is held at a financial institution out of town, send the instruction letter, a copy of the Certificate of Deposit and the one page Certificate of Trust. (Some institutions may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio. Be ready to send a copy if it's requested.)

STEP TWO: When you receive the new signature account cards in the mail made out in the name of your Living Trust, sign them as Trustees and send them back to the institution.

Assignment of Lease

Instructions

PURPOSE: To transfer your beneficial interest under a lease agreement from you as individuals to your Living Trust.

STEP ONE: Send the instruction letter to the lessee (renter). This will explain that you have legally assigned to your trust your right to receive rent payments under the lease agreement.

(There is no need to send any portion of your trust document to the lessee.)

STEP TWO: If the next rent payment you receive is made out to your Living Trust, you'll know that the lessee received your letter and understood what needed to be done. If the next rent payment is made out to you personally, you should contact the lessee and ask that future payments be made out to the trust.

NOTE: If the lessee refuses to cooperate and continues to make the payments to you personally, it is not a serious problem. All rent checks received by you personally can be deposited in a trust bank account which will automatically convert the funds into trust property. Because the Assignment of Lease legally transferred your interest when it was signed, upon your death any interest that remains in the lease will be administered by the trust.

Re: Real Estate Lease Agreement

To Whom It May Concern:

Because we are the Trustees of our trust, you can continue to send your rent payments to the same address you have used in the past. The only difference will be that the payment is to be made payable to the BRUNSTING FAMILY LIVING TRUST. If you have any questions regarding this change, please contact us right away at the above address or by telephone at (713) 464-4391.

RE: 21 282 000A
ELMER H BRUNSTING

Dear Policyholder

A recent review of our records shows that your policy has an outstanding loan. While the policy loan provision represents a valuable right, you should remember that such a loan is deducted from the policy proceeds at the time of settlement, possibly undermining the purpose for which the policy was purchased.

Recognizing this, you may have already considered fully repaying your loan or are presently making payments to reduce it. Each repayment you make helps restore the value of your insurance and allows your beneficiary to realize the policy's full promise. If you have already been making periodic repayments, the amount of principal shown below should reflect all but possibly your most recent payment.

The repayment stub below is designed to assist you in making repayment of your loan. If full repayment is not possible now, as little as \$20.00 will start your repayment program. When making subsequent repayments, be sure to write "Loan Repayment" and your policy number on the check. Please keep this letter with your checkbook as a repayment reminder to send future checks to our office shown below:

One of the most attractive features of your life insurance policy is that it pays dividends. MetLife shares a portion of its surplus (earnings) with policyholders through the distribution of declared policy dividends. We've paid dividends without interruption since becoming a mutual company in 1915. Each year dividends are credited to your policy provided premiums are paid to the policy's anniversary date.

Here are the dividend options offered by MetLife :

- **Additional Paid-Up Insurance**—You can use your dividends to add to your insurance coverage through the purchase of additional paid-up insurance. Paid-up insurance provides you with more life insurance coverage without having to pay additional out-of-pocket premium payments and without having to take a medical exam. In addition, paid-up insurance has an immediate cash value, which grows on a tax-deferred basis over time. This dividend option is not considered taxable as long as you do not cash in the additional insurance.
- **Dividends with Interest**—You can leave your dividends on deposit the way you do with a savings account. Interest is earned on these funds and the total amount of your Dividend with Interest balance grows over time. Each year we will send you and the Internal Revenue Service an official tax report (1099-INT) showing the taxable interest. Moreover, if dividends under this option plus other policy payments received in cash exceed your investment, **future dividends would be taxable.**
- **Premium Reduction**—You can apply your dividends to pay all or part of your premium.
- **Cash Payments**—You can receive a check for the amount of your dividend.
- **One-Year Term Coverage**—You can use your dividends to purchase one-year term coverage, which can be an inexpensive way to increase your insurance protection. (Not available on all policies.)

Your insurance policy describes your contractual rights and includes complete information regarding the dividend options that are available.

If you wish to change your dividend option, simply contact your local MetLife representative at the telephone number listed on the front of this statement.

Assignment of Limited Partnership Interest

Instructions

PURPOSE: To transfer the title of a Limited Partnership interest from your names as individuals to the name of your Living Trust.

STEP ONE: Send the instruction letter along with a copy of the Assignment of Limited Partnership Interest, the Certificate of Trust, and the Consent to Assignment to the managing general partner. This will show that you have legally assigned your interest and that, under the trust document, you have the power as Trustees to act as limited partners.

(Some partnerships may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio.)

If the partnership has a special form that needs to be filled out or wants additional information to complete the transfer, the managing partner will notify you.

STEP TWO: When the partnership approves the transfer, the managing general partner will return the signed Consent To Assignment form authorizing the change.

STEP THREE: Place the original of the signed Consent to Assignment next to the original Assignment of Limited Partnership in the funding binder.

STEP FOUR: If you haven't heard anything within four weeks, follow up with the managing general partner.

Assignment of Money Market Accounts

Instructions

PURPOSE: To transfer the title on **money market accounts** from your names as individuals to the name of your Living Trust. To change title, new signature cards on file at the financial institution must be executed in the name of your Living Trust.

LOCAL FINANCIAL INSTITUTION

STEP ONE: Take your Living Trust Portfolio to the financial institution and talk with the person at the New Accounts desk.

STEP TWO: Ask to have the title on your account changed to the name of your Living Trust. Point out that the trust permits either one of you to transact business on behalf of the trust. Therefore, the signature cards should only require one signature for bank transactions. If the institution permits it, ask to keep the same account numbers on the accounts.

STEP THREE: Produce a copy of your Certificate of Trust to show the proper name for the account, to show that you are the Trustees and that you have authority to open this type of account in the name of your Living Trust.

STEP FOUR: Sign the new signature cards.

OUT OF TOWN FINANCIAL INSTITUTION

STEP ONE: If your **money market account** is held at a financial institution out of town, send the instruction letter and a copy of the Certificate of Trust. (Some institutions may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio binder. Be ready to send a copy if it's requested.)

STEP TWO: When you receive the new signature cards in the mail made out in the name of your Living Trust, sign them as Trustees and send them back to the institution.

Assignment of Mutual Funds Accounts

Instructions

PURPOSE: To transfer the title on **Mutual Fund Accounts** from your name as individuals to the name of your Living Trust.

LOCAL MUTUAL FUND BROKER

STEP ONE: Take your Living Trust Portfolio to your broker.

STEP TWO: Ask to have title to your account changed to the name of your Living Trust. If the broker permits it, ask to keep the same account numbers on the accounts.

STEP THREE: Produce a copy of your Certificate of Trust to show the proper name for the account, to show that you are the Trustees and that you have authority to open this type of account in the name of your Living Trust. (Some institutions may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio binder.)

STEP FOUR: Fill out and sign the attached W-9 IRS form, Payer's Request for Taxpayer Identification Number, and any other forms the mutual fund company may need to make the transfer.

STEP FIVE: Your broker will provide you with an Irrevocable Stock or Bond Power form and assist you in filling it out and getting a "Medallion guarantee" for your signature if it is necessary to have one.

OUT OF TOWN MUTUAL FUND BROKER

If your Mutual Fund broker's office is out of town, take the following steps:

STEP ONE: Call your broker's 1-800 number to get specific instructions. Ask if you need an Irrevocable Stock or Bond Power as it may not be necessary.

STEP TWO:

If an Irrevocable Stock or Bond Power is required, have your signature "Medallion guaranteed" on that form. Securities law requires that the signatures on any request involving the transfer of ownership of stocks and bonds must be guaranteed (not notarized). Your signature can be "Medallion guaranteed" at the offices of many major brokerage firms or at certain commercial banks or trust companies. Call your local bank or brokerage firm to ask if they provide this service. It is better to have a "Medallion guarantee" instead of a regular guaranteed signature.

STEP THREE:

Send the following package of documents to the Mutual Fund broker:

1. The instruction letter requesting that the accounts be changed to the trust name.
2. A copy of the one page Certificate of Trust to show the proper name for the account, to show that you are the Trustees and that you have authority to open up this type of account in the trust name. (Some institutions may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio binder. Be ready to send a copy if it's requested.)
3. The W-9 IRS form, signed and completed, to provide the necessary tax information for the new account.
4. The Irrevocable Stock or Bond Power form with your signature "Medallion guaranteed."

STEP FOUR:

If they need additional information to complete the transfer, they will notify you directly. If the next month's mutual fund statement is in the name of your trust, you'll know your request has been honored. If not, follow up with the company.

Oil, Gas, and Mineral Interests

Instructions

All mineral interests should be titled in the name of your trust. The proper document to transfer title to mineral interests in Texas depends on how the assets came into existence. Those rights may be an interest in real estate or an interest in personal property.

The deed, lease, working interest agreement, division order, etc. must be examined in order to determine the exact method by which such right should be transferred to your trust. Accordingly, a copy of the document should be sent to our offices for review so that we can prepare the necessary transfer document. There is a nominal fee charged for the preparation of this document.

To transfer newly acquired items of personal property from you as individuals to your Living Trust. Personal property means all of the items in your possession that don't have specific documents of title. If you have any items of valuable personal property like original works of art or collections, these should be described specifically.

Assignment of Promissory Note

Instructions

PURPOSE: To transfer your interest under a Promissory Note from you as individuals to your Living Trust.

STEP ONE: Send the instruction letter to the debtor under the note. It is a good idea to attach a copy of the note to the letter to let the debtor immediately see evidence of the debt. The letter explains that you have legally assigned to your trust your right to receive payments under the promissory note.

(There is no need to send any portion of your trust document to the debtor.)

STEP TWO: If the next payment you receive under the terms of the note is made out to your Living Trust, you'll know that the debtor received your letter and understood what needed to be done. If the next payment is made out to you personally, you should contact the debtor and ask that future payments be made out to the trust.

NOTE: If the debtor refuses to cooperate and continues to make the payments to you personally, it is not really a serious problem. All checks received by you personally can be deposited in a trust bank account which will automatically convert the funds to trust property. Because the Assignment of Note legally transferred your interest when it was signed, upon your death any interest that remains in the note will be administered by the trust.

Real Estate Deed

Instructions

1. All real estate should be titled in the name of your trust. The proper document used to transfer title to real estate in Texas is a General Warranty Deed. A Quitclaim Deed is not appropriate for this purpose in Texas.
2. Since a General Warranty Deed is a legal document, you should let our office prepare it for you to make sure it complies with all legal requirements. You should provide us with a copy of the legal description of any real estate which you own so that we will have the information we need to prepare the deed for your property. The cost of the deed to your homestead is included in the original trust fee. A nominal fee is charged for the preparation of each additional deed.
3. If you own property in other states, you should consult an attorney in each state to insure that all real property outside the state of Texas is properly transferred to your trust. This will avoid probate proceedings in other states regarding your real estate.

Assignment of Sole Proprietorship

Instructions

PURPOSE: To transfer the ownership of your sole proprietorship business from you as individuals to your Living Trust. A sole proprietorship is a business that is basically an extension of you. It files no separate tax return because all income and deductions are reported on your personal income tax returns. It is not a partnership or a corporation and has no separate legal identity other than a name under which you may be doing business.

NOTE: In the Assignment of Sole Proprietorship, ownership of all the assets of your business are transferred to your trust. Because your goal is to avoid guardianship and probate on these assets in the event of your disability or death, the execution of the Assignment should be sufficient. If you have a fictitious business name statement on file for your business, you should amend that filing to substitute the trust name as the owner of the enterprise.

Assignment of Stocks

Instructions

PURPOSE: To transfer the title of individual certificates of publicly traded stock in your possession to the name of your Living Trust.

FIRST WAY: OPENING A BROKERAGE ACCOUNT (the easiest way)

If you want to avoid the expense, effort, and possibility of loss by the postal service, call a local stock broker and inquire about opening a brokerage account for your portfolio. Under this arrangement the brokerage firm holds onto the actual stock certificates and collects the interest on your behalf. Your ownership, transactions and income are all reported to you on periodic statements, including a year end summary to be used in preparing your income tax returns. The brokerage account should be registered in the name of your Living Trust. There is very little risk under these accounts because they are generally insured for at least \$500,000 in the event of a brokerage firm failure.

SECOND WAY: HAVE A BROKER CHANGE STOCKS FOR YOU

If you want to keep the stock certificates yourself, without opening an account, some brokerage firms will charge you a flat fee of \$15.00 to \$30.00 per bond to transfer them into the name of your trust for you.

THIRD WAY: SEND THE CERTIFICATES TO THE TRANSFER AGENT YOURSELF (the most complicated way)

NOTE: It is possible that the Transfer Agent will not issue new certificates because by 1998 almost all companies will be making these entries and transfers electronically. Call your Transfer Agent's 1-800 number to determine if you will receive newly-issued certificates. If new certificates will not be issued, we recommend you use the first way outlined above to transfer title of your stocks to your Living Trust.

STEP ONE:

Fill out the attached Irrevocable Stock Power form for each entity for which you have a stock certificate. You must write in the following information:

1. Your social security number
2. The total number of stock certificates
3. Name of the company or entity issuing the stocks
4. Certificate numbers of the stocks
5. Name of Stock Transfer Agent
6. Date

Do not sign the form until your signature can be guaranteed with a "Medallion guarantee". Securities law requires that the signatures on any request involving the transfer of ownership of stocks and bonds must be guaranteed (not notarized). Your signature can be guaranteed with a "Medallion guarantee" at the offices of many major brokerage firms or certain commercial banks or trust companies. Call your local bank or brokerage firm to ask if they provide this service. You must have a "Medallion guarantee." A regular guaranteed signature will not always suffice.

It is safer to mail the Irrevocable Stock Power and the stock certificates in a separate envelope to reduce the risk of fraudulent transfer if the documents should get into the wrong hands.

STEP TWO:

On the instruction letter, fill in the name and address of the stock Transfer Agent for the issuing company or entity and sign it. The name and address of the Transfer Agent will usually be identified either on the actual stock certificate or on papers accompanying your interest checks.

STEP THREE:

Assemble the following package of documents to send to the Transfer Agent of the stock issuer:

1. The instruction letter requesting that the certificates be changed to the trust name.
2. The one page Certificate of Trust to show that you are the Trustee and that you have authority to hold stocks in the trust name. (Some Transfer Agents may not accept the Certificate of Trust and may want to see the longer Affidavit of Trust to verify the trust terms. The Affidavit of Trust is located in your Estate Planning Portfolio. Be ready to send a copy if it's requested.)

3. The W-9 IRS form, signed and completed. This will provide the necessary tax information for the transfer.
4. The original stock certificates.

STEP FOUR: Mail the package to the Transfer Agent by registered, insured mail to reduce the consequences of lost certificates.

STEP FIVE: If the Transfer Agent needs additional information to complete the transfer, he/she will notify you directly. If you haven't heard back from the Transfer Agent within six weeks, follow up with another letter.

Assignment of U.S. Savings Bonds

Instructions

PURPOSE: To transfer the title of individual U.S. Savings Bond certificates in your possession to the name of your Living Trust. Complying with the government rules can be a very time consuming process, especially if you have several bond certificates to transfer.

Following the instruction letter, please find a sample form for your convenience.

STEP ONE: Fill out Treasury Department form PD F 1851, Request for Reissue of United States Savings Bonds/Notes in Name of Trustee of Personal Trust Estate. You must fill in the following information:

1. Total face amount of the bonds to be reissued in the trust's name.
2. Check the (a) box and enter your names as co-owners.
3. Check the (a) box indicating that you will be treated as the owners for tax purposes.
4. If one of you actually owns the bonds and are transferring them into co-ownership by this transfer, insert the name of the principal owner and insert that owner's social security number.
5. Enter the name of your Living Trust as follows:

_____ or _____, Trustees, or the
successor Trustees, under the _____ FAMILY
LIVING TRUST dated _____, as amended.

Enter your address and in the boxes to the right, the social security number of one of you.

SIGNING: On page 2, DO NOT SIGN THE FORM YET, but each of you must enter your home address, social security number and home telephone number.

WARNING: Your signatures **must** be made in the presence of, and be certified by, an authorized certifying officer who will then complete the certification portion of the form on page 2. Certifying officers are

located at an authorized banking institution. A list of banks with certifying officers is set forth in Department of Treasury circular number 530.

BOND LIST:

On the bottom on page 2 and continuing on page 4 is a place for you to list the following information about each bond certificate:

1. Issue date of the certificate.
2. Face amount of the certificate.
3. Certificate serial number.
4. All information inscribed on the certificate exactly as it appears, including full names, social security numbers and addresses if they are listed on the face of the bond.

STEP TWO:

Sign the instruction letter.

STEP THREE:

Assemble the following package of documents to be sent to the Federal Reserve Bank:

1. The instruction letter requesting that the certificates be reissued in the trust name.
2. The "signature certified" Treasury Department form PD F 1851, Request for Reissue of United States Savings Bonds/Notes in Name of Trustee of Personal Trust Estate.
3. The original bond certificates.
4. Certificate of Trust.

STEP FOUR:

Mail the package to the Federal Reserve Bank by registered and insured mail to reduce the consequences of lost certificates.

STEP FIVE:

If they need additional information to complete the transfer, they will notify you directly. If you haven't heard back from the Federal Reserve Bank within six weeks, follow up with another letter.

Under penalty of perjury, I, the undersigned grantor (creator) of the trust, certify that the above taxpayer identification number assigned to the trust is correct; and that I am not subject to backup withholding either (i) because I have not been notified that I am subject to backup withholding (as a result of a failure to report all interest or dividends), or (ii) because I have been notified by the Internal Revenue Service that I am no longer subject to backup withholding. INSTRUCTION
"BONDS" AS REFERRED TO BELOW ALSO INCLUDES SAVINGS NOTES WHEN APPROPRIATE

1. This form is to be used to request reissue of United States Savings Bonds in the name(s) of the trustee(s) of a personal trust estate created by:
 - a. The owner or both coowners.
 - b. Either of the coowners.
 - c. Some other person, provided (i) the owner is a beneficiary of the trust, or a beneficiary of the trust is related to the owner by blood (including legal adoption), or marriage, or (ii) either coowner is a beneficiary of the trust or a beneficiary of the trust is related to either coowner by blood (including legal adoption), or marriage.

"Personal trust estate" as used herein is a trust estate established by natural persons in their own right for the benefit of themselves or other natural persons in whole or in part, and common trust funds comprised in whole or in part of such estates. A bank, trust company or other financial institution, appointed as trustee of a personal trust estate, should submit Form PD 1455 with this form if the bonds are to be reissued in its name as trustee of its common trust fund.
2. After the form has been completed, it should be signed by the owner or by both coowners. If a beneficiary is named on the securities and they are Series E or H bonds or savings notes, the beneficiary must also sign the request. The home address and social security account number of the owner or both coowners must be furnished. The form may not be executed by a person under any legal disability, except for a minor of sufficient competency to sign the request and to understand the nature of the transaction. If any person whose signature is required is deceased, submit proof of death.
3. If a grantor (creator) of the trust who signs this form has been notified by the Internal Revenue Service that he or she is subject to backup withholding or if the Internal Revenue Service has notified appropriate persons that the trust estate is subject to backup withholding, the applicable statements immediately above the signature line to the effect that the owner, principal coowner, or trust is not subject to backup withholding should be crossed out. (If box 2.c. was checked on page 1 of this form to indicate that the trust was created by some other person, that person should obtain an I.R.S. Form W-9 from a financial institution or I.R.S. office, complete the form, and sign it. That form should be submitted with this form.) (If an employer identification number, i.e., 12-3456789, has been assigned to the trust estate, the trustee must furnish an I.R.S. Form W-9.)
4. Any person who is to execute the form must appear before and establish identification to the satisfaction of an authorized certifying officer, and in the presence of the officer sign the request. The certifying officer must then complete the certification. Authorized certifying officers are available at banking institutions in the United States. For a complete list of such officers, see Department of the Treasury Circular No. 530, current revision, or Public Debt Series No. 3-80.
5. Send the duly completed form and the bonds to any Federal Reserve Bank or Branch.

TAX LIABILITY

Upon the reissuance of savings bonds and/or notes to a trust, you must include in your gross income any accumulated interest on the bonds, including any tax-deferred increment noted on Series H/HH bonds, if you have not already reported it, unless, under the grantor trust provisions of the Internal Revenue Code, you are treated as the owner of the portion of the trust represented by any tax-deferred accumulated interest on the reissued bonds. If you are treated as the owner of that portion, the accumulated interest continues to be your income rather than that of the trust, and therefore, you may continue to defer reporting the interest earned each year. You must include the total accumulated interest in your gross income when the bonds are disposed of or finally mature, whichever is earlier. These rules apply when bonds being reissued are Series E or EE bonds, savings notes, or Series H or HH bonds that you have received in exchange for Series E or EE bonds or savings notes if you are the owner of the portion of the trust represented by the tax-deferred accumulated interest.

Generally, you will be treated as the owner of a trust that you have created to the extent that you retain certain powers over or interests in the trust. For example, you will be treated as the owner of the portion of the trust represented by any tax-deferred accumulated interest on the reissued bonds under the following circumstances:

- (1) You will be treated as the owner of a trust to the extent that you have an unconditional power to revest in yourself title to the trust assets. Thus, if you can, at your discretion, revoke all or part of the trust so that the bonds will be returned to you, you will be treated as the owner of the portion of the trust represented by any accumulated interest on the bonds.
- (2) If the trust instrument provides that the reissued bonds or the proceeds from the redemption or disposition of those bonds must be distributed to you or your spouse, or held or accumulated for future distribution to you or your spouse, you will be treated as the owner of the portion of the trust represented by any accumulated interest on the bonds. You will be treated as the owner in this circumstance irrespective of the term of the trust.
- (3) You will be treated as the owner of a trust to the extent that you retain a power to control the beneficial enjoyment of property transferred to a trust. Thus, if you retain, under the terms of the trust instrument, an immediately exercisable power to determine, in your sole discretion, who will receive the bonds or the proceeds from the redemption or disposition of the bonds, then you will be treated as the owner of the portion of the trust represented by any accumulated interest.

The examples outlined above are illustrative only and they are not intended to cover all possible situations in which you could be treated as the owner of a trust or a portion of a trust. Furthermore, events can occur, such as the renunciation of a retained power or interest, which would cause you to cease being treated as the owner of a trust. If you are not sure whether you will be treated as the owner of a trust, you may request a letter ruling from the Internal Revenue Service. A request for a letter ruling should be sent to:

Internal Revenue Service
Associate Chief Counsel (Technical)
Attention CC:IND:S:3:3
Room 6545
1111 Constitution Avenue, N.W.
Washington, D.C. 20224

If you have any questions concerning the information to be submitted in connection with a letter ruling request, you may call (202) 566-3297 and speak to a representative of the Financial Institutions and Products Division.

IMPORTANT INFORMATION ABOUT YOUR MEDICARE PART B MEDICAL INSURANCE BENEFITS

For more information about services covered by Medicare, please see your Medicare Handbook.

MEDICARE PART B MEDICAL INSURANCE: Medicare Part B helps pay for doctors' services, diagnostic tests, ambulance services, durable medical equipment, and other health care services. Medicare Part A Hospital Insurance helps pay for inpatient hospital care, inpatient care in a skilled nursing facility following a hospital stay, home health care and hospice care. You will be sent a separate notice if you received Part A services or any outpatient facility services.

MEDICARE ASSIGNMENT: Medicare Part B claims may be assigned or unassigned. Providers who accept assignment agree to accept the Medicare approved amount as total payment for covered services. Medicare pays its share of the approved amount directly to the provider. You may be billed for unmet portions of the annual deductible and the coinsurance. You may contact us at the address or telephone number in the Customer Service Information box on the front of this notice for a list of participating providers who always accept assignment. You may save money by choosing a participating provider.

Doctors who submit unassigned claims have not agreed to accept Medicare's approved amount as payment in full. Generally, Medicare pays you 80% of the approved amount after subtracting any part of the annual deductible you have not met. A doctor who does not accept assignment may charge you up to 115% of the Medicare approved amount. This is known as the Limiting Charge. Some states have additional payment limits. The NOTES section on the front of this notice will tell you if a doctor has exceeded the Limiting Charge and the correct amount to pay your doctor under the law.

YOUR RESPONSIBILITY: The amount in the **You May Be Billed** column is your share of cost for the services shown on this notice. You are responsible for:

- **annual deductible:** taken from the first Medicare Part B approved charges each calendar year,
- **coinsurance:** 20% of the Medicare approved amount, after the deductible has been met for the year,
- the amount billed, up to the **limiting charge**, for unassigned claims, and
- charges for services/supplies that are **not covered** by Medicare. You may not have to pay for certain denied services. If so, a NOTE on the front will tell you.

If you have supplemental insurance, it may help you pay these amounts. If you use this notice to claim supplemental benefits

from another insurance company, make a copy for your records.

WHEN OTHER INSURANCE PAYS FIRST: All Medicare payments are made on the condition that you will pay Medicare back if benefits could be paid by insurance that is primary to Medicare. Types of insurance that should pay before Medicare include employer group health plans, no-fault insurance, automobile medical insurance, liability insurance and workers' compensation. Notify us right away if you have filed or could file a claim with insurance that is primary to Medicare.

YOUR RIGHT TO APPEAL: If you disagree with what Medicare approved for these services, you may appeal the decision. You must file your appeal within **120 days of the date you receive this notice**. Unless you show us otherwise, we assume you received this notice 5 days after the date of this notice. Follow the appeal instructions on the front of the last page of the notice. If you want help with your appeal, a friend or someone else can help you. Also, groups such as legal aid services may provide free assistance. To contact us for the names and telephone numbers of groups in your area, please see our Customer Service Information box on the front of this notice.

HELP STOP MEDICARE FRAUD: Fraud is a false representation by a person or business to get Medicare payments. Some examples of fraud include:

- offers of goods or money in exchange for your Medicare Number,
- telephone or door-to-door offers of free medical services or items, and
- claims for Medicare services or items you did not receive.

If you think a person or business is involved in fraud, you should call Medicare at the Customer Service telephone number on the front of this notice.

INSURANCE COUNSELING AND ASSISTANCE:

Insurance Counseling and Assistance programs are located in every State. These programs have volunteer counselors who can give you free assistance with Medicare questions, including enrollment, entitlement, Medigap and premium issues. If you would like to know how to get in touch with your local Insurance Counseling and Assistance Program Counselor, please call us at the number shown in the Customer Service Information box on the front of this notice.

General Information: (continued)

If you aren't due a payment check from Medicare, your Medicare Summary Notices (MSN) will now be mailed to you on a quarterly basis. You will no longer get a monthly statement in the mail for these types of MSNs. You will now get a statement every 90 days summarizing all of your Medicare claims. Your provider may send you a bill that may need to pay before you get your MSN. When you get your MSN, look to see if you paid more than the MSN says is due. If you paid more, call your provider about a refund. If you have any questions about the bill from your provider, you should call your provider.

Please have your complete Medicare number with you when you call 1-800-MEDICARE so your record can be located. For your protection this MSN does not include your entire number.

If you change your address, contact the Social Security Administration by calling 1-800-772-1213.

Glaucoma may cause blindness. Medicare helps pay for a yearly dilated eye exam for people at high risk for Glaucoma. African-American people over 50, and people with diabetes or a family history of glaucoma are at higher risk. Talk to your doctor to learn if this exam is right for you.

SECTION 2. Which "drug payment stage" are you in?

As shown below, your prescription drug coverage has "drug payment stages." How much you pay for a prescription depends on which payment stage you are in when you fill it. During the calendar year, whether you move from one payment stage to the next depends on how much is spent for your drugs.

STAGE 1 Yearly Deductible

- During this payment stage, you (or others on your behalf) pay the full cost of your brand-name drugs.
- You generally pay the full cost of your brand-name drugs until you (or others on your behalf) have paid \$310.00 for your brand-name drugs (\$310.00 is the amount of your brand name deductible).

STAGE 2 Initial Coverage

- During this payment stage, the plan pays its share of the cost of your drugs and you (or others on your behalf) pay your share of the cost.
- You generally stay in this stage **until the amount of your year-to-date "total drug costs" reaches \$2,840.00**. Then you move to payment stage 3, Coverage Gap.

You are in this stage:

STAGE 3 Coverage Gap

- Once you reach this Stage, manufacturer discounts apply when you purchase brand drugs so that when coupled with the amount the Plan pays, the amount you pay is similar to what you pay prior to entry into the Coverage Gap stage.
- You generally stay in this stage until the amount of your year-to-date "out-of-pocket costs" reaches \$4,550.00. As of 06/30/2011 your year-to-date "out-of-pocket costs" was \$748.70 (see Section 3).

STAGE 4 Catastrophic Coverage

- During this payment stage, the plan pays **most** of the cost for your covered drugs.
- You generally stay in this stage for the rest of the calendar year (through December 31, 2011).

What happens next?

- Once you (or others on your behalf) have paid an **additional \$3,801.30 in "out-of-pocket costs"**, you move to the next payment stage (stage 4, Catastrophic Coverage).

SECTION 3. Your "out-of-pocket costs" and "total drug costs" (amounts and definitions)

We're including this Section to help you keep track of your "out-of-pocket costs" and "total drug costs" because these costs determine which drug payment stage you are in. As explained in Section 2, the payment stage you are in determines how much you pay for your prescriptions.

Your "out-of-pocket costs"

\$218.80 month of June 2011

\$748.70 year-to-date (since January 2011)

DEFINITION:

"Out-of-pocket costs" includes:

- What you pay when you fill or refill a prescription for a covered Part D drug. (This includes payments for your drugs, if any, that are made by family or friends.)
- Payments made for your drugs by any of the following programs or organizations: "Extra Help" from Medicare; Medicare's Coverage Gap Discount Program; Indian Health Service; AIDS drug assistance programs; most charities; and most State Pharmaceutical Assistance Programs (SPAPs).

It does not include:

- Payments made for: a) plan premiums, b) drugs not covered by our plan, c) non-Part D drugs (such as drugs you receive during a hospital stay), d) drugs covered by our plan's Supplemental Drug Coverage, e) drugs obtained at a non-network pharmacy that does not meet our out-of-network pharmacy access policy.
- Payments made for your drugs by any of the following programs or organizations: employer or union health plans; some government-funded programs, including TRICARE and the Veteran's Administration; Worker's Compensation; and some other programs.

Your "total drug costs"

\$677.61 month of June 2011

\$3,399.45 year-to-date (since January 2011)

DEFINITION:

"Total drug costs" is the total of all payments made for your covered Part D drugs. It includes:

- What the plan pays.
- What you pay.
- What others (programs or organizations) pay for your drugs.

NOTE: Our plan offers Supplemental Drug Coverage for some drugs not generally covered by Medicare. If you have filled any prescriptions for these drugs this month, they are listed in a separate chart (Chart 2) in Section 1. The amounts paid for these drugs do not count toward your out-of-pocket costs or total drug costs.

Learn More: Medicare has made the rules about which types of payments count and do not count toward "out-of-pocket costs" and "total drug costs". The definitions on this page give you only the main rules. For details, including more about "covered Part D drugs", see the *Evidence of Coverage*, our benefits booklet (for more about the *Evidence of Coverage*, see Section 6).

SECTION 4. Updates to the plan's Drug List that will affect drugs you take

At this time, there are no upcoming changes to our Drug List that will affect the coverage or cost of **drugs you take**. (By "drugs you take", we mean any plan-covered drugs for which you filled prescriptions in 2011 as a member of our plan.)

SECTION 5. If you see mistakes on this summary or have questions, what should you do?

If you have questions, call us

If something is confusing or doesn't look right on this monthly prescription drug summary, please call us at Medco Medicare Prescription Plan Member Services (phone numbers are on the cover of this summary). You can also find answers to many questions at our website: www.medco.com.

What about possible fraud?

Most health care professionals and organizations that provide Medicare services are honest. Unfortunately, there may be some who are dishonest.

If this monthly summary shows drugs you're not taking, or anything else that looks suspicious to you, please contact us.

- Call us at Medco Medicare Prescription Plan Member Services (phone numbers are on the cover of this summary).
- Or, call Medicare at 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048. You can call these numbers for free, 24 hours a day, 7 days a week.

SECTION 6. Important things to know about your drug coverage and your rights

Your "Evidence of Coverage" has the details about your drug coverage and costs

The *Evidence of Coverage* is our plan's benefits booklet. It explains your drug coverage and the rules you need to follow when you are using your drug coverage.

We have sent you a copy of the *Evidence of Coverage*. If you need another copy, please call us (phone numbers are on the cover of this summary).

Remember, to get your drug coverage under our plan you must use pharmacies in our network, except in certain circumstances. Also, quantity limitations and restrictions may apply.

What if you have problems related to coverage or payments for your drugs?

Your *Evidence of Coverage* has step-by-step instructions that explain what to do if you have problems related to your drug coverage and costs. Here are the chapters to look for:

- Chapter 5. Asking the plan to pay its share of a bill you have received for covered services or drugs.
- Chapter 7. What to do if you have a problem or complaint (coverage decisions, appeals, complaints).

Here are things to keep in mind:

- When we decide whether a drug is covered and how much you pay, it's called a "coverage decision". If you disagree with our coverage decision, you can appeal our decision (see Chapter 7 of the *Evidence of Coverage*).
- Medicare has set the rules for how coverage decisions and appeals are handled. These are legal procedures and the deadlines are important. The process can be done if your doctor tells us that your

health requires a quick decision.

Please ask for help if you need it. Here's how:

- You can call us at Medco Medicare Prescription Plan for Chevron Member Services (phone numbers are on the cover of this monthly summary).
- You can call Medicare at 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048. You can call these numbers for free, 24 hours a day, 7 days a week.
- You can call your State Health Insurance Assistance Program (SHIP). The name and phone numbers for this organization are in Chapter 2, Section 3 of your *Evidence of Coverage*.

Did you know there are programs to help people pay for their drugs?

- **"Extra Help" from Medicare.** You may be able to get Extra Help to pay for your prescription drug premiums and costs. This program

is also called the "low-income subsidy" or LIS. People whose yearly income and resources are below certain limits can qualify for this help. To see if you qualify for getting Extra Help, see Section 3 of your *Medicare & You 2011* handbook or call 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048. You can call these numbers for free, 24 hours a day, 7 days a week. You can also call the Social Security Office at 1-800-772-1213 between 7 a.m. and 7 p.m., Monday through Friday. TTY users should call 1-800-325-0778. You can also call your State Medicaid Office.

- **Help from your state's pharmaceutical assistance program.** Many states have State Pharmaceutical Assistance Programs (SPAPs) that help some people pay for prescription drugs based on financial need, age, or medical condition. Each state has different rules. Check with your State Health Insurance Assistance Program (SHIP). The name and phone numbers for this organization are in Chapter 2, Section 3 of your *Evidence of Coverage*.

IMPORTANT INFORMATION YOU SHOULD KNOW ABOUT YOUR MEDICARE BENEFITS

For more information about services covered by Medicare, please see your Medicare Handbook.

PART A HOSPITAL INSURANCE (INPATIENT)

helps pay for inpatient hospital care, inpatient care in a skilled nursing facility following a hospital stay, home health care and hospice care. Inpatient services are measured in benefit periods. A benefit period begins the first time you receive Medicare covered inpatient hospital care and ends when you have been out of the hospital or skilled nursing facility for 60 consecutive days. There is no limit to the number of benefit periods you may have.

THE AMOUNT YOU MAY BE BILLED for Part A services includes:

- an inpatient hospital deductible once during each benefit period,
- a coinsurance amount for the 61st through the 90th days of a hospital stay during each benefit period,
- a coinsurance amount for each Lifetime Reserve Day, which can be used if you have to stay in the hospital more than 90 days in one benefit period. Lifetime Reserve Days may be used only once.
- a blood deductible for the first three pints of unreplaced blood furnished to you in a calendar year in some states,
- an inpatient coinsurance for the 21st through the 100th days of a Medicare covered stay in a skilled nursing facility,
- charges for services or supplies that are not covered by Medicare. You may not have to pay for certain denied services. If so, a NOTE on the front will tell you.

PART B MEDICAL INSURANCE (OUTPATIENT FACILITIES) helps pay for care provided by certified medical facilities, such as hospital outpatient departments, renal dialysis facilities, and community health centers.

THE AMOUNT YOU MAY BE BILLED for Part B services includes:

- an annual deductible, taken from the first Medicare Part B charges each year;
- after the deductible has been met for the year, depending on services received, a coinsurance amount (20 percent of the amount charged), or a fixed copayment for each service; and
- charges for services or supplies that are not covered by Medicare. You may not have to pay for certain denied services. If so, a note on the front will tell you.

If you have supplemental insurance, it may help to pay the amounts you may be billed. If you use this notice to claim supplemental benefits from another insurance company,

make a copy for your records.

WHEN OTHER INSURANCE PAYS FIRST: All Medicare payments are made on the condition that you will pay Medicare back if benefits could be paid by insurance that is primary to Medicare. Types of insurance that should pay before Medicare include employer group health plans, no-fault insurance, automobile medical insurance, liability insurance and worker's compensation. Notify us right away if you have filed or could file a claim with insurance that is primary to Medicare.

YOUR RIGHT TO APPEAL: If you disagree with what Medicare approved for these services, you may appeal the decision. You must file your appeal within 120 days of the date you receive this notice. Unless you show us otherwise, we assume you received this notice 5 days after the date of this notice. Follow the appeal instructions on the front of the last page of this notice. If you want help with your appeal, a friend or someone else can help you. Also, groups such as legal aid services may provide free assistance. To contact us for the names and telephone numbers of groups in your area, please see our Customer Service Information box on the front of this notice

HELP STOP MEDICARE FRAUD: Fraud is a false representation by a person or business to get Medicare payments. Some examples of fraud include:

- offers of goods or money in exchange for your Medicare Number
- telephone or door to door offers of free medical services or items, and
- claims for Medicare services/items you did not receive.

If you think a person or business is involved in fraud, you should call Medicare at the Customer Service telephone number on the front of this notice.

INSURANCE COUNSELING AND ASSISTANCE:

Insurance Counseling and Assistance programs are located in every state. These programs have volunteer counselors who can give you free assistance with Medicare questions, including enrollment, entitlement, Medigap, and premium issues. If you would like to know how to get in touch with your local Insurance Counseling and Assistance Program Counselor, please call us at the number shown in the Customer Service Information box on the front of this notice.

**Memorial Hermann Healthcare System
Charity Care Program**

Memorial Hermann Healthcare System's Charity Policy and Admissions Policy govern how charity care is provided. On the basis of these policies, a determination will be made regarding a patient's eligibility for charity care.

Payment from all other possible payment sources must be exhausted before a patient can be considered for the charity care program. For patients who do not have insurance coverage, alternate funding and payment plan options may be available. Our staff or contracted agents work with patients to identify potential options.

Charity care may be available to patients who do not have the means to pay for their healthcare expenses and do not qualify for any government or other programs. A patient may qualify for charity based on federal poverty guidelines.

To be considered for this program, patients are required to provide financial information for the household by completing a Financial Information Form along with supporting documentation. To verify income, the most current Federal Income Tax Return should be provided. Other pieces of supporting documentation may be requested in addition to or instead of the Tax Return, including: Last two Employer paycheck stubs, written documentation from income sources, and a copy of all bank statements for the last three months. Memorial Hermann reserves the right to review an applicant's credit report, property tax records, and/or other public or personal documents prior to a determination regarding program eligibility.

To request a Financial Information Form, please contact our Customer Service Department at the phone number listed on the reverse side of this statement.

**Sistema de Atención de la Salud del Memorial Hermann
Programa de Atención de Beneficencia**

La Política de Beneficencia del Sistema de Atención de la Salud y la Política de Admisiones del Memorial Hermann, rigen la manera como se suministra la atención de beneficencia. Basados en estas políticas, se hará una determinación respecto a la elegibilidad del paciente para dicha atención.

El pago proveniente de toda otra fuente de pago posible debe agotarse antes de que un paciente pueda ser considerado para el programa de atención de beneficencia. Para pacientes que no tienen cobertura de seguro, podrían estar disponibles opciones alternativas de fondos y planes de pago. Nuestro personal o agentes contratados trabajan conjuntamente con los pacientes para identificar las posibles opciones.

La atención de beneficencia podría estar disponible para pacientes que no tienen medios para pagar los gastos de atención de su salud y que no califican para ningún programa del gobierno u otros programas. Un paciente puede calificar para beneficencia, en base a las pautas federales de pobreza.

Para ser considerado para este programa, los pacientes necesitan suministrar la información financiera del hogar, al llenar el Formulario de Información Financiera junto con documentación comprobante. Para verificar los ingresos, debe suministrarse la última Planilla de los Impuestos Federales Sobre la Renta. Se podrían exigir otros documentos comprobantes, además o en lugar de la Planilla del Impuesto sobre la Renta, incluyendo: los dos últimos talones de los cheques de pago de su Empleador; documentación escrita de fuentes de ingreso y una copia de todas las cuentas de bancos correspondientes a los últimos tres meses. Memorial Hermann se reserva el derecho de revisar un reporte de crédito de un solicitante, los registros de impuestos sobre bienes y/o otros documentos públicos previo a la determinación acerca de la elegibilidad para el programa. Para solicitar un Formulario de Información Financiera, por favor póngase en contacto con el Departamento de Servicio al Cliente en el número telefónico que aparece en el reverso de este comunicado.

**IMPORTANT NOTICE TO RECIPIENTS FOR PENSION OR ANNUITY
PAYMENTS ONLY**

If Federal Income Taxes have been withheld from the payments you are receiving and if you do not wish to have taxes withheld, please let us know. However, if you elect not to have withholding apply to your payments, or if you do not have enough Federal Income Tax withheld from your payment, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient. Withholding is merely a method of paying taxes which you owe and therefore does not change your total liability.

If Federal Income Taxes are not being withheld from your payment because you have elected not to have withholding apply and if you wish to revoke that election and have Federal Income Taxes withheld from your payments, please let us know.

Payments made to United States citizens and delivered to an address outside the United States may be subject to federal withholding tax. The recipient is not allowed to elect out of federal tax withholding. Unless there is an election on file, the standard withholding amount for periodic payments is based on married with three withholding allowances. Generally, payments made to Non-Resident Aliens are subject to a 30% United States federal tax withholding. To the extent that some non-resident aliens are resident in countries that have reduced withholding rates pursuant to tax treaties with the United States, lower withholding rates would be applied. In order to withhold taxes at a lower rate, we must have a valid W8-BEN form on file for the person or entity to which the payment was made. Failure to complete a valid W8-BEN will result in a 30% tax withholding from the payment.

Is the amount of your Iowa tax refund different than you expected?

- Check your return or claim. If the amount is different, an adjustment may have been made. If so, you will receive a letter from the Iowa Department of Revenue that will fully explain the reason(s) your refund amount was adjusted. Because the letter is prepared separately, there is often a delay of several days between receipt of the refund check and the letter.
- If you do not receive your letter in 10 days, call 515/281-3363. If you have questions about the adjustment to your refund amount *after* you receive the letter of explanation, please follow the directions on that letter.
- If your refund is larger than you requested, it may include interest. If the only reason for a larger refund is interest, you will not receive a follow-up letter.

A SAFETY MESSAGE FROM CENTERPOINT ENERGY

Do not use or store flammable products such as gasoline in the same room or area near the water heater or any other gas appliance. No use ni almacene productos inflamables tales como gasolina en la misma habitación o en áreas cercanas a un calentador de agua u otro tipo de aparato a gas.

UNDERSTANDING YOUR BILL

Total amount due. This is the difference between your previous balance and your payment, with any adjustments to your account, plus your current charges.

Customer charge and base amount. Covers fixed costs for reading meters, issuing bills, maintaining facilities and gas lines, postage, etc. These costs occur even if you do not use gas during a billing period.

Gas cost adjustment (GCA). This is the portion of your bill caused by the fluctuating cost of gas that CenterPoint Energy purchases for your use. The adjustment is subject to change each month, up or down, depending on the supply of gas and current market rates. The amount of the adjustment represents your share of CenterPoint Energy's actual costs. CenterPoint Energy does not mark up the cost of gas.

Meter readings, CCF. The difference between the current and previous meter readings shown on your bill measures the volume of gas you used in CCFs (hundreds of cubic feet).

Historical information. Historical usage information is available at no charge, upon the consumer's request.

Payment arrangements. If you need to make payment arrangements on your gas bill, or enter into a delayed payment agreement, please call the local or toll free number listed on the front of your bill.

Additional services. Additional services also include the following: Automatic Bank Draft, Average Monthly Billing, third party billing, assistance to elderly and handicapped customers, notification of certified medical emergency and Energy Assistance Programs.

In accordance with Federal Reserve Board guidelines, personal checks that you send us for payment may be processed electronically. This means your check will not be returned by your financial institution. Please contact the customer service number printed on your invoice with questions concerning this process. For further information, visit CheckConversionEducation.org.

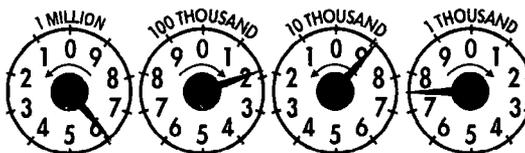

Factors affecting your gas bill. Any one, or combination, of these factors can change the amount of your bill:

- Colder or warmer weather;
- Wholesale cost of gas;

- Differences in the number of days billed;
- Changes in living habits, number of people, appliances, or weatherization.

The following is an example of how to read a typical meter index:

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the "thousand-foot" dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the "10-thousand" dial. The curved arrow on the dial above shows a counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned "Same or Lower Number Rule" must be applied. Since the pointer in the "thousand-foot" dial to the right is nearer the 8 and the pointer has not reached the 0, the "10-thousand" dial should be read as 8.
3. Read the "100-thousand" dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the "10-thousand" dial is between 8 and 9, take the lower reading number, 1, for the "100-thousand" dial.
4. Read the left-most dial, the "million-foot" dial. The pointer is near the 6. Using the "Same or Lower Number Rule," we find the pointer on the dial to the right is between 1 and 2, so we read the "million-foot" dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.

Online Billing. Pay at CenterPointEnergy.com. Go to your service area and select Online Billing to view and pay your monthly bill online.

Moving? Please call us at the number on the front of this bill at least two weeks before you move, or let us know online at CenterPointEnergy.com. We will take gas service out of your name at your old address and make sure you have gas service at your new address when you need it. Thank you.

The Plan has retail, retail maintenance, mail-order, long-term care, home infusion and Indian/Tribal/Urban pharmacies in its network. A network pharmacy is a pharmacy where beneficiaries obtain prescription drug benefits provided by the Plan. In most cases, your prescriptions are covered under the Plan only if they are filled at a network pharmacy or through our mail-order pharmacy service. Once you go to one, you are not required to continue going to the same pharmacy to fill your prescription; you can go to any of our network pharmacies. We will fill prescriptions at out-of-network pharmacies under certain circumstances, as described in your Evidence of Coverage.

IMPORTANT INFORMATION ABOUT YOUR MEDICARE PART B MEDICAL INSURANCE BENEFITS

For more information about services covered by Medicare, please see your Medicare Handbook.

MEDICARE PART B MEDICAL INSURANCE: Medicare Part B helps pay for doctors' services, diagnostic tests, ambulance services, durable medical equipment, and other health care services. Medicare Part A Hospital Insurance helps pay for inpatient hospital care, inpatient care in a skilled nursing facility following a hospital stay, home health care and hospice care. You will be sent a separate notice if you received Part A services or any outpatient facility services.

MEDICARE ASSIGNMENT: Medicare Part B claims may be assigned or unassigned. Providers who accept assignment agree to accept the Medicare approved amount as total payment for covered services. Medicare pays its share of the approved amount directly to the provider. You may be billed for unmet portions of the annual deductible and the coinsurance. You may contact us at the address or telephone number in the Customer Service Information box on the front of this notice for a list of participating providers who always accept assignment. You may save money by choosing a participating provider.

Doctors who submit unassigned claims have not agreed to accept Medicare's approved amount as payment in full. Generally, Medicare pays you 80% of the approved amount after subtracting any part of the annual deductible you have not met. A doctor who does not accept assignment may charge you up to 115% of the Medicare approved amount. This is known as the Limiting Charge. Some states have additional payment limits. The NOTES section on the front of this notice will tell you if a doctor has exceeded the Limiting Charge and the correct amount to pay your doctor under the law.

YOUR RESPONSIBILITY: The amount in the **You May Be Billed** column is your share of cost for the services shown on this notice. You are responsible for:

- **annual deductible:** taken from the first Medicare Part B approved charges each calendar year,
- **coinsurance:** 20% of the Medicare approved amount, after the deductible has been met for the year,
- the amount billed, up to the limiting charge, for unassigned claims, and
- charges for services/supplies that are **not covered** by Medicare. You may not have to pay for certain denied services. If so, a NOTE on the front will tell you.

If you have supplemental insurance, it may help you pay these amounts. If you use this notice to claim supplemental benefits

from another insurance company, make a copy for your records.

WHEN OTHER INSURANCE PAYS FIRST: All Medicare payments are made on the condition that you will pay Medicare back if benefits could be paid by insurance that is primary to Medicare. Types of insurance that should pay before Medicare include employer group health plans, no-fault insurance, automobile medical insurance, liability insurance and workers' compensation. Notify us right away if you have filed or could file a claim with insurance that is primary to Medicare.

YOUR RIGHT TO APPEAL: If you disagree with what Medicare approved for these services, you may appeal the decision. You must file your appeal within **120 days of the date you receive this notice**. Unless you show us otherwise, we assume you received this notice 5 days after the date of this notice. Follow the appeal instructions on the front of the last page of the notice. If you want help with your appeal, a friend or someone else can help you. Also, groups such as legal aid services may provide free assistance. To contact us for the names and telephone numbers of groups in your area, please see our Customer Service Information box on the front of this notice.

HELP STOP MEDICARE FRAUD: Fraud is a false representation by a person or business to get Medicare payments. Some examples of fraud include:

- offers of goods or money in exchange for your Medicare Number,
- telephone or door-to-door offers of free medical services or items, and
- claims for Medicare services or items you did not receive.

If you think a person or business is involved in fraud, you should call Medicare at the Customer Service telephone number on the front of this notice.

INSURANCE COUNSELING AND ASSISTANCE: Insurance Counseling and Assistance programs are located in every State. These programs have volunteer counselors who can give you free assistance with Medicare questions, including enrollment, entitlement, Medigap and premium issues. For more information about services covered by Medicare, please see your Medicare Handbook.

PART A HOSPITAL INSURANCE (INPATIENT)

helps pay for inpatient hospital care, inpatient care in a skilled nursing facility following a hospital stay, home health care and hospice care. Inpatient services are measured in benefit periods. A benefit period begins the first time you receive Medicare covered inpatient hospital care and ends when you have been out of the hospital or skilled nursing facility for 60 consecutive days. There is no limit to the number of benefit periods you may have.

THE AMOUNT YOU MAY BE BILLED for Part A services includes:

- an inpatient hospital deductible once during each benefit period,
- a coinsurance amount for the 61st through the 90th days of a hospital stay during each benefit period,
- a coinsurance amount for each Lifetime Reserve Day, which can be used if you have to stay in the hospital more than 90 days in one benefit period. Lifetime Reserve Days may be used only once.
- a blood deductible for the first three pints of unreplaced blood furnished to you in a calendar year in some states,
- an inpatient coinsurance for the 21st through the 100th days of a Medicare covered stay in a skilled nursing facility,
- charges for services or supplies that are not covered by Medicare. You may not have to pay for certain denied services. If so, a NOTE on the front will tell you.

PART B MEDICAL INSURANCE (OUTPATIENT FACILITIES) helps pay for care provided by certified medical facilities, such as hospital outpatient departments, renal dialysis facilities, and community health centers.

THE AMOUNT YOU MAY BE BILLED for Part B services includes:

- an annual deductible, taken from the first Medicare Part B charges each year;
- after the deductible has been met for the year, depending on services received, a coinsurance amount (20 percent of the amount charged), or a fixed copayment for each service; and
- charges for services or supplies that are not covered by Medicare. You may not have to pay for certain denied services. If so, a note on the front will tell you.

IMPORTANT INFORMATION
You Should Know About Your Medicare Part B Benefits

For more information about services covered by Medicare, please see your Medicare Handbook.

MEDICARE PART B MEDICAL INSURANCE:

Medicare Part B helps pay for doctors' services, diagnostic tests, ambulance services, durable medical equipment and other health care services. **Medicare Part A Hospital Insurance** helps pay for inpatient hospital care, inpatient care in a skilled nursing facility following a hospital stay, home health care and hospice care. You will be sent a separate notice if you received Part A services or any outpatient facility services.

MEDICARE ASSIGNMENT: Medicare Part B claims may be assigned or unassigned. Providers who accept assignment agree to accept the Medicare approved amount as total payment for covered services. Medicare pays its share of the approved amount directly to the provider. You may be billed for unmet portions of the annual deductible and the coinsurance. You may contact us at the telephone number in the Customer Service Information box on the front of this notice for a list of participating providers who always accept assignment. You may save money by choosing a participating provider.

Doctors who submit unassigned claims have not agreed to accept Medicare's approved amount as payment in full. Generally, Medicare pays you 80 percent of the approved amount after subtracting any part of the annual deductible you have not met. A doctor who does not accept assignment may charge you up to 115 percent of the Medicare approved amount. This is known as the Limiting Charge. Some states have additional payment limits. The NOTES section on the front of this notice will tell you if a doctor has exceeded the Limiting Charge and the correct amount to pay your doctor under the law.

YOUR RESPONSIBILITY: The amount in the **You May Be Billed** column is your share of cost for the services shown on this notice. You are responsible for:

- **annual deductible:** taken from the first Medicare Part B approved charges each calendar year,
- **coinsurance:** 20 percent of the Medicare approved amount after the deductible has been met for the year,
- the amount billed, up to the **limiting charge**, for unassigned claims and
- charges for services/supplies that are **not covered** by Medicare. You may not have to pay for certain denied services. If so, a NOTE on the front will tell you.

If you have supplemental insurance, it may help you pay these amounts. If you use this notice to claim supplemental

benefits from another insurance company, make a copy for your records.

WHEN OTHER INSURANCE PAYS FIRST: All

Medicare payments are made on the condition that you will pay Medicare back if benefits could be paid by insurance that is primary to Medicare. Types of insurance that should pay before Medicare include employer group health plans, no-fault insurance, automobile medical insurance, liability insurance and workers compensation. Notify us right away if you have filed or could file a claim with insurance that is primary to Medicare.

YOUR RIGHT TO APPEAL: If you disagree with what Medicare approved for these services, you may appeal the decision. You must file your appeal within **120 days of the date you receive this notice**. Unless you show us otherwise, we assume you received this notice five days after the date of this notice. Follow the appeal instructions on the front of the last page of the notice. If you want **help with your appeal**, a friend or someone else can help you. Also, groups, such as legal aid services, may provide free assistance. To contact us for the names and telephone numbers of groups in your area, please see our Customer Service Information box on the front of this notice.

HELP STOP MEDICARE FRAUD: Fraud is a false representation by a person or business to get Medicare payments. Some examples of fraud include:

- offers of goods or money in exchange for your Medicare Number,
 - telephone or door to door offers of free medical services or items and
 - claims for Medicare services or items you did not receive.
- If you think a person or business is involved in fraud, you should call Medicare at the Customer Service telephone number on the front of this notice.

INSURANCE COUNSELING AND ASSISTANCE:

Insurance Counseling and Assistance programs are located in every State. These programs have volunteer counselors who can give you free assistance with Medicare questions, including enrollment, entitlement, Medigap and premium issues. If you would like to know how to get in touch with your local Insurance Counseling and Assistance Program Counselor, please call us at the number shown in the Customer Service Information box on the front of this notice.

Your personalized Prescription Benefit Update provides you with more than a summary of your prescription drug purchases each month. We also provide other useful information that can help you get the best value from **Medco Medicare Prescription Plan for Chevron.**

Customer Service Information

If you have any questions, call 1-800-935-6215, 24 hours a day, 7 days a week, except Thanksgiving and Christmas. TTY/TDD users should call 1-800-716-3231. Or, visit www.medco.com on the Web.

The Plan has retail, retail maintenance, mail-order, long-term care, home infusion and Indian/Tribal/Urban pharmacies in its network. A network pharmacy is a pharmacy where beneficiaries obtain prescription drug benefits provided by the Plan. In most cases, your prescriptions are covered under the Plan only if they are filled at a network pharmacy or through our mail-order pharmacy service. Once you go to one, you are not required to continue going to the same pharmacy to fill your prescription; you can go to any of our network pharmacies. We will fill prescriptions at out-of-network pharmacies under certain circumstances, as described in your Evidence of Coverage.

IMPORTANT INFORMATION YOU SHOULD KNOW ABOUT YOUR MEDICARE BENEFITS

For more information about services covered by Medicare, please see your Medicare Handbook.

PART A HOSPITAL INSURANCE (INPATIENT)

helps pay for inpatient hospital care, inpatient care in a skilled nursing facility following a hospital stay, home health care and hospice care. Inpatient services are measured in benefit periods. A benefit period begins the first time you receive Medicare covered inpatient hospital care and ends when you have been out of the hospital or skilled nursing facility for 60 consecutive days. There is no limit to the number of benefit periods you may have.

THE AMOUNT YOU MAY BE BILLED for Part A services includes:

- an **inpatient hospital deductible** once during each benefit period,
- a **coinsurance amount for the 61st through the 90th days** of a hospital stay during each benefit period,
- a **coinsurance amount for each Lifetime Reserve Day**, which can be used if you have to stay in the hospital more than 90 days in one benefit period. Lifetime Reserve Days may be used only once.
- a **blood deductible** for the first three pints of unreplaced blood furnished to you in a calendar year in some states,
- an **inpatient coinsurance for the 21st through the 100th days** of a Medicare covered stay in a **skilled nursing facility**,
- charges for services or supplies that are **not covered** by Medicare. You may not have to pay for certain denied services. If so, a NOTE on the front will tell you.

PART B MEDICAL INSURANCE (OUTPATIENT FACILITIES) helps pay for care provided by certified medical facilities, such as hospital outpatient departments, renal dialysis facilities, and community health centers.

THE AMOUNT YOU MAY BE BILLED for Part B services includes:

- an **annual deductible**, taken from the first Medicare Part B charges each year;
- after the deductible has been met for the year, depending on services received, a **coinsurance amount** (20 percent of the amount charged), or a fixed copayment for each service; and
- charges for services or supplies that are **not covered** by Medicare. You may not have to pay for certain denied services. If so, a note on the front will tell you.

If you have supplemental insurance, it may help to pay the amounts you may be billed. If you use this notice to claim supplemental benefits from another insurance company,

make a copy for your records.

WHEN OTHER INSURANCE PAYS FIRST: All Medicare payments are made on the condition that you will pay Medicare back if benefits could be paid by insurance that is primary to Medicare. Types of insurance that should pay before Medicare include employer group health plans, no-fault insurance, automobile medical insurance, liability insurance and worker's compensation. Notify us right away if you have filed or could file a claim with insurance that is primary to Medicare.

YOUR RIGHT TO APPEAL: If you disagree with what Medicare approved for these services, you may appeal the decision. You must file your appeal within **120 days of the date you receive this notice**. Unless you show us otherwise, we assume you received this notice 5 days after the date of this notice. Follow the appeal instructions on the front of the last page of the notice. If you want **help with your appeal**, a friend or someone else can help you. Also, groups such as legal aid services may provide free assistance. To contact us for the names and telephone numbers of groups in your area, please see our Customer Service Information box on the front of this notice.

HELP STOP MEDICARE FRAUD: Fraud is a false representation by a person or business to get Medicare payments. Some examples of fraud include:

- offers of goods or money in exchange for your Medicare Number
- telephone or door to door offers of free medical services or items, and
- claims for Medicare services/items you did not receive.

If you think a person or business is involved in fraud, you should call Medicare at the Customer Service telephone number on the front of this notice.

INSURANCE COUNSELING AND ASSISTANCE:

These programs have volunteer counselors who can give you free assistance with Medicare questions, including enrollment, entitlement, Medigap, and premium issues. **General Information:**

Medicare may pay for services that you get while on board a ship within the territorial waters of the United States. In rare cases, Medicare may pay for inpatient hospital, doctor, or ambulance services you get if you are traveling through the territorial waters of Canada without unreasonable delay by the most direct route between Alaska and another state when a medical emergency occurs and the Canadian hospital is closer than the nearest U.S. hospital that can treat the emergency. Medicare won't pay for this service since you didn't meet these requirements.

Compare the services you receive with those that appear on your Medicare Summary Notice. If you have questions, call your doctor or provider. If you feel further investigation is needed due to possible fraud or abuse, call the phone number in the Customer Service Information Box.

If you are not due a payment check from Medicare, your Medicare summary notices (MSN) will now be mailed to you on a quarterly basis. You will no longer receive a monthly statement in the mail for these types of MSNs. You will now receive a statement every 90 days summarizing all of your Medicare claims. You may receive a bill from your provider before you receive an MSN. Please compare the MSN with the bill from your provider to ensure you paid the appropriate amount for your services.

IMPORTANT INFORMATION
You Should Know About Your Medicare Part B Benefits

For more information about services covered by Medicare, please see your Medicare Handbook.

MEDICARE PART B MEDICAL INSURANCE: Medicare Part B helps pay for doctors' services, diagnostic tests, ambulance services, durable medical equipment and other health care services. Medicare Part A Hospital Insurance helps pay for inpatient hospital care, inpatient care in a skilled nursing facility following a hospital stay, home health care and hospice care. You will be sent a separate notice if you received Part A services or any outpatient facility services.

MEDICARE ASSIGNMENT: Medicare Part B claims may be assigned or unassigned. Providers who accept assignment agree to accept the Medicare approved amount as total payment for covered services. Medicare pays its share of the approved amount directly to the provider. You may be billed for unmet portions of the annual deductible and the coinsurance. You may contact us at the telephone number in the Customer Service Information box on the front of this notice for a list of participating providers who always accept assignment. You may save money by choosing a participating provider.

Doctors who submit unassigned claims have not agreed to accept Medicare's approved amount as payment in full. Generally, Medicare pays you 80 percent of the approved amount after subtracting any part of the annual deductible you have not met. A doctor who does not accept assignment may charge you up to 115 percent of the Medicare approved amount. This is known as the Limiting Charge. Some states have additional payment limits. The NOTES section on the front of this notice will tell you if a doctor has exceeded the Limiting Charge and the correct amount to pay your doctor under the law.

YOUR RESPONSIBILITY: The amount in the **You May Be Billed** column is your share of cost for the services shown on this notice. You are responsible for:

- **annual deductible:** taken from the first Medicare Part B approved charges each calendar year,
- **coinsurance:** 20 percent of the Medicare approved amount after the deductible has been met for the year,
- the amount billed, up to the **limiting charge**, for unassigned claims and
- charges for services/supplies that are **not covered** by Medicare. You may not have to pay for certain denied services. If so, a NOTE on the front will tell you.

If you have supplemental insurance, it may help you pay these amounts. If you use this notice to claim supplemental

benefits from another insurance company, make a copy for your records.

WHEN OTHER INSURANCE PAYS FIRST: All Medicare payments are made on the condition that you will pay Medicare back if benefits could be paid by insurance that is primary to Medicare. Types of insurance that should pay before Medicare include employer group health plans, no-fault insurance, automobile medical insurance, liability insurance and workers compensation. Notify us right away if you have filed or could file a claim with insurance that is primary to Medicare.

YOUR RIGHT TO APPEAL: If you disagree with what Medicare approved for these services, you may appeal the decision. You must file your appeal within **120 days of the date you receive this notice**. Unless you show us otherwise, we assume you received this notice five days after the date of this notice. Follow the appeal instructions on the front of the last page of the notice. If you want help with your appeal, a friend or someone else can help you. Also, groups, such as legal aid services, may provide free assistance. To contact us for the names and telephone numbers of groups in your area, please see our Customer Service Information box on the front of this notice.

HELP STOP MEDICARE FRAUD: Fraud is a false representation by a person or business to get Medicare payments. Some examples of fraud include:

- telephone or door to door offers of free medical services or items and
- claims for Medicare services or items you did not receive.

If you think a person or business is involved in fraud, you should call Medicare at the Customer Service telephone number on the front of this notice.

If you aren't due a payment check from Medicare, your Medicare Summary Notices (MSN) will now be mailed to you on a quarterly basis. You will no longer get a monthly statement in the mail for these types of MSNs. You will now get a statement every 90 days summarizing all of your Medicare claims. Your provider may send you a bill that you may need to pay before you get your MSN. When you get your MSN, look to see if you paid more than the MSN says is due. If you paid more, call your provider about a refund. If you have any questions about the bill from your provider, you should call your provider.

Please have your complete Medicare number with you when you call 1-800-MEDICARE so your record can be located. For your protection this MSN does not include your entire number.

If you change your address, contact the Social Security Administration by calling 1-800-772-1213.

Your claims may have been adjusted since Medicare changed how it pays for certain services in 2010. You can compare claims that have been changed to previous statements you received in the past. Your provider may owe you a refund or you may have to pay more coinsurance. Call your provider or 1-800-MEDICARE.

IMPORTANT INFORMATION ABOUT YOUR MEDICARE PART B MEDICAL INSURANCE BENEFITS

For more information about services covered by Medicare, please see your Medicare Handbook.

MEDICARE PART B MEDICAL INSURANCE: Medicare Part B helps pay for doctors' services, diagnostic tests, ambulance services, durable medical equipment, and other health care services. Medicare Part A Hospital Insurance helps pay for inpatient hospital care, inpatient care in a skilled nursing facility following a hospital stay, home health care and hospice care. You will be sent a separate notice if you received Part A services or any outpatient facility services.

MEDICARE ASSIGNMENT: Medicare Part B claims may be assigned or unassigned. Providers who accept assignment agree to accept the Medicare approved amount as total payment for covered services. Medicare pays its share of the approved amount directly to the provider. You may be billed for unmet portions of the annual deductible and the coinsurance. You may contact us at the address or telephone number in the Customer Service Information box on the front of this notice for a list of participating providers who always accept assignment. You may save money by choosing a participating provider.

Doctors who submit unassigned claims have not agreed to accept Medicare's approved amount as payment in full. Generally, Medicare pays you 80% of the approved amount after subtracting any part of the annual deductible you have not met. A doctor who does not accept assignment may charge you up to 115% of the Medicare approved amount. This is known as the Limiting Charge. Some states have additional payment limits. The NOTES section on the front of this notice will tell you if a doctor has exceeded the Limiting Charge and the correct amount to pay your doctor under the law.

YOUR RESPONSIBILITY: The amount in the **You May Be Billed** column is your share of cost for the services shown on this notice. You are responsible for:

- **annual deductible:** taken from the first Medicare Part B approved charges each calendar year,
- **coinsurance:** 20% of the Medicare approved amount, after the deductible has been met for the year,
- the amount billed, up to the limiting charge, for unassigned claims, and
- charges for services/supplies that are not covered by Medicare. You may not have to pay for certain denied services. If so, a NOTE on the front will tell you.

If you have supplemental insurance, it may help you pay these amounts. If you use this notice to claim supplemental benefits

from another insurance company, make a copy for your records.

WHEN OTHER INSURANCE PAYS FIRST: All Medicare payments are made on the condition that you will pay Medicare back if benefits could be paid by insurance that is primary to Medicare. Types of insurance that should pay before Medicare include employer group health plans, no-fault insurance, automobile medical insurance, liability insurance and workers' compensation. Notify us right away if you have filed or could file a claim with insurance that is primary to Medicare.

YOUR RIGHT TO APPEAL: If you disagree with what Medicare approved for these services, you may appeal the decision. You must file your appeal within **120 days of the date you receive this notice**. Unless you show us otherwise, we assume you received this notice 5 days after the date of this notice. Follow the appeal instructions on the front of the last page of the notice. If you want help with your appeal, a friend or someone else can help you. Also, groups such as legal aid services may provide free assistance. To contact us for the names and telephone numbers of groups in your area, please see our Customer Service Information box on the front of this notice.

HELP STOP MEDICARE FRAUD: Fraud is a false representation by a person or business to get Medicare payments. Some examples of fraud include:

- offers of goods or money in exchange for your Medicare Number,
- telephone or door-to-door offers of free medical services or items, and
- claims for Medicare services or items you did not receive.

If you think a person or business is involved in fraud, you should call Medicare at the Customer Service telephone number on the front of this notice.

INSURANCE COUNSELING AND ASSISTANCE: Insurance Counseling and Assistance programs are located in every State. These programs have volunteer counselors who can give you free assistance with Medicare questions, including enrollment, entitlement, Medigap and premium issues. If you would like to know how to get in touch with your local Insurance Counseling and Assistance Program Counselor, please call us at the number shown in the Customer Service Information box on the front of this notice.

IMPORTANT TAX RETURN DOCUMENT ATTACHED

Instructions for Recipient

Box 1a. Shows total ordinary dividends that are taxable. Include this amount on line 9a of Form 1040 or 1040A. Also, report it on Schedule B (Form 1040) or Schedule 1 (Form 1040A), if required. The amount shown may be a distribution from an employee stock ownership plan (ESOP).

Report it as a dividend on your Form 1040/1040A but treat it as a plan distribution, not as investment income, for any other purpose.

Box 1b. Shows the portion of the amount in box 1a that may be eligible for the new 15% or 5% capital gains rates. See the form 1040/1040A instructions for how to determine this amount. Report the eligible amount on line 9b, Form 1040 or 1040A.

Box 2a. Shows total capital gain distributions (long-term) from a regulated investment company or real estate investment trust. Report the amounts shown in boxes 2a and 2b (see below) on Schedule D (Form 1040), line 13. But, if **no amount** is shown in boxes 2c-2f and your only capital gains and losses are capital gain distributions, you may be able to report the amounts shown in boxes 2a and 2b on lines 13a and 13b of Form 1040 (lines 10a and 10b of Form 1040A) rather than Schedule D. See the Form 1040/1040A instructions.

Box 2b. Shows the portion of the amount in box 2a that is post-May 5 capital gain distributions eligible for the new 15% and 5% capital gains rates. See box 2a above for how to report this amount.

Box 2c. Shows the portion of the amount in box 2a that is qualified 5-year gain that may be taxed at an 8% capital gains rate. Report this amount on Schedule D (Form 1040), line 35 (if required).

Box 2d. Shows the portion of the amount in box 2a that is unrecaptured section 1250 gain from certain depreciable real property. Report this amount on the **Unrecaptured Section 1250 Gain Worksheet** in the Schedule D instructions (Form 1040).

Box 2e. Shows the portion of the amount in box 2a that is section 1202 gain from certain small business stock that may be subject to a 50% exclusion. See the Schedule D (Form 1040) instructions.

Box 2f. Shows 28% rate gain from sales or exchanges of collectibles. If required, use this amount when completing the **28% Rate Gain Worksheet-Line 20** in the instructions for Schedule D (Form 1040).

Box 3. Shows the part of the distribution that is nontaxable because it is a return of your cost (or other basis). You must reduce your cost (or other basis) by this amount for figuring gain or loss when you sell your stock. But if you get back all your cost (or other basis), report future nontaxable distributions as capital gains, even though this form shows them as nontaxable. See **Pub. 550**, Investment Income and Expenses.

Box 4. Shows backup withholding. For example, a payer must backup withhold on certain payments at a 28% rate if you did not give your taxpayer identification number to the payer. See **Form W-9**, Request for Taxpayer Identification Number and Certification, for information on backup withholding. **Include this amount on your income tax return as tax withheld.**

Box 5. Shows your share of expenses of a nonpublicly offered regulated investment company, generally a non publicly offered mutual fund. If you file Form 1040, you may deduct these expenses on the "Other expenses" line on Schedule A (Form 1040) subject to the 2% limit. This amount is included in box 1a.

Box 6. Shows the foreign tax you may be able to claim as a deduction or a credit on Form 1040. See the Form 1040 instructions.

Box 8 and 9. Shows cash and noncash liquidation distributions.

Nominees. If this form includes amounts belonging to another person, you are considered a nominee recipient. You must file Form 1099-DIV with the IRS for each of the other owners to show their share of the income, and you must furnish a Form 1099-DIV to each. A husband or wife is not required to file a nominee return to show amounts owned by the other. See the **2003 General Instructions for Forms 1099, 1098, 5498, and W-2G.**

Purpose; Other Considerations

The purpose of the Program is to provide useful services for Exxon shareholders. In particular, the Program provides shareholders and others who wish to become shareholders with a convenient way to purchase Exxon Common Stock and to reinvest all or a portion of their cash dividends in additional shares of Common Stock. Nothing contained in this prospectus or in other Program information represents a recommendation by Exxon or anyone else that any person buy or sell Exxon stock. **A decision to utilize the Program should only be made after an investor has independently made the necessary investment decision.**

The value of Exxon stock may increase or decrease. Program accounts are not insured by the Securities Investor Protection Corporation, the Federal Deposit Insurance Corporation, or any other entity.

Advantages

- Participants pay no brokerage fees in connection with **purchases** of Common Stock under the Program.
- In addition to reinvestment of dividends, participants may invest additional funds in Common Stock through optional cash payments of not less than \$50 and not more than \$100,000 per calendar year. Optional investments may be made by check, money order, wire transfer, electronic funds transfer from a predesignated bank account, or, for eligible Exxon employees and retirees, payroll or annuity deduction. Optional investments may be made occasionally or at regular intervals, as the participant desires.
- Funds invested in the Program are fully invested through the purchase of fractions of shares, as well as full shares, and proportionate cash dividends on fractions of shares are used to purchase additional shares.
- Persons not presently owning shares of Common Stock may become participants by making an initial cash investment of at least \$250 to purchase shares under the Program.
- Participants may direct the Program Administrator to transfer, at any time and at no cost to the participant, all or a portion of the participant's Program shares to a Program account for another person.
- The Program offers a "share safekeeping" service whereby participants may deposit their Common Stock certificates with the Program Administrator and have their ownership of such Common Stock maintained on the Administrator's records as part of their Program account.

- Quarterly statements are mailed to each participant listing all transactions in the participant's account. The statement for the fourth quarter will reflect all account activity for the year.
- Participants may establish an IRA and contribute, transfer or roll over amounts to the IRA through a Program account.

Administration

The First National Bank of Boston (the "Administrator") will administer the Program, purchase and hold shares of Common Stock acquired under the Program, keep records, send statements of account activity to participants, and perform other duties related to the Program. Participants may contact the Administrator by writing to:

Exxon Shareholder Investment Program
c/o Bank of Boston
P.O. Box 9156
Boston, MA 02205-9156

or by telephoning the Administrator toll free at (800) 252-1800. Operators are available between 8 a.m. and 7 p.m. Eastern time on business days and voice mail is available 24 hours a day. Written communications may also be sent to the Administrator by telefax. Participants should contact the Administrator for current telefax numbers.

The Administrator also currently serves as transfer agent, registrar, and dividend paying agent for the Corporation and may have other business relationships with the Corporation from time to time.

Eligibility

Any person or entity, whether or not a holder of record of shares of Common Stock, is eligible to participate in the Program, provided that (i) such person or entity fulfills the prerequisites for participation described below under "Enrollment Procedures" and (ii) in the case of citizens or residents of a country other than the United States, its territories, and possessions, participation would not violate local laws applicable to the Corporation or the participant.

Enrollment Procedures

After being furnished with a copy of this Prospectus, eligible applicants may join the Program by completing and signing an Enrollment Form and returning it to the Administrator. In order to participate in the Program, an enrollee must either deposit one or more share certificates with the Administrator for safekeeping, elect to reinvest cash dividends paid on one or more whole shares of Common Stock, or make an initial investment. Current registered shareholders should be sure to sign their names on the Enrollment Form exactly as they appear on their certificates. Non-shareholders must include an initial investment of at least \$250 (and not more than \$100,000) with their completed Enrollment Form (see "Optional Cash Investments and Initial Investments" below).

Beneficial owners of shares of Common Stock registered in the name of someone else (for example, a bank or broker) may participate in the Program by transferring some or all of those shares to the Administrator for their accounts (see "Transfer of Shares from a Broker" below).

Enrollment Forms will be processed as promptly as practicable. Participation in the Program will begin after the properly completed Enrollment Form has been accepted by the Administrator.

Investment Dates

The Program's "Investment Dates" are Thursday of each calendar week or, if Thursday is not a day on which financial markets in New York City are open for business, the next day on which they are so open.

Optional Cash Investments and Initial Investments

Participants may make optional cash investments by personal check or money order, wire investment, payroll or annuity deduction (eligible Exxon employees and retirees only), or automatic deduction from a bank account. Optional cash investments must be at least \$50 for any single investment and may not exceed \$100,000 per calendar year. There is no obligation to make an optional cash investment at any time, and the amount of such investments may vary from time to time.

Initial investments, for those who do not already own Common Stock, must be at least \$250, in the form of a personal check or money order, and must be included with the completed Enrollment Form returned to the Administrator, except that no minimum initial investment is required for eligible Exxon employees and retirees who initiate payroll or annuity deductions at the time of enrollment.

Optional cash investments and initial investments must be received by the Administrator no later than 12:00 Noon Eastern time one business day prior to an Investment Date to be invested beginning on that Investment Date. Otherwise, the optional cash investment or initial investment will be held by the Administrator and invested beginning on the next Investment Date. Upon a participant's written request received by the Administrator no later than two business days prior to the applicable Investment Date, an optional cash investment or initial investment not already invested under the Program will be cancelled or returned to the participant, as appropriate. However, no refund of a check or money order will be made until the funds have been actually received by the Administrator. Accordingly, such refunds may be delayed by up to three weeks.

No interest will be paid on amounts held by the Administrator pending investment. Accordingly, investors should transmit optional cash investments and initial investments so as to reach the Administrator shortly (but not later than 12:00 Noon Eastern time one business day) before an Investment Date. All optional cash investments and initial investments are subject to collection by the Administrator of full face value in U.S. funds.

See "Source and Price of Shares" below.

Investments may be made in the following ways:

Check Investment

Optional cash investments and initial investments may be made by personal check or money order payable in U.S. dollars to "BKB—Exxon". Optional cash investments must be mailed to the Administrator together with the Cash Investment and Other Transaction Form attached to each statement of account sent to participants. Additional Cash Investment and Other Transaction Forms are available upon request from the Administrator.

Wire Investment

Optional cash investments may be made by wire transfer to the Administrator. Participants who wish to make a wire transfer should contact the Administrator for instructions. Participants making wire investments may be charged fees by the commercial bank initiating the transfer.

Payroll or Annuity Deduction

Eligible employees of the Corporation and its subsidiaries who are paid through a U.S. payroll ("eligible employees"), and eligible persons receiving annuity payments from the Corporation or its subsidiaries through a U.S. benefits office ("eligible retirees"), may make optional cash investments under the Program by having specified amounts (not less than \$50 per month nor more than \$100,000 per calendar year) deducted from each paycheck or annuity check. To initiate payroll or annuity deduction, an eligible employee or eligible retiree in the Program must complete, sign, and return to the Administrator a Payroll or Annuity Deduction Authorization Form. Forms are available upon request from the Administrator. Forms will be processed and will become effective as promptly as practicable.

Exxon will make payroll or annuity deductions from each payroll or annuity check during the month and will promptly forward such funds to the Administrator. For purposes of the Program, annuity deductions on the first of the month will be included in the payment made to the Administrator for the prior month. The Administrator will invest funds in Common Stock once a month beginning on the first Investment Date. Accordingly, participants using this investment option should recognize that, depending on the applicable pay date, funds deducted from a particular paycheck or annuity check may not be invested by the Administrator for several weeks. **No interest will be paid on amounts held pending investment.**

Eligible employees and retirees who wish to enroll in the Program but who are not shareholders may satisfy the requirement for an initial investment by initiating payroll or annuity deduction at the time of enrollment.

Participants may change the amount of payroll or annuity deduction or terminate payroll or annuity deduction by completing and submitting a new Payroll or Annuity Deduction Authorization Form.

Automatic Investment from a Bank Account

Participants may make automatic monthly investments of a specified amount (not less than \$50 per month nor more than \$100,000 per calendar year) by electronic funds transfer from a pre-designated U.S. bank account.

To initiate automatic monthly deductions, the participant must complete and sign an Automatic Investment Form and return it to the Administrator together with a voided blank check for the account from which funds are to be drawn. Automatic Investment Forms may be obtained from the Administrator. Forms will be processed and will become effective as promptly as practicable.

Once automatic monthly deduction is initiated, funds will be drawn from the participant's designated bank account on the business day preceding the last Investment Date of each month, and will be invested in Common Stock beginning on that Investment Date.

Participants may change or terminate automatic monthly deduction by completing and submitting to the Administrator a new Automatic Investment Form. To be effective with respect to a particular month, however, the new Automatic Investment Form must be received by the Administrator prior to the last business day of the preceding calendar month.

Reinvestment of Cash Dividends

Participants may elect to reinvest cash dividends paid on all or a portion of the shares of Common Stock registered in their names and held in certificate form ("certificated shares") and the shares of Common Stock held in their Program accounts ("Program shares") by designating their election on the Enrollment Form. Participants electing partial reinvestment of cash dividends must designate the number of whole shares for which they want to receive cash dividends. Dividends paid on all other certificated and Program shares in the participant's name will be reinvested in additional shares of Common Stock.

Reinvestment levels may be changed from time to time as a participant desires by calling the Administrator. To be effective with respect to a particular Common Stock dividend, any change in the reinvestment election must be received by the Administrator on or before the record date for such dividend. The record date is usually about one month prior to the payment of the dividend. The Corporation has historically paid cash dividends on the 10th of March, June, September and December, or on the 11th if the 10th is a Sunday.

Once a participant elects reinvestment, cash dividends paid on certificated and Program shares standing in that participant's name will be reinvested in additional shares of Common Stock (see "Source and Price of Shares" below). If the participant has specified partial reinvestment, that portion of such dividend payment not being reinvested will be sent to the participant by check in the usual manner or by direct deposit, if the participant has elected the direct deposit option (see "Direct Deposit of

Dividends" below). The Administrator may, in its discretion, initiate purchase transactions for the reinvestment of dividends prior to the actual payment of dividends.

Termination of Participation

A participant may terminate participation in the Program at any time by giving written instructions to the Administrator. Upon termination, a certificate for any whole shares held in the Program for the participant will be issued. Alternatively, a participant may specify in the termination notice that all (but not less than all) whole Program shares be sold. The Administrator will make the sale beginning on the next Investment Date after receipt of the termination notice (see "Source and Price of Shares" below), and the participant will receive a check for the proceeds, less an administrative charge of \$5 and applicable brokerage commissions, if any (currently approximately \$.10 per share).

Whether whole Program shares are delivered or sold, participants terminating participation in the Program will receive a check for the cash value of any fractional share held in their Program accounts. Fractions of shares will be valued at the same price as whole shares sold with respect to the relevant Investment Date. After participation in the Program has been terminated, no further investments may be made without re-enrolling in the Program.

For participants who have elected to reinvest dividends: if notice of termination is received on or before the fifth business day preceding a dividend payment date, the termination will be processed as described above and a separate check for the dividends will be mailed following the payment date. If notice of termination is received after the fifth business day preceding a dividend payment date, the termination will be processed after giving effect to reinvestment of the applicable dividend.

Sale of Shares

Participants may request the Administrator to sell any number of whole shares held in their Program accounts by giving written instructions to the Administrator. The Administrator will make the sale beginning on the first Investment Date following receipt of the request (see "Source and Price of Shares" below). The participant will receive the proceeds, less an administrative charge of \$5 and applicable brokerage commissions, if any (currently approximately \$.10 per share). Proceeds of shares sold through the Program will be paid to the participant normally by check. A request to sell all shares held in a participant's account will be treated as a termination of participation in the Program (see "Termination of Participation" above).

For participants who have elected to reinvest dividends: if instructions for the sale of shares are received on or before the fifth business day preceding a dividend payment date, the sale will be processed as described above and a separate check for the dividends will be mailed following the payment date. If instructions for the sale of shares are received after the fifth business day preceding a dividend payment date, the sale will be processed after giving effect to reinvestment of the applicable dividend.

Source and Price of Shares

Source

To fulfill Program requirements, the Administrator may purchase or sell shares in the open market or in privately negotiated transactions. The Administrator may also, in its discretion, purchase shares from or sell shares to the Corporation, to the extent the Corporation makes shares available or is willing to purchase shares and subject to certain regulatory limitations on the frequency with which the Corporation can change its determination to do so. It is currently expected that shares will be purchased and sold on the New York Stock Exchange. Market transactions are effected through agents (currently, CS First Boston Corporation) engaged by the Administrator. The Administrator may commingle each participant's funds with those of other participants for the purpose of executing purchases, and may offset purchases of shares against sales of shares to be made for participants under the Program with respect to the same Investment Date, resulting in a net purchase or a net sale of shares.

The Administrator will purchase or sell shares as soon as practicable beginning on the relevant Investment Date and in no event later than 30 days (in the case of dividend reinvestment) or 35 days (in the case of initial and optional cash investments), respectively, after the relevant Investment Date, except where and to the extent necessary under any applicable federal securities laws or other government or stock exchange regulations.

Dividend and voting rights on purchased shares will commence upon settlement, which is normally three business days after purchase.

Shares purchased within a period of three (3) business days prior to and including a dividend record date are considered purchased "ex-dividend" and therefore are not entitled to payment of that dividend.

Price

Shares purchased or sold for a participant with respect to a particular Investment Date will be credited to the participant's account at the **weighted average price per share of all shares purchased or sold for participants**, as appropriate, with respect to that Investment Date. Shares purchased or sold in the open market or in privately negotiated transactions are subject to such terms and conditions, including price and delivery, as the Administrator may accept. The Corporation will pay any applicable commissions or fees on the purchase of shares, but participants will be charged with an administrative charge and any commissions on sales as described under "Sale of Shares" above. The price of shares purchased from or sold to the Corporation, if any, will be the average of the high and low sale prices of Common Stock as reported on the New York Stock Exchange consolidated tape on the date of the transaction.

Direct Deposit of Dividends

Through the Program's direct deposit feature, participants may elect to have any cash dividends not being reinvested under the Program paid by electronic funds

transfer to the participant's predesignated bank account. To receive such dividends by direct deposit, participants must first complete and sign the Direct Deposit Authorization Form and return the Form to the Administrator. Direct Deposit Authorization Forms are available upon request from the Administrator.

Forms will be processed and will become effective as promptly as practicable. Participants may change the designated account for direct deposit or discontinue this feature by written instruction to the Administrator. In order to be effective with respect to a particular dividend, the Direct Deposit Authorization form and any subsequent instructions must be received by the Administrator prior to the record date for the dividend.

Share Safekeeping

At the time of enrollment in the Program, or at any later time, participants may use the Program's "share safekeeping" service to deposit any Common Stock certificates in their possession with the Administrator. Shares deposited will be transferred into the name of the Administrator or its nominee and credited to the participant's account under the Program. Thereafter, such shares will be treated in the same manner as shares purchased through the Program.

By using the Program's share safekeeping service, participants no longer bear the risk associated with loss, theft or destruction of stock certificates. Also, because shares deposited with the Administrator are treated in the same manner as shares purchased through the Program, they may be transferred or sold through the Program in a convenient and efficient manner. See "Termination of Participation" and "Sale of Shares" above and "Gift/Transfer of Shares Within the Program" below.

Participants who wish to deposit their Common Stock certificates with the Administrator must send to the Administrator, preferably by registered, insured mail, the Common Stock certificates to be deposited, along with a properly completed Enrollment Form or Cash Investment and Other Transaction Form. Both Forms are available from the Administrator. The certificates should not be endorsed.

Transfer of Shares from a Broker

Owners of Common Stock may wish to transfer to their Program accounts shares owned by them but held in "street name" through a broker or other agent. To do so, participants must complete a Broker Transfer Form and return it to the Administrator. The Administrator, upon receipt of a properly completed Form, will contact the broker holding the shares of Common Stock and will arrange to transfer those shares specified by the participant into the name of the Administrator or its nominee for credit to the participant's account under the Program. Broker Transfer Forms are available upon request from the Administrator.

Share owners wishing to enroll in the Program using shares transferred from a broker must include a properly completed Broker Transfer Form with the Enrollment Form returned to the Administrator. Participation in the Program will commence when

shares of Common Stock are received by the Administrator from the transferring broker.

Individual Retirement Account

The Administrator, The First National Bank of Boston, offers an Individual Retirement Account that invests in Common Stock through the Program (the "Program IRA"). After being furnished with a copy of this Prospectus and the Administrator's IRA Agreement and Disclosure Statement, individuals may open a Program IRA by completing and signing an IRA Enrollment Form and returning it to the Administrator with an initial contribution. The minimum initial investment for a Program IRA is \$250. For the purpose of rolling over an existing IRA or a qualified plan distribution, the maximum annual investment does not apply. IRA Enrollment Forms are available upon request from the Administrator.

The Program IRA referred to above is offered by the Administrator as Trustee. Other custodians and trustees may offer similar services. The Administrator has the right to charge reasonable fees for its IRA services. Such fees are described in the IRA Disclosure Statement as in effect from time to time.

Gift/Transfer of Shares Within the Program

If a participant wishes to transfer the ownership of all or part of the shares held in the participant's Program account to a Program account for another person, whether by gift, private sale or otherwise, the participant may effect such transfer by mailing a properly completed Gift/Transfer Form to the Administrator. Requests for transfer are subject to the same requirements as for the transfer of Common Stock certificates, including the requirement of a Medallion signature guarantee on the stock assignment. Gift/Transfer Forms and Stock Power Forms are available upon request from the Administrator.

Shares so transferred will continue to be held by the Administrator under the Program. An account will be opened in the name of the transferee, if he or she is not already a participant, and such transferee will automatically be enrolled in the Program. If the transferee is not already a registered shareholder or a Program participant, the donor may make a reinvestment election for the transferee at the time of the gift. The transferee may change the reinvestment election after the gift has been made as described under "Reinvestment of Cash Dividends" above.

The transferee will receive a statement showing the number of shares transferred to and held in the transferee's Program account. Also, if requested by the participant, a gift certificate acknowledging the transfer of shares will be made available free of charge.

Reports to Participants

Each participant will receive a quarterly statement showing the amount invested, purchase price, the number of shares purchased, deposited, sold, transferred, or withdrawn, the total number of shares accumulated and other information for each

quarter during the year. The quarterly statement will consolidate all Program and certificated shares standing in the participant's name. The statement for the fourth quarter will reflect all account activity for the year. Each participant should retain these statements so as to be able to establish the cost basis of shares purchased under the Program for income tax and other purposes. Duplicate statements will be available from the Administrator.

The Administrator will also send each participant a confirmation promptly after enrollment and after each optional check or wire investment, deposit, sale or transfer. Payroll deductions, annuity deductions, automatic monthly deductions and dividend reinvestments will not be individually confirmed, but rather will appear on the quarterly statements.

In addition, each participant will receive copies of the same communications sent to other holders of shares of Common Stock, including the Corporation's annual report to stockholders, a notice of the annual meeting and accompanying proxy statement, and Internal Revenue Service information return, if so required, for reporting dividend income received.

All notices, statements and reports from the Administrator to a participant will be addressed to the participant at his or her latest address of record with the Administrator. Therefore, participants must promptly notify the Administrator of any change of address. To be effective with respect to mailings of dividend checks and quarterly statements and reports for a particular quarter, address changes must be received by the Administrator prior to the record date for that quarter's dividend.

Certificates for Shares

Shares purchased and held under the Program will be held in safekeeping by the Administrator in its name or the name of its nominee. The number of shares (including fractional interests) held for each participant will be shown on each statement of account. Participants may obtain a new certificate for all or some of the whole shares of Common Stock held in their Program accounts upon written request to the Administrator. Any remaining whole or fractional Program shares will continue to be held by the Administrator. Withdrawal of shares in the form of a certificate in no way affects dividend reinvestment (see "Reinvestment of Cash Dividends" above).

Except as described above under "Gift/Transfer of Shares Within the Program", shares of stock held by the Administrator for a participant's Program account may not be pledged or assigned. A participant who wishes to pledge or assign any such shares must request that a certificate for such shares be issued in the participant's name.

Miscellaneous

Stock Split, Stock Dividend or Rights Offering

Any dividends in Common Stock or split shares distributed by the Corporation on Program shares will be added to the participant's account. Stock dividends or split shares distributed on certificated shares will be mailed directly to the participant in the

same manner as to shareholders who are not participating in the Program. If a participant has elected to receive cash dividends rather than reinvest them, the election will be adjusted proportionately in the event of a stock split.

In the event of a rights offering, the participant will receive rights based upon the total number of whole shares owned, that is, the total number of Program and certificated shares standing in the participant's name.

Voting of Program Shares

Whole shares held in a Program account may be voted in person or by the proxy sent to the participant.

Limitation of Liability

Neither the Corporation nor the Administrator (nor any of their respective agents, representatives, employees, officers, directors, or subcontractors) will be liable in administering the Program for any act done in good faith nor for any good faith omission to act, including, without limitation, any claim of liability arising with respect to the prices or times at which shares are purchased or sold for participants, or any change in the market value of shares, or from failure to terminate a participant's account upon such a participant's death. The foregoing does not represent a waiver of any rights a participant may have under applicable securities laws.

Change or Termination of the Program

The Corporation may suspend, modify or terminate the Program at any time in whole, in part, or in respect of participants in one or more jurisdictions. Notice of such suspension, modification or termination will be sent to all affected participants. No such event will affect any shares then credited to a participant's account. Upon any whole or partial termination of the Program by the Corporation, certificates for whole shares held in an affected participant's account under the Program will be issued to the participant and a cash payment will be made for any fraction of a share. Fractions of shares will be valued at the same effective price as whole shares sold with respect to the next relevant Investment Date as described under "Source and Price of Shares" above.

Termination of Participation

If a participant does not own at least one whole Program or certificated share in the participant's name, the participant's participation in the Program may be terminated. Exxon may also terminate any participant's participation in the Program after written notice in advance mailed to such participant at the address appearing on the Administrator's records. Participants whose participation in the Program has been terminated will receive certificates for any whole shares held in their accounts and a check for the cash value of any fractional share held in their Program accounts. Fractions of shares will be valued at the same price as whole shares sold with respect to the next relevant Investment Date as described under "Source and Price of Shares" above.

THE CORPORATION

Exxon Corporation, the issuer of the Common Stock offered hereby, was incorporated in the State of New Jersey in 1882. The Corporation's principal executive office is located at 225 E. John W. Carpenter Freeway, Irving, Texas 75062-2298, and its telephone number is (214) 444-1000.

Divisions and affiliated companies of the Corporation operate in the United States and over 100 other countries. Their principal business is energy, involving exploration for, and production of, crude oil and natural gas, manufacturing of petroleum products, and transportation and sale of crude oil, natural gas and petroleum products. Exxon Chemical Company, a division of the Corporation, is a major manufacturer and marketer of petrochemicals. The Corporation and its affiliates are engaged in exploration for, and mining and sale of, coal and other minerals. The Corporation also has an interest in electric power generation in Hong Kong. Affiliates of the Corporation conduct extensive research programs in support of these businesses.

TAX CONSEQUENCES

The Corporation believes the following is an accurate summary of the tax consequences of participation in the Program as of the date of this Prospectus. This summary does not reflect every possible situation that could result from participation in the Program, and, therefore, participants in the Program are advised to consult their own tax advisors with respect to the tax consequences (including federal, state, local and other tax laws and U.S. tax withholding laws) applicable to their particular situations.

In general, the amount of cash dividends paid by the Corporation is still includable in income even though reinvested under the Program. Under this general rule, the cost basis for federal income tax purposes of any shares acquired through the Program will be the price at which the shares are credited by the Administrator to the account of the participant as described in the section entitled "Source and Price of Shares". In connection with market purchases, **brokerage commissions paid by the Corporation on a participant's behalf are to be treated as distributions subject to income tax** in the same manner as dividends. The amounts paid for brokerage commissions are, however, includable in the cost bases of shares purchased. The information return sent to participants and the IRS at year-end, if so required, will show such amounts paid on their behalf.

The above rules may not be applicable to certain participants in the Program, such as tax-exempt entities (e.g., pension funds and IRAs) and foreign shareholders. These particular participants should consult their own tax advisors concerning the tax consequences applicable to their situations.

In the case of participants in the Program whose dividends are subject to U.S. backup withholding, the Administrator will reinvest dividends less the amount of tax required to be withheld.

In the case of foreign shareholders whose dividends are subject to U.S. federal tax withholding, the Administrator will reinvest dividends less the amount of tax required to be withheld. The filing of any documentation required to obtain a reduction in U.S. withholding tax will be the responsibility of the shareholder.

USE OF PROCEEDS

At present, it is expected that purchases of Common Stock under the Program will be made in the open market and that the Corporation will not receive any proceeds therefrom. If purchases of Common Stock are made directly from the Corporation, the Corporation intends to use any net proceeds from the sales of such shares for general corporate purposes.

LEGAL MATTERS

Counsel who has passed upon legal matters concerning the Program and the validity of the shares of Common Stock offered hereby is James Earl Parsons, who is regularly employed as Counsel for the Corporation. Mr. Parsons owns and has options to purchase shares of Common Stock and is a participant in the Program.

Two-for-One Stock Split

Exxon Corporation is pleased to announce a stock split for its shareholders. On February 26, 1997, Exxon's Board of Directors approved a two-for-one stock split to shareholders of record on March 14. Exxon shareholders will receive one additional share for each share held on that date. This stock split will not change your proportionate interest in Exxon Corporation. The additional shares will be distributed on or after April 11, 1997.

The following information may be helpful to shareholders. Additional information relative to the stock split will be provided when the certificates and Shareholder Investment Program statements are mailed.

DIVIDENDS

The first quarter 1997 dividend of \$0.79 per share is payable on March 10, 1997 to shareholders of record on February 10, prior to the split. Future dividends would be declared and paid on the basis of the split shares. The Board will consider the second quarter dividend on Wednesday, April 30.

CERTIFICATES

Shareholders holding certificates will receive one new certificate for all their additional shares.

Retain any stock certificates already in your possession. Existing certificates will continue to be valid and need not be exchanged.

You may request a change in denomination of shares once you have received your new certificate.

The new certificates will be in the same registration as shown on our account records at the close of business on March 14, 1997. If you wish to change the registration, you will need to transfer the old shares to the new registration prior to this date. Alternatively, you may wait for receipt and send in your old and/or new certificates for transfer of ownership. It is recommended when mailing certificates to send them by registered, certified or insured mail.

EXXON STOCK TRADING

Exxon will continue to trade on a pre-split basis through the distribution date of April 11.

SHAREHOLDER INVESTMENT PROGRAM

Shareholder Investment Program (SIP) participants who have shares in book-entry or "safekeeping" will have new shares added to their Program accounts.

Participants who hold shares in both book-entry and certificate form will receive a statement for their book-entry shares and a new certificate for their shares represented by certificates.

Account statements showing the total increase in shares as a result of the split will be mailed beginning April 18.

Share purchases and sales within the SIP will be done on a pre-split basis for Investment Dates between and including March 20 and April 10.

SIP participants who have designated a specific number of shares on which to receive cash dividends will have their prior share elections doubled automatically. After the shares have been distributed, you may change the number of shares on which you receive a cash dividend by calling Exxon Shareholder Services.

TAX INFORMATION

The Corporation has been advised by its General Tax Counsel that the stock split will result in no gain or loss to shareholders for federal income tax purposes. The tax basis of each share held on March 14, 1997 will be reduced by half. The tax basis of each new share received as a result of the stock split will be the same as the reduced basis of the share for which it was issued. The tax acquisition date of the new shares is the tax acquisition date of the old shares. Any subsequent sale of shares may result in a taxable gain or loss.

If further information is desired, it is suggested that you consult your tax advisor.

ANNUAL MEETING VOTING

The number of shares you are entitled to vote at the 1997 Annual Meeting are those you held as of the March 3 voting record date, prior to the split.

EXXON *Perspectives*

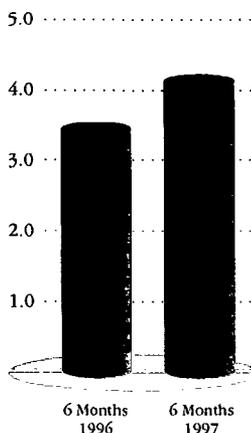

Second Quarter Earnings Up 25%

Following a record first quarter, earnings reported for the second quarter are \$2.0 billion, up 25% from the second quarter of 1996. This earnings growth reflects broad-based strength in our key business segments worldwide and represents the highest second quarter earnings in Exxon's history. These strong earnings were achieved despite crude oil prices that were down about 9% compared with a year ago, as well as lower U.S. natural gas prices.

First Six Months Earnings Up 20%

(\$ billions)

Key drivers to the improved results include:

- > Improved refining and marketing margins
- > Petroleum product sales at the highest second quarter level in 20 years
- > Chemical sales volumes at record levels

Second quarter results reflect the benefits of Exxon's broad functional and geographic diversification. During the quarter, lower crude prices negatively impacted exploration and production earnings. However, higher margins and sales volumes helped earnings in the refining and marketing segment improve over 130%, while chemicals earnings were up nearly 30%.

Mid-Year Earnings at Record Levels

Net income through six months of 1997 is \$4.1 billion, up 20% from the prior first half record set in 1996. These results reflect significant improvement in refining, marketing, and chemicals earnings. Petroleum product sales were up 4%, with volume growth experienced in all major geographical areas. In the chemicals business, commodity chemical prices improved and product sales were up 6%.

Over the last several years, cash flow has been strong, allowing the company to increase dividend payments, and fund a growing capital investment program while also reducing debt. In March, we announced our plans to return a portion of this cash flow to shareholders by increasing share repurchases, thereby reducing the number of shares outstanding. As a result, remaining shareholders will own a proportionately higher interest in the company.

Strategic Developments

The company continues to build for the future by progressing a number of strategic steps targeted to provide profitable volume growth. One major development in the first half of 1997 was the signing of a new long-term natural gas production agreement in Malaysia (see page 5). An important part of our future plans also includes continued investment in developing proprietary technology, which is discussed in this issue.

F o c u s O n T e c h n o l o g y :

Creating A Competitive Edge...In A Competitive Industry

One of the many keys to Exxon's success is its investment in developing and employing the best technologies in its business. Technological advances have allowed the oil and chemical industries to meet challenges such as exploring for and developing oil and gas in harsher environments, meeting customer needs for new, more sophisticated products, and prospering in a highly competitive business environment. By continually investing in technology, Exxon seeks to maintain a competitive advantage by...

- **Finding and developing more high-quality oil and gas**
- **Manufacturing higher-value oil and chemical products**
- **Developing better products that are also more environmentally friendly**
- **Further improving the efficiency, reliability, and safety of our operations**

Technology advances have shaped the history of the petroleum industry, and Exxon has played a key role in their development. We have long maintained a large-scale research and development (R&D) program and intend to continue as an industry leader.

Each year, Exxon invests more than \$500 million in R&D, about three times the amount spent by most other major oil companies. Research efforts are focused in areas with the greatest economic potential and are supplemented with commercial purchases as necessary.

Exxon conducts R&D in each of its key businesses. We are fortunate to have some of the best minds in the industry working with state-of-the-art equipment. Current research programs range from improving existing technology to seeking breakthroughs that will give us the competitive edge in the 21st century.

The following pages highlight some important examples of Exxon's recent technological advances.

Developing Better Automotive Fuel Products for Motorists

In the early 1970s, Exxon introduced the first in a series of gasolines designed to reduce exhaust emissions. Through the '80s and '90s, new Exxon motor fuels were developed to meet tightening air-emissions requirements.

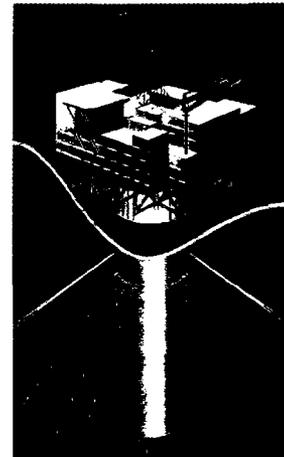

Exxon scientists recently developed the most active sulfur removal catalyst in the industry — an important step in light of growing demand for low-sulfur fuels.

In addition, detergent additives in Exxon gasoline and diesel fuels have helped prevent stalling and sluggish performance caused by fouled engine parts.

Deepwater Technology — Opening New Frontiers

As the search for oil and gas goes into deeper and deeper offshore waters, Exxon is calling on its long experience in deepwater operations and its extensive study of this promising new frontier.

Advances in technology such as those pioneered by Exxon dating back to the 1970s have helped to significantly reduce today's deepwater finding and development costs. Reduced costs, coupled with offshore operating experience in the U.S. Gulf of Mexico, Malaysia, and Australia, have allowed Exxon to pursue deepwater opportunities in more than 10 countries around the world.

EXXON'S HISTORY OF ACHIEVEMENT

Exxon's commitment to and investment in developing leading-edge technology is not a new strategy; research efforts date back to the very beginning of the company. Product quality research was being done as early as the 1880s, and the first stand-alone research department was established in 1919. Since that time, Exxon researchers have developed a number of industry-defining technologies, some of which are briefly noted below:

Fluid Catalytic Cracking

Commercialized in 1942, "cat cracking" revolutionized the refining of crude oil to produce gasoline.

Butyl Rubber

Prompted by the lack of natural rubber supplies during World War II, Exxon invented butyl rubber, now a major raw material for the tire industry.

Multigrade Engine Oils

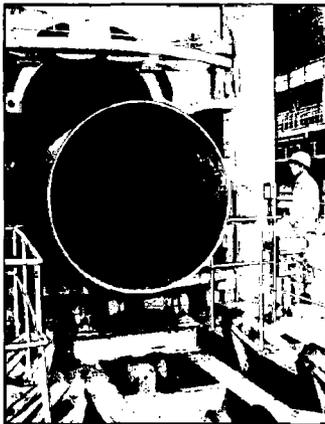

Introduced in 1952, multigrade oils eliminated seasonal oil changes by improving performance over a wide temperature range.

Offshore Development

Decades of Exxon experience have helped to expand the industry's capabilities to explore and produce in an off-shore environment.

Subsurface Pioneer

Exxon has pioneered advanced subsurface techniques using seismic well logs and rock data to assess and optimally develop oil and gas discoveries.

High-Strength Steel — Improving Pipeline Economics

Exxon is working with Japanese steel companies to commercialize Exxon's patented high-strength steel manufacturing process. Among other possible applications, this new technology can improve the economics of building natural gas pipelines by reducing the required wall thickness of the pipe material. It is currently being considered as a means to deliver natural gas from remote fields, such as the giant Natuna gas field in Indonesia, to fast-growing markets in the Asia-Pacific region.

Applying Arctic Technology in Russia

Exxon technology that was first developed for projects in Canada and the Alaskan Arctic is now at work in far eastern

Russia. The physical environment is a challenge. Operations offshore Sakhalin Island can encounter earthquakes and moving ice ridges. Plans for the Sakhalin I fields include innovative structural designs that can withstand these conditions. This would make the Sakhalin I area the world's first year-round drilling, production, and oil transport system in offshore arctic regions.

Manufacturing Higher-Value Products

The challenge in the refining business is to convert crude oil more efficiently into higher-value products such as motor gasoline, diesel fuel, lubricants, and petrochemical feedstocks. The most successful competitors incorporate state-of-the-art processes and catalyst technology to manufacture more of these products. In the 1940s, Exxon pioneered Fluid Catalytic Cracking Technology, providing a step change increase in motor gasoline and diesel fuel production from crude oil. In a more recent breakthrough, Exxon introduced "Short Contact Time" technology, which increases high-value product yield from existing catalytic cracking equipment. The new technology is being installed at Exxon refineries worldwide.

Producing Higher-Quality Lubricants

Lubricants are the oils that keep automobiles, trucks, and industrial equipment running smoothly. They are made from lube basestocks combined with additives. Improved automotive and equipment designs will demand higher-performance oils that provide protection over a wide range of engine temperatures. Exxon is developing a new generation of lube basestocks to meet these demands. Scheduled to be available in 1999, the new basestocks should further solidify Exxon's position as the worldwide leader in this industry.

In addition to improving basestocks, Exxon has developed a new oil additive for the passenger car market. Among its features: improved fuel economy.

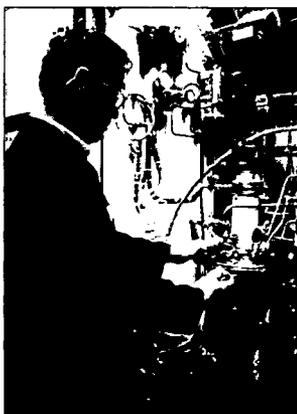

Converting Gas to Liquids

Natural gas has many attractive qualities. It's clean-burning and can be used in homes, factories, and electric power generation. Resources are abundant and can be transported easily by pipeline — if they are near major markets. However, several large resources in remote parts of the world have gone undeveloped because they cannot be brought to market economically. Exxon has developed a promising technology to address this opportunity. Advanced gas-to-liquids conversion technology (AGC-21™) converts gas to a liquid fuel more valuable than crude oil and easier and more economical to transport than natural gas. The technology should help Exxon take the lead in developing remote gas reserves in the 21st century.

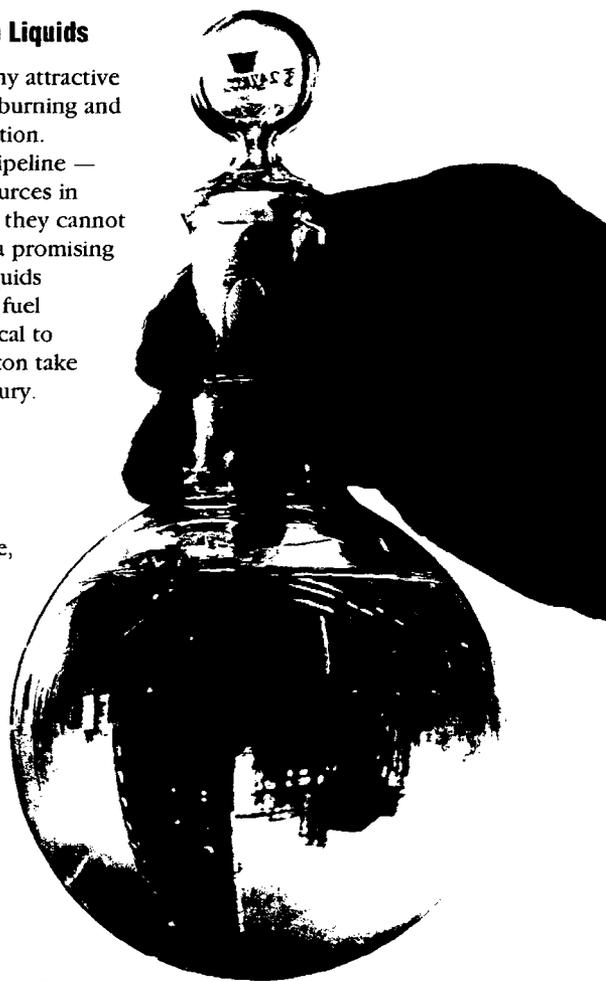

Metallocene Technology — Revolutionizing the Plastics Industry

Metallocenes are a new, highly active class of catalysts for making plastics that are tougher, more resistant to puncture, and have better sealing performance. With world demand for plastics growing rapidly, the market potential for products with these improved properties is enormous.

Exxon obtained one of the first metallocene catalyst patents in 1985 and now leads the industry in developing and commercializing metallocene-based

products. Recently, Exxon and Union Carbide Corporation formed Univation Technologies, a joint venture to research, develop and license leading-edge polyethylene technologies. Polyethylene is the world's most widely used plastic. This joint venture combines Carbide's UNIPOL® manufacturing process, Exxon's patented method to increase manufacturing output, and Exxon's EXXPOL® metallocene catalysts.

VALDEZ APPEAL UPDATE

Exxon submitted a comprehensive appellate brief in June 1997 to the Ninth Circuit U.S. Court of Appeals in San Francisco. In the brief, Exxon raised eleven substantive legal issues in six general areas. Most of the issues raised go directly or indirectly to the propriety of the \$5 billion in punitive damages awarded the plaintiffs by the U.S. District Court in Anchorage. The company asked the appellate court to consider recent rulings by the U.S. Supreme Court and other appellate courts that are critical of the procedures by which punitive damages are awarded and establish limits to such awards.

Exxon has consistently maintained that the punitive damages in the *Valdez* case are unwarranted and should be set aside or substantially reduced. The company promptly accepted responsibility for the accidental spill in 1989 and mounted a massive cleanup effort that was declared complete by the federal government and the State of Alaska in 1992. Exxon believes that this punitive damage verdict sends the wrong message that those who acknowledge their responsibilities and take prompt and costly remedial action will still face disproportionate punishment.

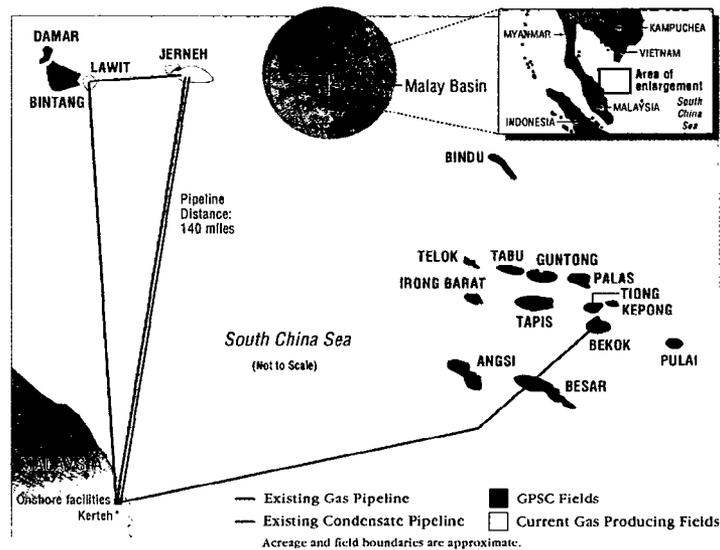

The timing for this appeal is controlled by the Court. Exxon has no basis to predict how long it will take for a decision to be reached; the appeals process may last several years.

EXXON AFFILIATE SIGNS MAJOR NEW GAS CONTRACT IN MALAYSIA

Exxon's affiliate, Esso Production Malaysia Inc. (EPMI), signed a major new Gas Production Sharing Contract (GPSC) with Petronas, the national oil company of Malaysia, in June 1997. Combined gas sales of over 12 trillion cubic feet from fields covered by the GPSC and an existing EPMI/Petronas agreement are expected to meet about two-thirds of the projected gas demand in Peninsular Malaysia for more than 25 years.

The GPSC covers development of natural gas from 15 fields in which EPMI and its co-venturer Petronas Carigali, a wholly-owned exploration and production arm of Petronas, will each have a 50% participation. Total investment to develop these gas resources is projected to be about \$5 billion.

Gas production under the GPSC will add to EPMI's 100%-owned production from the Lawit and Jerneh developments. Fueled by economic growth in Malaysia, EPMI's net gas production has risen significantly since 1992 to over 550 million cubic feet per day in 1996. At the same time, EPMI remains the largest oil producer in Malaysia.

Re: Summary of Rights issued under the Stockholder Rights Plan

Dear Stockholder:

As a precaution to ensure that it continues to be able to take appropriate action to protect the interests of Chevron Corporation and its stockholders, Chevron's Board of Directors has adopted a new Stockholder Rights Plan to replace the plan that expired on November 22, 1998. The new plan is very similar to the old plan in purpose and effect. It would help the Board to maximize stockholder value in the event of a change of control of Chevron, and otherwise to resist actions that the Board considers likely to injure Chevron or its stockholders. In adopting the new plan, the Board also announced its intention to review the plan not less often than every third year to ensure that the plan remains consistent with stockholder interests. Such review would be carried out in the first instance by the Board Nominating and Governance Committee, which is composed exclusively of nonemployee directors.

Integral to the plan is a Rights dividend payable on shares of Chevron's Common Stock. On November 23, 1998, the Board of Directors declared a dividend distribution on each outstanding share of Common Stock of one Right to purchase Chevron's Series A Participating Preferred Stock. The dividend was paid to stockholders of record at the close of business on December 3, 1998. No income was recognized by stockholders for tax purposes on payment of the dividend. The Rights are not now exercisable, and it is not known at this time whether they ever will be exercisable. No action can be taken by holders of Rights at this time. The Rights will expire on the earlier of (1) November 23, 2008, or (2) redemption or exchange of the Rights as described below.

In general, until the Rights are exercisable or are redeemed or exchanged or expire unexercised, each Right is associated with and cannot be separated from the underlying share of Common Stock on which the right was declared as a dividend. Accordingly, until the Rights are separate from the Common Stock, (1) each holder of outstanding shares of Common Stock is also the holder of an equal number of Rights, (2) any sale or other transfer of shares of Common Stock by a holder thereof also will cause a transfer of the associated Rights, (3) no income or loss will be recognized with respect to the sale of Rights incident to a sale of Common Stock, and (4) no certificates will be issued to evidence ownership of the Rights, but certificates for shares of Common Stock issued after the Record Date will refer to the associated Rights. Until a Right is exercised, it confers no rights as a stockholder, including, without limitation, the right to vote or to receive dividends.

The Rights will separate from the Common Stock if there is a "Distribution Date." A Distribution Date would occur upon the earliest to happen of (1) a public announcement that someone has become an "Acquiring Person," meaning that such person (including affiliated or associated persons or entities) has acquired, or obtained the right to acquire, beneficial ownership of 10 percent or more of the outstanding shares of Common Stock, other than as a result of repurchases of stock by Chevron, or (2) 10 days (unless such date is extended by the Board of Directors) having elapsed following the commencement of (or a public announcement of an intention to make) a tender offer or exchange offer that would result in someone becoming an Acquiring Person. If a Distribution Date occurs, the Rights will become exercisable and separately tradable, and Chevron will issue certificates for the Rights as soon as possible.

The Preferred Stock purchasable upon exercise of the Rights will be nonredeemable and junior to any other series of preferred stock Chevron may issue (unless otherwise provided in the terms of such stock). Each share of Preferred Stock will have a preferential quarterly dividend in an amount equal to 1,000

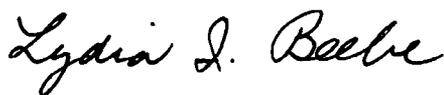

times the dividend declared on each share of Common Stock, but in no event less than \$25.00. In the event of liquidation, the holders of shares of Preferred Stock will receive a preferred liquidation payment equal to the greater of \$1,000.00 or 1,000 times the payment made per each share of Common Stock.

Each share of Preferred Stock will have 1,000 votes, voting together with the shares of Common Stock. In the event of any merger, consolidation or other transaction in which shares of Common Stock are exchanged, each share of Preferred Stock will be entitled to receive 1,000 times the amount and type of consideration received per share of Common Stock. The rights of the Preferred Stock as to dividends, liquidation and voting, and in the event of mergers and consolidations, are protected by customary anti-dilution provisions.

The amount of Preferred Stock that the holder of a Right is entitled to receive upon exercise of a Right and the Purchase Price payable upon exercise of a Right are both subject to adjustment. Initially, the Purchase Price is \$320.00 per Right. If no one has yet become an Acquiring Person, payment of the Purchase Price entitles the holder of a Right to receive only one one-thousandth of a share of Preferred Stock. If someone has become an Acquiring Person, however, payment of the Purchase Price entitles the holder to receive a number of one one-thousandth shares having a value, based on the then current market value of the Common Stock, equal to two times the Purchase Price. In addition, if someone has become an Acquiring Person, and thereafter Chevron is involved in a merger or other business combination transaction, a holder of a Right also will be able to acquire, upon payment of the Purchase Price, Common Stock of Chevron or its successor having a value, based on the market value of Chevron or its successor at the time of the transaction, equal to twice the value of the Purchase Price. Some limitations apply to the timing of exercise of the Rights, and any Rights belonging to an Acquiring Person are null and void.

The Board of Directors may redeem the Rights in whole, but not in part, at the Redemption Price of \$0.01 per Right, at any time before there is an Acquiring Person. After there is an Acquiring Person, the Rights may be redeemed only in very limited circumstances. However, the Board of Directors may in some cases also exchange all or part of the then outstanding and exercisable Rights (except for Rights that have become void) for shares of Common Stock at a rate of one share of Common Stock (or substitute consideration) per Right. Upon redemption or exchange, the right to exercise the Rights will terminate and the only right of the holders of Rights will be to receive the Redemption Price or the exchange consideration, as applicable.

A full description of the Rights is set forth in the Rights Agreement between Chevron and the Rights Agent, ChaseMellon Shareholder Services, L.L.C. A copy of the Rights Agreement has been filed with the Securities and Exchange Commission as an Exhibit to a Registration Statement on Form 8-A. A copy of the Rights Agreement is available at www.chevron.com or free by writing the Corporate Secretary, Chevron Corporation, 575 Market Street, 38th Floor, San Francisco, CA 94105. Chevron and the Rights Agent retain broad authority to amend the Rights Agreement; however, following any Distribution Date any amendment may not adversely affect the interests of holders of Rights. **This summary description of the Rights does not purport to be complete and is qualified in its entirety by reference to the Rights Agreement.**

ExxonMobil

December 1, 1999

Dear Shareholder,

On November 30, 1999, we witnessed an important development in the long and successful histories of Exxon and Mobil, an event which should provide an even more exciting future.

On that day, Exxon and Mobil united to form ExxonMobil, a world-class company that will combine high-quality people, premier assets, and leading research and technology from two firms with long histories of strong performance.

We believe the two companies are an exceptional fit and bringing them together will allow ExxonMobil to provide even greater value to you, our shareholders. Our larger, more globally diverse resource base will provide a tremendous number of attractive opportunities. Our operations are structured to capture business synergies in established areas and to react quickly to growth opportunities in emerging markets. This outstanding combination of global size and business agility will allow ExxonMobil to meet the continuously changing needs of our customers as we enter the new century.

In approximately two weeks, Mobil shareholders will receive detailed instructions on exchanging their Mobil share certificates for ExxonMobil shares. For Exxon shareholders, no action is required, as your current shares will be valid in the merged company. Information will also be available on our website at www.exxon.mobil.com.

We've noted many of the positive changes that you can expect from ExxonMobil. However, we can assure you that one thing will not change: our strategy to manage the company to enhance long-term shareholder value.

We appreciate your overwhelming support of this merger and welcome our more than two million shareholders to ExxonMobil.

**Supplement dated December 1, 1999 to
Shareholder Investment Program Prospectus dated June 2, 1997**

This supplement updates the June 2, 1997 SIP prospectus as follows:

- On November 30, 1999, Exxon Corporation changed its name to Exxon Mobil Corporation ("ExxonMobil"). Accordingly, all references in the prospectus to "Exxon" or the "Corporation" now mean ExxonMobil. The address of the Corporation's website referred to on page 10 of the prospectus is changed to www.exxon.mobil.com.
- Also on November 30, 1999, EquiServe Trust Company, N.A., replaced BankBoston, N.A., as the Administrator for the SIP and as the Corporation's transfer agent, registrar, and dividend paying agent. EquiServe has been providing these shareholder services as agent for BankBoston so there is no change in work location, people or systems. References to BankBoston on the cover and on pages 2 and 3 and all references in the prospectus to the "Administrator" now mean EquiServe Trust Company. Contact information in the prospectus, including the mailing address, telephone number, and email address of the Administrator given on pages 2, 3, and 14, remain the same.
- EquiServe Trust Company also replaces BankBoston as trustee of the Program IRA. EquiServe will separately provide participants in the IRA with additional information.

Please keep this supplement together with your prospectus. You can also obtain an updated prospectus that reflects the changes described above by calling ExxonMobil Shareholder Services toll-free at 1-800-252-1800, or by visiting the ExxonMobil website.

\$2 Billion Brent Field Redevelopment Approved

The United Kingdom has approved a \$2 billion redevelopment program for the Brent Field in the U.K. sector of the North Sea. Exxon and Shell each hold a 50 percent interest in the field.

Scheduled for completion in 1998, the Brent project calls for modifying and refurbishing existing facilities and equipment. It provides for low-pressure operations that will extend the life of the field and should substantially increase the ultimate recovery of both oil and gas.

The Brent field, discovered in 1971 and situated 116 miles northeast of Lerwick, Shetland, is one of the largest in the North Sea. It has four production platforms, three of which will receive new process modules.

Exxon is one of the larger participants in the U.K. sector of the North Sea. The Brent redevelopment project reflects a continuation of the company's long-term involvement in Britain's petroleum business.

Exxon Introduces a New Synthetic Lubricant Base Stock

Exxon's new synthetic base stock for lubricants, EXXSYN, produced at the company's refinery in Fawley, England, is now being used in Esso U.K.'s super-premium engine oil, Superlube EX2, and its top-of-the-line equivalents produced by the company's German and French affiliates.

EXXSYN is the product of a patented Exxon process that involves rearrangement of wax molecules under carefully controlled conditions. The high-performance lubricants are produced by blending EXXSYN with other base stocks and special chemical additives.

Lubricants blended with EXXSYN provide lower oil consumption and volatility, reduced oil thickening, and run cleaner with less wear compared to conventional lubricants.

Exxon Chemical Plans Aromatics Complex in Singapore

Exxon Chemical Company, Amoco Chemical Company and China American Petrochemical Company, Ltd. (CAPCO) have successfully completed a feasibility study for building an aromatics complex in Singapore that is expected to start up in 1996.

Under the agreement for the complex, Exxon Chemical will own 50 percent of the equity of the joint-venture company, Amoco will have 40 percent and CAPCO, 10 percent. The complex is expected to employ some 200 skilled personnel, most of whom will be Singapore nationals.

The new aromatics facility will be integrated with

Esso Singapore's existing 230,000-barrel-per-day petroleum refinery. Plans include a reformer; a world-scale, 350,000-ton-per-year paraxylene unit; and a 90,000-ton-per-year benzene unit. Paraxylene is used primarily in the production of purified terephthalic acid, a raw material for making polyester fiber, film and packaging resin. Benzene is used to produce a range of other raw materials used to manufacture products such as styrene.

China to Open Oil Frontiers

Exxon Exploration Company (EEC) will be among the participants when the China National Petroleum Corporation opens for bidding 12 onshore oil and gas areas in the northern and central regions of that country. The first round of bidding, with an October deadline, is for acreage in the Tarim Basin – a thinly populated desert area of northwestern China.

An EEC affiliate, Esso China Limited, maintains its headquarters in Beijing. Last year, Esso China closed its office in Shekou when the company's exploration focus shifted from the South China Sea to inland areas.

China ranks sixth among the world's oil producers with output of 2.8 million barrels a day and exports of about 400,000 barrels a day. China's oil production grew less than 1 percent last year, while the economy in that country of 1.1 billion people jumped nearly 13 percent.

Exxon Awarded Offshore Block in Nigeria

An affiliate of Exxon Exploration Company in Nigeria has signed a production-sharing agreement with the Nigerian National Petroleum Corporation for the right to explore on a 500,000-acre tract that lies 47 miles off the Nigerian coast. Exxon will be the operator for this block.

The signing initiates an exploration and production presence for Exxon in Nigeria. The company will open an office in that country to manage this operation and to continue pursuing other upstream business opportunities.

Imperial Increases Natural Gas Production

The Deep Basin gas field near Grande Prairie, Alberta, discovered in the mid 1970s, is one of the richest known natural gas deposits in Western Canada. It is currently the focus of a \$10 million (U.S.) drilling and development program that should increase production to more than 150 million cubic feet a day – about 25 percent of Imperial Oil Limited's total gas production. Imperial is a Canadian company in which Exxon has a 70 percent interest.

Exxon Signs Exploration Pact in Papua New Guinea

In an agreement among Esso Australia, Ltd., Exxon Exploration Company and British Petroleum Company, Exxon is exploring for oil and gas in the highlands of Papua New Guinea.

Under the agreement, Exxon has an option to participate in two petroleum prospecting licenses on oil exploration acreage and in a petroleum development license.

Exxon Announces Second Quarter 1993 Results

Exxon Corporation reported second quarter 1993 net income of \$1,235 million, up 33 percent from \$930 million in the second quarter of 1992. On a per share basis, net income was \$0.98 in the 1993 second quarter, up 34 percent from \$0.73 in the same period last year.

Net income in the second quarter included \$210 million in net nonrecurring credits, principally tax credits and gains on asset sales. Last year's second quarter included \$24 million of such credits.

Revenue was \$27,931 million in the most recent quarter, up from \$27,759 million in the second quarter a year ago.

Exxon's earnings in the second quarter 1993 rose significantly over the corresponding 1992 level. The improvement was achieved despite weak crude oil prices and sluggish economic conditions that affected both petroleum product and chemicals markets.

Lower operating expenses accounted for over \$200 million of this quarter's earnings improvement. Expense reductions resulted from the effect of restructuring steps taken in North America in 1992 as well as continued emphasis on efficiency improvements within each of the major business segments worldwide.

Petroleum product margins were improved in the second quarter

1993, compared to second quarter 1992 levels, when margins were particularly soft. Recent margins benefited from lower crude supply costs and modest increases in demand in Europe and the Far East. In addition, refining crude runs and sales of petroleum products were higher in the 1993 second quarter. The U.S. natural gas market was considerably stronger than a year ago, leading to both improved realizations and higher sales volumes.

Partially offsetting these favorable factors were lower crude prices, reduced sales of European natural gas as a result of warmer than normal weather, lower European natural gas prices, an inventory build-up of North Sea liquids, and lower liquids production in North America. Chemical margins and prices for coal and copper were generally lower in the 1993 second quarter, reflecting slow economic growth in major markets and excess industry manufacturing and mining capacity.

Capital and exploration expenditures totaled \$2,138 million in the second quarter, as Exxon continued its active investment program.

SECOND QUARTER EARNINGS

Petroleum and Natural Gas Operations

Second quarter 1993 earnings from U.S. exploration and production

operations of \$262 million constituted an increase of \$81 million from the comparable 1992 quarter. Earnings from exploration and production operations outside the U.S. totaled \$499 million, compared with \$517 million last year. On a worldwide exploration and production basis, the 1993 second quarter included \$82 million of nonrecurring tax credits, while the 1992 quarter included a \$39 million restructuring provision.

Worldwide exploration and production operations benefited from lower operating expenses, principally in North America. However, earnings were adversely affected by lower crude prices and by a build-up of liquids inventories in the North Sea. Worldwide crude production was 1,654 kbd (thousand barrels per day) in the 1993 second quarter, about even with last year. Natural gas production of 4,666 mcf (million cubic feet per day) compared with 4,835 mcf in the 1992 second quarter, reflecting weather-related volume reductions in Europe, partially offset by improved market conditions in the U.S.

Earnings from U.S. refining and marketing operations were \$113 million in the second quarter of this year compared with \$47 million in the 1992 second quarter. Earnings from refining and marketing operations outside the U.S. more than doubled compared to the same

period last year, totaling \$333 million versus \$138 million in the 1992 second quarter. On a worldwide refining and marketing basis, this year's quarter included \$11 million in net nonrecurring credits from asset dispositions, while the 1992 second quarter included a \$36 million charge for restructuring.

Worldwide refining and marketing operations benefited from lower operating expenses, principally in North America. Petroleum product margins outside the U.S. rose, but in the U.S. they remained depressed. Worldwide petroleum product sales volumes of 4,841 kbd were up 80 kbd, primarily due to higher demand for distillate in the Far East.

Other Operations

Earnings from chemical operations totaled \$86 million compared with \$119 million in the same quarter a year ago. Product sales volumes and margins were lower because of weak market demand and excess industry capacity. In the U.S., chemical earnings were down \$16 million to \$50 million; non-U.S. chemical earnings declined \$17 million to \$36 million.

Other operations earned \$48 million, including \$13 million of nonrecurring credits. This compares with \$63 million earned last year. This decline was primarily due to lower coal production and softer coal and copper prices.

Corporate and financing charges declined \$29 million to \$106 million in the most recent quarter. There were similarly sized nonrecurring tax credits in both periods.

During the second quarter of 1993, Exxon purchased 1.7 million shares of its stock for the Treasury at a cost of \$112 million.

FIRST SIX MONTHS EARNINGS

Petroleum and Natural Gas Operations

Net income for the first six months of 1993 rose 9 percent to \$2,420 million, compared with \$2,225 million earned in the first half of

1992. Net income in the first half of 1993 included \$257 million of net nonrecurring credits, while the first six months of 1992 included \$182 million of such credits. Net income per share was \$1.92 compared with \$1.76 per share. Revenue totaled \$55,193 million compared with \$55,673 million a year ago.

Earnings from U.S. exploration and production operations were \$490 million, an increase of 60 percent from the first half of 1992. Lower operating expenses were a major positive factor behind the improvement in exploration and production earnings in the U.S. Earnings from exploration and production operations outside the U.S. were \$1,167 million in the first half of 1993, compared with \$1,299 million last year.

Worldwide crude production declined 52 kbd to 1,667 kbd in the first half of 1993 primarily as a result of normal field declines in North America. However, crude oil realizations were up \$.21 per barrel on average, reflecting strong demand for Alaskan crude; realizations outside the U.S. were lower than the year ago period. Natural gas production of 5,868 mcf/d was essentially unchanged from last year, reflecting the net effect of stronger market conditions in the U.S. and new production in the Far East, offset by weather related declines in Europe. Natural gas realizations were stronger in North America and weaker in Europe, the latter affected by unfavorable foreign exchange movement.

Earnings from U.S. refining and marketing operations were \$134 million, up from \$70 million a year

ago. Earnings from refining and marketing operations outside the U.S. were \$610 million in the first half of 1993, an increase of \$18 million.

Petroleum product margins were higher during the first half of 1993, particularly in Europe and the Far East, but remained depressed in the U.S. Refining and marketing earnings in the U.S. benefited from lower operating expenses, the result of restructuring and cost control efforts. Worldwide product sales volumes of 4,854 kbd were essentially unchanged from 1992 levels.

Other Operations

Earnings from chemical operations totaled \$209 million in the first half of 1993 compared with \$270 million in the corresponding period of last year. The earnings decline reflected lower margins and sales volumes, which totaled 6,400 kt (thousand tons), compared with 6,441 kt in the first half of last year. U.S. chemical operations earned \$137 million compared with \$153 million in 1992, while operations outside the U.S. earned \$72 million compared with \$117 million last year.

Other operations earned \$96 million in the first half of this year, down from \$128 million in 1992, reflecting a decline in coal production and lower realizations for both coal and copper.

Corporate and financing charges were \$286 million in the first half of 1993, down from \$400 million in 1992. Financing costs in the current year benefited from lower interest rates and lower debt-related foreign exchange losses.

April 11, 1997

To the Shareholders of
Exxon Corporation:

The enclosed Exxon stock certificate or Shareholder Investment Program (SIP) statement represents the additional shares to which you are entitled as a result of the two-for-one stock split which was declared by the Board of Directors on February 26, 1997 to holders of record on March 14. You are entitled to one additional share for each share held on that date.

Any stock certificates already in your possession should be retained. Existing certificates will continue to be valid and need not be exchanged.

The stock split will not change your proportionate interest in the Corporation.

Under the present federal income tax laws, receipt of additional shares as a result of the split is not taxable. Any subsequent sale of shares may result in a taxable gain or loss.

Further information on the stock split is contained in this brochure.

Enclosure

**INFORMATION ABOUT THE
TWO-FOR-ONE STOCK SPLIT**

On February 26, 1997, the Board of Directors approved a two-for-one stock split of the Corporation's Common Stock. The stock split became effective at the close of business on March 14, 1997. As a result, each shareholder is entitled to one additional share for each share held on March 14.

DIVIDEND INFORMATION

The first quarter 1997 dividend of \$0.79 per share was paid on March 10, 1997 to shareholders of record on February 10, prior to the split.

Future dividends would be declared and paid on the basis of the split shares. The Board will consider the second quarter dividend on Wednesday, April 30.

CERTIFICATES

Shareholders holding certificates will receive one new certificate for all their additional shares. You may request a change in the denomination of shares by calling or writing Exxon Shareholder Services.

Retain any stock certificates already in your possession. Existing certificates will continue to be valid and need not be exchanged.

Your address as shown on our records has been printed on your new stock certificate. A change in your address will not affect your ownership of the stock in any way. If your address changes, please do NOT return your certificate for correction. Instead, simply call or write Exxon Shareholder Services.

The new certificates are in the same registration as shown on our account records at the close of business on March 14. You may request a transfer of ownership by calling or writing Exxon Shareholder Services. When

mailing certificates, we recommend that you insure and send them by registered or certified mail.

SHAREHOLDER INVESTMENT PROGRAM

Participants in the Shareholder Investment Program (SIP) who have shares in book-entry or "safekeeping" form will have new shares added to their SIP accounts. New shares for those held on March 14 are identified on the SIP statement as "Split Shares."

If you made purchases on Investment Dates between and including March 13 through April 10, since the SIP shares were traded on a pre-split basis, you are entitled to additional shares for the shares purchased. These shares are added to your account and listed as "Split Shares Buy" on the SIP statement.

Correspondingly, if you sold shares on Investment Dates between and including March 13 through April 10, since you received proceeds on a pre-split basis, you are not entitled to receive any additional shares for the shares sold. These shares are deducted from your account and are listed as "Split Shares Sale" on the statement.

Participants who hold shares in both book-entry and certificate form will receive a statement showing their additional book-entry shares and a new certificate for their additional shares represented by certificates. The new certificated shares are included in the "Certificate Shares" and "Total Shares" boxes at the bottom of the SIP statement.

Participants who have designated a specific number of shares on which to receive cash dividends have had their share elections doubled automatically. You may change the number of shares on which you receive a cash dividend by calling Exxon Shareholder Services.

TAX INFORMATION

The Corporation has been advised by its General Tax Counsel that the stock split will not result in a gain or loss to shareholders for federal income tax purposes. However, any subsequent sale of shares may result in a taxable gain or loss.

The tax basis of each share held on March 14, 1997 will be reduced by half. The tax basis of each new share received as a result of the stock split will be the same as the reduced basis of the share for which it was issued. The tax acquisition date of the new shares is the tax acquisition date of the old shares.

If you desire further information, we suggest you consult your personal tax advisor.

EXXON CORPORATION SHAREHOLDER INVESTMENT PROGRAM

The following is a complete statement of the Program.

Purpose

The purpose of the Program is to provide shareholders and other investors with a convenient and economical way to purchase shares of Common Stock and to reinvest all or a portion of their cash dividends in additional shares of Common Stock.

Advantages

- Participants pay no brokerage fees in connection with purchases of Common Stock under the Program.
- In addition to reinvestment of dividends, participants may invest additional funds in Common Stock through optional cash payments of up to \$8,000 per month. Optional investments may be made by check, money order, wire transfer, electronic funds transfer from a predesignated bank account, or, for eligible Exxon employees and retirees, payroll or annuity deduction. Optional investments may be made occasionally or at regular intervals, as the participant desires.
- Funds invested in the Program are fully invested through the purchase of fractions of shares, as well as full shares, and proportionate cash dividends on fractions of shares are used to purchase additional shares.
- Persons not presently owning shares of Common Stock may become participants by making an initial minimum cash investment to purchase shares under the Program.
- Participants may direct the Corporation to transfer, at any time and at no cost to the participant, all or a portion of the participant's shares held under the Program to a Program account for another person.
- The Program offers a "share safekeeping" service whereby participants may deposit their Common Stock certificates with the Program Administrator and have their ownership of such Common Stock maintained on the Administrator's records as part of their Program account.
- Quarterly statements are mailed to each participant listing all transactions in the participant's account.
- Participants may choose to establish an IRA and to contribute or roll over amounts to the IRA through a Program account.

Administration

First Chicago Trust Company of New York (the "Administrator") will administer the Program, purchase and hold shares of Common Stock acquired under the Program,

keep records, send statements of account activity to participants, and perform other duties related to the Program. Participants may contact the Administrator by writing to:

Exxon Shareholder Investment Program
c/o First Chicago Trust Company of New York
P.O. Box 3892
Church Street Station
New York, NY 10008

or by telephoning the Administrator toll free at (800) 252-1800 between 9 a.m. and 5 p.m. Eastern time. Written communications may also be sent to the Administrator by telefax at (212) 385-4261.

Eligibility

Any person or entity, whether or not a holder of record of shares of Common Stock, is eligible to participate in the Program, provided that (i) such person or entity fulfills the prerequisites for participation described below under "Enrollment Procedures" and (ii) in the case of citizens or residents of a country other than the United States, its territories, and possessions, participation would not violate local laws applicable to the Corporation or the participant.

Enrollment Procedures

After being furnished with a copy of this Prospectus, eligible applicants may join the Program by completing and signing an Enrollment Form and returning it to the Administrator. In order to participate in the Program, an enrollee must either deposit one or more shares with the Administrator or elect to reinvest cash dividends paid on one or more shares of Common Stock. Current registered shareholders should be sure to sign their names on the Enrollment Form exactly as they appear on their certificates. Non-shareholders must include a minimum initial investment of at least \$250 with their completed Enrollment Form (see "Optional Cash Investments and Initial Investments" below).

Beneficial owners of shares of Common Stock registered in the name of someone else (for example, a bank, broker, or trustee) may participate in the Program by transferring some or all of those shares to the Administrator for their accounts (see "Transfer of Shares from a Broker" below).

Enrollment Forms will be processed as promptly as practicable. Participation in the Program will begin after the properly completed Enrollment Form has been reviewed and accepted by the Administrator.

Participants in the Corporation's previous Dividend Reinvestment Plan for Common Stock will automatically continue in the new Program without sending in the new Enrollment Form, except that those participants who have not elected full reinvestment under the previous plan must submit a new Dividend Reinvestment Form.

Investment Dates

The Program's "Investment Dates" are Thursday of each calendar week or, if Thursday is not a day on which financial markets in New York City are open for business, the next day on which they are so open.

Optional Cash Investments and Initial Investments

Participants may make optional cash investments by personal check or money order, wire investment, payroll or annuity deduction (eligible Exxon employees and retirees only), or automatic deduction from a bank account. Optional cash investments must be at least \$50 for any single investment and may not exceed \$8,000 per month. There is no obligation to make an optional cash investment at any time, and the amount of such investments may vary from time to time.

Initial investments, for those who do not already own Common Stock, must be at least \$250, in the form of a personal check or money order, and must be included with the completed Enrollment Form returned to the Administrator, except that no minimum initial investment is required for eligible Exxon employees and retirees who initiate payroll or annuity deductions at the time of enrollment.

Optional cash investments and initial investments must be received by the Administrator no later than one business day prior to an Investment Date to be invested beginning on that Investment Date. Otherwise, the optional cash investment or initial investment will be held by the Administrator and invested beginning on the next Investment Date. Upon a participant's written request received by the Administrator no later than two business days prior to the applicable Investment Date, an optional cash investment or initial investment not already invested under the Program will be cancelled or returned to the participant, as appropriate. However, no refund of a check or money order will be made until the funds have been actually received by the Administrator. Accordingly, such refunds may be delayed by up to three weeks.

No interest will be paid on amounts held by the Administrator pending investment. Accordingly, investors should transmit optional cash investments and initial investments so as to reach the Administrator shortly (but not less than one business day) before an Investment Date. All optional cash investments and initial investments are subject to collection by the Administrator of full face value in U.S. funds.

Investments may be made in the following ways:

Check Investment

Optional cash investments and initial investments may be made by personal check or money order payable in U.S. dollars to "FCT—Exxon". Optional cash investments must be mailed to the Administrator together with the Cash Investment Form attached to each statement of account sent to participants. Additional Cash Investment Forms are available upon request from the Administrator.

Wire Investment

Optional cash investments may be made by wire transfer to the Administrator. Wire transfers must be sent to First National Bank of Chicago, Routing Code 071-0013, and must include the name of the Program, the name in which the Program account is registered and the participant's Program account number. Participants making wire investments may be charged fees by the commercial bank initiating the transfer.

Payroll or Annuity Deduction

Eligible employees of the Corporation and its subsidiaries who are paid through a U.S. payroll ("eligible employees"), and eligible persons receiving annuity payments from the Corporation or its subsidiaries through a U.S. benefits office ("eligible retirees"), may make optional cash investments under the Program by having specified amounts (not less than \$50 nor more than \$8,000 per month) deducted from each paycheck or annuity check. To initiate payroll or annuity deduction, an eligible employee or eligible retiree in the Program must complete, sign, and return to the Administrator a Payroll or Annuity Deduction Form. Forms are available upon request from the Administrator. Forms will be processed and will become effective as promptly as practicable.

Exxon will make payroll or annuity deductions from each payroll or annuity check during the month. Exxon will hold all funds so deducted for a particular month until the end of that month, and will then promptly forward such funds to the Administrator. For purposes of the Program, annuity deductions on the first of the month will be included in the payment made to the Administrator for the prior month. The Administrator will invest funds in Common Stock beginning on the first Investment Date following receipt thereof by the Administrator.

Because funds to be invested by payroll or annuity deduction are only transmitted to the Administrator once a month, participants using this investment option should recognize that, depending on the applicable pay date, funds deducted from a particular paycheck or annuity check may not be forwarded to the Administrator for several weeks. **No interest will be paid on amounts held pending investment.**

Eligible employees and retirees who wish to enroll in the Program but who are not shareholders may satisfy the requirement for an initial investment by initiating payroll or annuity deduction at the time of enrollment.

Participants may change the amount of payroll or annuity deduction or terminate payroll or annuity deduction by completing and submitting a new Payroll or Annuity Deduction Form.

Automatic Investment from a Bank Account

Participants may make automatic monthly investments of a specified amount (not less than \$50 nor more than \$8,000 per month) by electronic funds transfer from a pre-designated U.S. bank account.

To initiate automatic monthly deductions, the participant must complete and sign an Automatic Monthly Deduction Form and return it to the Administrator together with a voided blank check for the account from which funds are to be drawn. Automatic Monthly Deduction Forms may be obtained from the Administrator. Forms will be processed and will become effective as promptly as practicable.

Once automatic monthly deduction is initiated, funds will be drawn from the participant's designated bank account on the business day preceding the last Investment Date of each month, and will be invested in Common Stock beginning on that Investment Date.

Participants may change or terminate automatic monthly deduction by completing and submitting to the Administrator a new Automatic Monthly Deduction Form. To be effective with respect to a particular Investment Date, however, the new Automatic Monthly Deduction Form must be received by the Administrator at least two business days preceding such Investment Date.

Reinvestment of Cash Dividends

Participants may elect to reinvest cash dividends paid on all or a portion of the Common Stock registered in their names and the Common Stock held in their Program accounts by designating their election on the Enrollment Form. Participants electing partial reinvestment of cash dividends must designate the number of whole shares for which they want to receive cash dividends. Dividends paid on all other shares registered in the participant's name and all other shares held in his or her Program account will be reinvested in additional shares of Common Stock.

Reinvestment levels may be changed from time to time as a participant desires by submitting a new election to the Administrator. To be effective with respect to a particular Common Stock dividend, any such change must be received by the Administrator on or before the record date for such dividend. The record date is usually about one month prior to the payment of the dividend. The Corporation has historically paid cash dividends on the 10th of March, June, September and December, or on the 11th if the 10th is a Sunday.

Once a participant elects reinvestment, cash dividends paid on shares of Common Stock registered in the participant's name or held in the participant's Program account will be reinvested in additional shares of Common Stock. If the participant has specified partial reinvestment, that portion of such dividend payment not being reinvested will be sent to the participant by check in the usual manner or by direct deposit, if the participant has elected the direct deposit option (see "Direct Deposit of Dividends" below). The Administrator may initiate purchase transactions for the reinvestment of dividends prior to the actual payment of dividends in order to minimize, to the extent possible, the delay between the payment of dividends and the settlement of purchase transactions.

Withdrawal

A participant may withdraw from the Program at any time by giving written instructions to the Administrator. Upon withdrawal from the Program, a certificate for the whole shares held in the Program for the participant will be issued. Alternatively, a participant may specify in the withdrawal notice that all (but not less than all) whole shares be sold. The Administrator will make the sale beginning on the next Investment Date after receipt of the withdrawal notice, and the participant will receive a check for the proceeds, less an administrative charge of \$5 and applicable brokerage commissions, if any.

Participants terminating participation in the Program will receive a check for the cash value of any fractional share held in their Program accounts. Fractions of shares will be valued at the same effective price as whole shares sold for a participant with respect to the relevant Investment Date.

If notice of withdrawal is received on or after an ex-dividend date but before the related dividend payment date, the withdrawal will be processed as described above and a separate check for the dividends will be mailed following the payment date.

No optional cash investments may be made after participation in the Program has been terminated.

Sale of Shares

Participants may request the Administrator to sell any number of whole shares held in their Program accounts by giving written instructions to the Administrator. The Administrator will make the sale beginning on the first Investment Date following receipt of the request. The participant will receive the proceeds, less an administrative charge of \$5 and applicable brokerage commissions, if any. Proceeds of shares sold through the Program will be paid to the participant normally by check.

If instructions for the sale of shares are received on or after an ex-dividend date but before the related dividend payment date, the sale will be processed as described above and a separate check for the dividends will be mailed following the payment date. A request to sell all shares held in a participant's account will be treated as a withdrawal from the Program (see "Withdrawal" above).

Source and Price of Shares

To fulfill Program requirements, the Administrator may purchase or sell shares in the open market or in privately negotiated transactions. These purchases and sales are subject to such terms and conditions, including price and delivery, as the Administrator may accept. The Administrator may also, in its discretion, purchase shares from or sell shares to the Corporation, to the extent the Corporation makes shares available or is willing to purchase shares. The price of shares purchased from or sold to the Corporation will be the average of the high and low sale prices of the Common Stock

as reported on the New York Stock Exchange consolidated tape on the relevant Investment Date. The Administrator may commingle each participant's funds with those of other participants for the purpose of executing purchases, and may offset purchases of shares against sales of shares to be made for participants under the Program with respect to the same Investment Date, resulting in a net purchase or a net sale of shares.

Shares purchased or sold for a participant with respect to a particular Investment Date will be credited to the participant's account at the average price per share of all shares purchased or sold, as appropriate, with respect to that Investment Date.

The Administrator will make every effort to invest funds in Common Stock as soon as practicable on or after each Investment Date. Shares acquired in the open market or from private sources will be purchased as soon as practicable by the Administrator beginning on the relevant Investment Date and in no event later than 15 days after the relevant Investment Date, except where and to the extent necessary under any applicable federal securities laws or other government or stock exchange regulations. Shares acquired from the Corporation will be purchased for participants' accounts as of the close of business on the relevant Investment Date. Dividend and voting rights will commence upon settlement, which is normally five business days after purchase whether from the Corporation or any other source.

Direct Deposit of Dividends

Through the Program's direct deposit feature, participants may elect to have any cash dividends not being reinvested under the Program paid by electronic funds transfer to the participant's predesignated bank account. To receive such dividends by direct deposit, participants must first complete and sign the Direct Deposit Form and return the Form to the Administrator. Direct Deposit Forms are available upon request from the Administrator.

Forms will be processed and will become effective as promptly as practicable. Participants may change the designated account for direct deposit or discontinue this feature by written instruction to the Administrator.

Share Safekeeping

At the time of enrollment in the Program, or at any later time, participants may use the Program's "share safekeeping" service to deposit any Common Stock certificates in their possession with the Administrator. Shares deposited will be transferred into the name of the Administrator or its nominee and credited to the participant's account under the Program. Thereafter, such shares will be treated in the same manner as shares purchased through the Program.

By using the Program's share safekeeping service, participants no longer bear the risk associated with loss, theft or destruction of stock certificates. Also, because shares deposited with the Administrator are treated in the same manner as shares purchased through the Program, they may be transferred or sold through the Program in a

convenient and efficient manner. See "Withdrawal" and "Sale of Shares" above and "Gift/Transfer of Shares Within the Program" below.

Participants who wish to deposit their Common Stock certificates with the Administrator must complete and return to the Administrator, by registered, insured mail, the Common Stock certificates to be deposited along with a properly completed Share Safekeeping Form. The certificates should not be endorsed. Share Safekeeping Forms are available from the Administrator.

Transfer of Shares from a Broker

Owners of Common Stock may wish to transfer to their Program accounts shares owned by them but held in "street name" through a broker or other agent. To do so, participants must complete a Broker Transfer Form and return it to the Administrator. The Administrator, upon receipt of a properly completed Form, will contact the broker holding the shares of Common Stock and will arrange to transfer those shares specified by the participant into the name of the Administrator or its nominee for credit to the participant's account under the Program. Broker Transfer Forms are available upon request from the Administrator.

Share owners wishing to enroll in the Program using shares transferred from a broker must include a properly completed Broker Transfer Form with the Enrollment Form returned to the Administrator. Participation in the Program will commence when shares of Common Stock are received by the Administrator from the transferring broker.

Individual Retirement Account

Individuals may use the Program to establish an Individual Retirement Account (IRA) and to make contributions to the IRA or to roll over an existing IRA or other qualified plan distribution. After being furnished with a copy of this Prospectus, individuals may open an IRA by completing and signing an IRA Enrollment Form and returning it to the Administrator with an initial contribution. The minimum Initial Investment for an IRA Program account is \$250. For the purpose of rolling over an existing IRA or a qualified plan distribution into the Program, the maximum monthly investment does not apply. IRA Enrollment Forms are available upon request from the Administrator.

An annual administrative fee of \$20 will be charged for maintaining the IRA account. If not paid separately by the participant, the initial \$20 fee will be deducted from the Initial Investment when the IRA Enrollment Form is mailed to the Administrator. Thereafter, if not paid separately by the participant, the annual fee will be deducted from the participant's IRA Program account at the beginning of each year by cashing out any shares or fractions of shares sufficient to cover the amount of the fee.

Gift/Transfer of Shares Within the Program

If a participant wishes to transfer the ownership of all or part of the participant's shares held under the Program to a Program account for another person, whether by gift, private sale or otherwise, the participant may effect such transfer by mailing a properly completed Gift/Transfer Form, along with an executed stock assignment (stock power), to the Administrator. Transfers of less than all of the participant's shares must be made in whole share amounts. No fraction of a share may be transferred unless the participant's entire account is transferred. Requests for transfer are subject to the same requirements as for the transfer of Common Stock certificates, including the requirement of a signature guarantee on the stock assignment. Gift/Transfer Forms and Stock Power Forms are available upon request from the Administrator.

Shares so transferred will continue to be held by the Administrator under the Program. An account will be opened in the name of the transferee, if he or she is not already a participant, and such transferee will automatically be enrolled in the Program. If the transferee is not already a registered shareholder or a Program participant, the donor may make a reinvestment election for the transferee at the time of the gift. The transferee may change the reinvestment level after the gift has been made as described under "Reinvestment of Cash Dividends" above.

The transferee will receive a statement showing the number of shares transferred to and held in the transferee's Program account. Also, if requested by the participant, a gift certificate acknowledging the transfer of shares will be made available free of charge.

Reports to Participants

Each participant will receive a quarterly statement showing the amount invested, purchase price, the number of shares purchased, deposited, sold, transferred, withdrawn, total shares accumulated and other information for each quarter during the year. The quarterly statement will consolidate all shares held by the Administrator for the participant and other shares registered in the participant's name. Each participant should retain these statements so as to be able to establish the cost basis of shares purchased under the Program for income tax and other purposes. Duplicate statements will be available from the Administrator.

The Administrator will also send each participant a confirmation promptly after enrollment and after each optional cash investment, deposit, sale or transfer. Payroll deductions, annuity deductions, direct debits and dividend reinvestments will not be individually confirmed, but rather will appear on the quarterly statements.

In addition, each participant will receive copies of the same communications sent to all other holders of shares of Common Stock, including the Corporation's quarterly reports and annual report to stockholders, a notice of the annual meeting and accompanying proxy statement and Internal Revenue Service information return, if so required, for reporting dividend income received.

All notices, statements and reports from the Administrator to a participant will be addressed to the participant at his latest address of record with the Administrator. Therefore, participants must promptly notify the Administrator of any change of address.

Certificates for Shares

Shares purchased and held under the Program will be held in safekeeping by the Administrator in its name or the name of its nominee. The number of shares (including fractional interests) held for each participant will be shown on each statement of account. Participants may obtain a new certificate for all or some of the whole shares of Common Stock held in their Program accounts upon written request to the Administrator. Any remaining whole or fractional shares will continue to be held by the Administrator. Withdrawal of shares in the form of a certificate in no way affects dividend reinvestment (see "Reinvestment of Cash Dividends" above).

Except as described above under "Gift/Transfer of Shares Within the Program", shares of stock held by the Administrator for a participant's Program account may not be pledged or assigned. A participant who wishes to pledge or assign any such shares must request that a certificate for such shares be issued in the participant's name.

Miscellaneous

Stock Split, Stock Dividend or Rights Offering

Any dividends in Common Stock or split shares distributed by the Corporation on shares held by the Administrator for a participant's Program account will be added to the participant's account. Stock dividends or split shares distributed on shares registered in a participant's name and held in certificated form will be mailed directly to the participant in the same manner as to shareholders who are not participating in the Program. If a participant has elected to receive cash dividends rather than reinvest them, the election will be adjusted proportionately in the event of a stock split.

In the event of a rights offering, the participant will receive rights based upon the total number of whole shares owned, that is, the total number of shares registered in the participant's name and the total number of whole shares held in the participant's Program account.

Voting of Program Shares

Whole shares held in a Program account may be voted in person or by the proxy sent to the participant. Fractions of shares will not be voted.

Limitation of Liability

Neither the Corporation nor the Administrator (nor any of their respective agents, representatives, employees, officers, directors, or subcontractors) will be liable in

administering the Program for any act done in good faith nor for any good faith omission to act, including, without limitation, any claim of liability arising from failure to terminate a participant's account upon such a participant's death or with respect to the prices or times at which shares are purchased or sold for participants.

Change or Termination of the Program

The Corporation may suspend, modify or terminate the Program at any time in whole, in part, or in respect of participants in one or more jurisdictions. Notice of such suspension, modification or termination will be sent to all affected participants. No such event will affect any shares then credited to a participant's account. Upon any whole or partial termination of the Program by the Corporation, certificates for whole shares credited to an affected participant's account under the Program will be issued to the participant and a cash payment will be made for any fraction of a share. Fractions of shares will be valued at the same effective price as whole shares sold for a participant with respect to the next relevant Investment Date as described under "Source and Price of Shares" above.

Termination of a Participant

If a participant does not own at least one whole share registered in the participant's name or held through the Program, the participant's participation in the Program may be terminated. Exxon may also terminate any participant's participation in the Program after written notice in advance mailed to such participant at the address appearing on the Administrator's records. Participants whose participation in the Program has been terminated will receive certificates for whole shares held in their accounts and a check for the cash value of any fractional share held in their Program accounts. Fractions of shares will be valued at the same effective price as whole shares sold for a participant with respect to the next relevant Investment Date as described under "Source and Price of Shares" above.

THE CORPORATION

Exxon Corporation, the issuer of the Common Stock offered hereby, was incorporated in the State of New Jersey in 1882. The Corporation's principal executive office is located at 225 E. John W. Carpenter Freeway, Irving, Texas 75062-2298, and its telephone number is (214) 444-1000.

Divisions and affiliated companies of the Corporation operate in the United States and 79 other countries. Their principal business is energy, involving exploration for and production of crude oil and natural gas, manufacturing of petroleum products, and transportation and sale of crude oil, natural gas and petroleum products. Exxon Chemical Company, a division of the Corporation, is a major manufacturer and marketer of petrochemicals. The Corporation and its affiliates are engaged in exploration for and mining and sale of coal and other minerals. The Corporation also

has an interest in electric power generation in Hong Kong. Affiliates of the Corporation conduct extensive research programs in support of these businesses.

TAX CONSEQUENCES

The Corporation believes the following is an accurate summary of the tax consequences of participation in the Program as of the date of this Prospectus. This summary may not reflect every possible situation that could result from participation in the Program, and, therefore, participants in the Program are advised to consult their own tax advisor with respect to the tax consequences (including federal, state, local and other tax laws and U.S. tax withholding laws) applicable to their particular situations.

In general, the amount of cash dividends paid by the Corporation is still includable in income even though reinvested under the Program. Under this general rule, the cost basis for federal income tax purposes of any shares acquired through the Program will be the price at which the shares are credited by the Administrator to the account of the participant as described in the section entitled "Source and Price of Shares". In connection with market purchases, brokerage commissions paid by the Corporation on a participant's behalf are to be treated as distributions subject to income tax in the same manner as dividends. The amounts paid for brokerage commissions are, however, includable in the cost bases of shares purchased. The information return sent to participants and the IRS at year-end, if so required, will show such amounts paid on their behalf.

The above rules may not be applicable to certain participants in the Program, such as tax-exempt entities (e.g., pension funds and IRAs) and foreign shareholders. These particular participants should consult their own tax advisors concerning the tax consequences applicable to their situations.

In the case of participants in the Program whose dividends are subject to U.S. backup withholding, the Administrator will reinvest dividends less the amount of tax required to be withheld.

In the case of foreign shareholders whose dividends are subject to U.S. federal tax withholding, the Administrator will reinvest dividends less the amount of tax required to be withheld. The filing of any documentation required to obtain a reduction in U.S. withholding tax will be the responsibility of the shareholder.

USE OF PROCEEDS

At present, it is expected that purchases of Common Stock under the Program will be made in the open market and that the Corporation will not receive any proceeds therefrom. Therefore, it is not expected that the Program will be dilutive to current shareholders. If purchases of Common Stock are made directly from the Corporation, the Corporation intends to use any net proceeds from the sales of such shares for general corporate purposes.

LEGAL MATTERS

Counsel who has passed upon legal matters concerning the Program and the validity of the shares of Common Stock offered hereby is James Earl Parsons, who is regularly employed as Counsel for the Corporation. Mr. Parsons owns and has options to purchase shares of Common Stock and is a participant in the Program.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers
 If you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

To sign up, call the number on your statement or visit your nearby banking center and an associate can help you.

Alerts can help you make smarter spending decisions

Online Banking customers can take advantage of a variety of Alerts that can help you stay informed of important activity in your accounts. You can be notified automatically via email or text message to your cell phone. Alerts can tell you if your balances are low, when direct deposits have been posted, or when a check you wrote has cleared. How To Balance Your Bank of America Account

FIRST, start with your Account Register/Checkbook:

- 1. List your Account Register/Checkbook Balance here
2. Subtract any service charges or other deductions not previously recorded that are listed on this statement
3. Add any credits not previously recorded that are listed on this statement (for example interest)
4. This is your NEW ACCOUNT REGISTER BALANCE

NOW, with your Account Statement:

- 1. List your Statement Ending Balance here
2. Add any deposits not shown on this statement
SUBTOTAL
3. List and total all outstanding checks, ATM, Check Card and other electronic withdrawals

Table with 3 columns: Checks, ATM, Check Card, Electronic Withdrawals. Each column has sub-columns for Date/Check # and Amount.

- 4. TOTAL OF OUTSTANDING CHECKS, ATM, Check Card and other electronic withdrawals
5. Subtract total outstanding checks, ATM, Check Card and other electronic withdrawals from Subtotal
This Balance should match your new Account Register Balance

Upon receipt of your statement, differences, if any, should be reported to the bank promptly in writing and in accordance with provisions in your deposit agreement.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time.

Electronic Transfers: In case of errors or questions about your electronic transfers. If you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can.

- * Tell us your name and account number.
* Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
* Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers
If you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers

If you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers If you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers if you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers if you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers
If you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers
If you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers
 If you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of Address. Please call us at the telephone number listed on the front of this statement to tell us about a change of address.

Deposit Agreement. When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule, which contain the current version of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers: In case of errors or questions about your electronic transfers
If you think your statement or receipt is wrong or if you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- * Tell us your name and account number.
- * Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- * Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

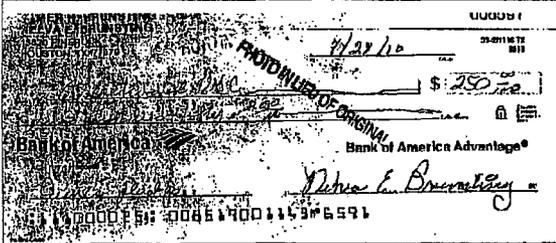

Reporting Other Problems. You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or unauthorized transactions within the time periods specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you for, and you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us at the telephone number listed on the front of this statement to find out if the deposit was made as scheduled.

Variable, Reliable and Rising Income: Which Type Is Right for You?

With all the recent turmoil of the world political scene and the market here at home, it's easy to become overwhelmed with the present and lose sight of developing your long-term investment strategy.

When planning, you should always consider your investment needs, but it's also important to understand that all income is not created equally.

There are three basic types of income:

1. Variable income investments provide less predictable income because that income can change.
2. Reliable income investments offer a more stable income stream over time.
3. Rising income investments offer the potential for rising income and can help combat inflation risks.

Which type of income is right for you?

To build a comprehensive income strategy, all three types of income potentially play an important role in your investment portfolio. Each type has benefits and trade-offs, but when used together, they can help you better achieve your income needs.

Your situation, including your income needs and risk preferences, will determine what balance of variable, reliable and rising income investments is most appropriate for you.

How much of each type do you need?

We believe that variable, reliable and rising income all have places in a well-diversified investment portfolio. However, it's important to maintain an appropriate balance for your particular situation. Too much in one or not enough in another could expose you to risks and ultimately prevent you from reaching your long-term financial goals.

That's why we recommend working with your financial advisor to determine how to best fulfill your income needs for today.

Focus on fixed-income principles, not predictions.

While some expected inflation to push interest rates higher and bond prices lower in 2011, fixed-income investment returns generally did quite well. This serves as a reminder that trying to make predictions typically proves to be less valuable than focusing on principles. Regardless of any challenges we may face in 2012, we believe investors who abide by the principles of owning quality investments, diversifying and maintaining a long-term perspective should be able to weather the storm. Contact your financial advisor for attractive fixed-income opportunities.

All-terrain Investing: Preparing for Varying Road Conditions

Long-term investors encounter a wide variety of market conditions. They can be almost as varied as the terrain. Sometimes it's smooth and easy to navigate, and other times, the investment landscape is rocky and hilly, slowing your progress. In general, we're optimistic about the future, but there will be bumps along the way. Although you can't avoid them, you can work to smooth out the ride by owning a mix of investments that tend to do well in different market environments.

During the past several years, the market's path has been filled with major peaks and valleys, which have been the direct result of what is called "risk-on, risk-off" behavior. When economic news is positive, investors are optimistic and more willing to take on risk with investments that depend more on the economy for growth - and therefore fluctuate more. When the headlines turn negative, investors tend to become more risk-averse, or "risk-off." Rather than moving between "risk-on" and "risk-off" buying, consider a variety of companies that may provide opportunities in both types of markets.

Get in Gear

In our view, now is not the time to "park" your investment strategy. Given the uncertainty about European debt, U.S. budget deficits and the election, we expect market volatility to continue in the shorter term. In our view, the best way to prepare is to maintain a well-balanced portfolio with adequate holdings in quality investments. We believe equities offer an attractive opportunity and recommend the equity portion of your portfolio be well-balanced across sectors, with quality holdings that can benefit as the market landscape shifts.

Is Your Portfolio Prepared?

We think the current environment offers good opportunities for investors, but the challenges of the "risk-on, risk-off" pattern underscore the importance of being prepared. Make sure your portfolio contains quality investments and is diversified across sectors that perform well in varying environments. When appropriate, rebalance to take advantage of market movements. And remember, even when current events temporarily impact the market, keep focusing on your long-term financial goals, such as retirement and paying for education. Regardless of the landscape, your long-term financial goals should serve as your constant horizon.

For more information, ask your financial advisor for our full report on this topic.

Investing in stocks involves risk. Your investment return and principal value will fluctuate, and you may lose money. Past performance does not guarantee future results. Diversification does not guarantee a profit or protect against a loss.

Are you taking advantage of asset allocation?

The Value of Asset Allocation

Asset Allocation refers to the way you spread your investments among various investment categories. Proper asset allocation can help you better work toward your long-term financial goals. Edward Jones has developed suggested allocations for various Portfolio Objectives based on investors' circumstances.

This graph compares your Edward Jones investment and retirement account(s) investments to your Portfolio Objective. Through a comprehensive portfolio review, your financial advisor can help you assess your financial goals, select an appropriate Portfolio Objective and identify the specific investments that should be included in your portfolio based on your specific situation. In addition, adjustments to your asset allocation will be influenced by your unique circumstances, including risk tolerance, time horizon, tax considerations and future investment or distribution needs.

Some investments may be allocated to more than one investment category based upon estimates by Edward Jones or objectives outlined within the fund's prospectus. Actual allocations change over time and can differ significantly.

(This graph includes all the assets in accounts listed under "A Unique Understanding of Your Financial Needs" on page 1 of this statement.)

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

Please refer to the important information and disclosures on the last page of this package.

Your Estimated Interest and Dividends

The following is an estimate of the interest and dividends you can expect to earn on your investments in the next 12 months but it is only an estimate and cannot be guaranteed by Edward Jones or the issuers of the securities. The estimate is known as the Estimated Annual Income or EAI. It is based on past interest and dividend payments made by the securities held in your account. It is also based on statements made by the issuers of those securities. The estimates project possible future interest and dividend payments based on the number of bonds or shares held in your account at the time the estimate was done. Your actual investment income may be higher or lower than the estimated amounts. Estimates for certain types of securities that have a return of principal or capital gain may be overstated. Income being reinvested is indicated with '*'. Income cannot be estimated for the securities indicated by '**'. It cannot be estimated because the annual payment amount or frequency is not available at this time.

Estimated Yield

The Estimated Yield (EY) in the preceding sections(s) compares the anticipated earnings on your investments in the coming year to the current price of the investments. It is based on past interest and dividend payments made by the securities held in your account. Changes in the price of a security over time or in the amount of the investment held in your account will cause the EY to vary. The EY is only an estimate and cannot be guaranteed by Edward Jones or the issuers of the securities. Your actual yield may be higher or lower than the estimated amounts. Estimates for any securities that have a return of principal or capital gain may be overstated. Income cannot be estimated for any securities that do not have an annual payment amount or frequency available at this time.

Will your family or the government receive your assets?

The beginning of a new year is a good time to review your estate plan and update it, if necessary. Estate planning can be complex, so you will need to work with your tax, legal and financial advisors to make arrangements that are appropriate for your needs and may potentially reduce your estate taxes.

Call today to schedule time to talk to your financial advisor about your needs.

Outlook for 2011: Not a Perfect World, but Plenty of Opportunity

Many investors start the new year by pouring over economic forecasts, searching for clues that might predict short-term market performance. While we think it's important to assess today's situation and identify probable short-term trends, those aren't likely to be the key determinants of long-term investment success.

Instead, we believe investors should prepare for good and bad times by reviewing the quality of their investments and their diversification, and then rebalancing to keep their investment mix aligned with their risk tolerance and long-term goals. We want to share with you a few questions we asked our investment strategist, Kate Warne, about the new year:

Q: What's the outlook for the economy in 2011?

A: In our view, the economy should continue on a slowly improving path in 2011, although high unemployment and weak housing are likely to remain headwinds. Overall growth in 2010 was above 2.5%, but it may have felt much slower.* These areas of weakness may have hidden three key positive trends that appear likely to stay in place in 2011:

- The effects of the 2008 financial crisis should fade as time passes, but progress is slow.
- Company profits are strong and expected to continue to grow.
- Consumers are spending more but saving more too, which is positive for today's growth.

If the economy grows more quickly than currently expected, stocks typically perform well. If it continues at a slow pace, we would expect low interest rates to continue longer.

Q: What do you see as a common risk for investors?

A: Some investors have not recovered emotionally from the 2008 financial crisis, even though their investments may have made a significant recovery. While inaction may appear "easier" than action, investors may risk missing some of the best days in the market by sitting on the sidelines.

Q: What are some of the better opportunities, in your opinion?

A: In our view, opportunities lie in dividend-paying stocks (domestic and foreign). They've historically outperformed non-dividend-paying stocks, and many are attractively priced compared to their earnings. Quality companies are expected to continue to report solid earnings growth based on modest revenue increases combined with lower operating costs achieved during the downturn.

Build an all-weather fixed income portfolio.

With today's low short-term interest rates, many people bought only long-term bonds, which offer higher rates. But if interest rates rise, investors with too many long-term bonds won't be able to take advantage of the higher rates, and the market value of their current bonds will decline. While we can't predict interest rate changes, we do recommend bond laddering: buying a mix of short-, intermediate and long-term bonds, which can provide advantages in all interest-rate environments. Contact your financial advisor for details.

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

The Estimated Yield (EY) in the preceding sections(s) compares the anticipated earnings on your investments in the coming year to the current price of the investments. It is based on past interest and dividend payments made by the securities held in your account. Changes in the price of a security over time or in the amount of the investment held in your account will cause the EY to vary. The EY is only an estimate and cannot be guaranteed by Edward Jones or the issuers of the securities. Your actual yield may be higher or lower than the estimated amounts. Estimates for any securities that have a return of principal or capital gain may be overstated. Edward Jones Receives Two Honors

We at Edward Jones are pleased to have received two recent honors, and we wanted to share them with our clients.

First, the Edward Jones client statement ranked No. 2 in the 12th annual "Trends and Best Practices in Investor Communications" report by the Dalbar research agency. The report evaluates how well the statements of 17 leading investment firms meet investors' needs. With an overall score of 87.58 compared with the industry average of 74.41, Edward Jones' statements earned the top designation of "Excellent." This is the firm's sixth consecutive year of placing in the survey's top five.

This ranking is a valuable honor for us, because we devote a great deal of effort toward keeping our clients informed about their investments in a way that is clear and easy to understand. We are delighted with this recognition and are committed to continually seeking the best ways to provide understandable and useful statements.

Second, Edward Jones ranked No. 2 on FORTUNE magazine's "100 Best Companies to Work For" list for 2010. This is our second consecutive No. 2 ranking and our 11th appearance on the annual list. We also ranked No. 1 for large companies. We find this ranking especially gratifying because it is based on surveys of our own associates.

We are honored by these recognitions but view them as side benefits of the work we do to achieve our highest honor: a satisfied client. Thank you for your continued confidence in Edward Jones.

Are you taking advantage of asset allocation?

The Value of Asset Allocation

Asset Allocation refers to the way you spread your investments among various investment categories. Proper asset allocation can help you better work toward your long-term financial goals. Edward Jones has developed suggested allocations for various Portfolio Objectives based on investors' circumstances.

This graph compares your Edward Jones investment and retirement account(s) investments to your Portfolio Objective. Through a comprehensive portfolio review, your financial advisor can help you assess your financial goals, select an appropriate Portfolio Objective and identify the specific investments that should be included in your portfolio based on your specific situation. In addition, adjustments to your asset allocation will be influenced by your unique circumstances, including risk tolerance, time horizon, tax considerations and future investment or distribution needs.

Some investments may be allocated to more than one investment category based upon estimates by Edward Jones or objectives outlined within the fund's prospectus. Actual allocations change over time and can differ significantly.

(This graph includes all the assets in accounts listed under "A Unique Understanding of Your Financial Needs" on page 1 of this statement.)

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

Your Estimated Interest and Dividends

The following is an estimate of the interest and dividends you can expect to earn on your investments in the next 12 months but it is only an estimate and cannot be guaranteed by Edward Jones or the issuers of the securities. The estimate is known as the Estimated Annual Income or EAI. It is based on past interest and dividend payments made by the securities held in your account. It is also based on statements made by the issuers of those securities. The estimates project possible future interest and dividend payments based on the number of bonds or shares held in your account at the time the estimate was done. Your actual investment income may be higher or lower than the estimated amounts. Estimates for certain types of securities that have a return of principal or capital gain may be overstated. Income being reinvested is indicated with '*'. Income cannot be estimated for the securities indicated by '**'. It cannot be estimated because the annual payment amount or frequency is not available at this time.

Estimated Yield

The Estimated Yield (EY) in the preceding sections(s) compares the anticipated earnings on your investments in the coming year to the current price of the investments. It is based on past interest and dividend payments made by the securities held in your account. Changes in the price of a security over time or in the amount of the investment held in your account will cause the EY to vary. The EY is only an estimate and cannot be guaranteed by Edward Jones or the issuers of the securities. Your actual yield may be higher or lower than the estimated amounts. Estimates for any securities that have a return of principal or capital gain may be overstated. Income cannot be estimated for any securities that do not have an annual payment amount or frequency available at this time.

Are you taking advantage of asset allocation?

The Value of Asset Allocation

Asset Allocation refers to the way you spread your investments among various investment categories. Proper asset allocation can help you better work toward your long-term financial goals. Edward Jones has developed suggested allocations for various Portfolio Objectives based on investors' circumstances.

This graph compares your Edward Jones investment and retirement account(s) investments to your Portfolio Objective. Through a comprehensive portfolio review, your financial advisor can help you assess your financial goals, select an appropriate Portfolio Objective and identify the specific investments that should be included in your portfolio based on your specific situation. In addition, adjustments to your asset allocation will be influenced by your unique circumstances, including risk tolerance, time horizon, tax considerations and future investment or distribution needs.

Some investments may be allocated to more than one investment category based upon estimates by Edward Jones or objectives outlined within the fund's prospectus. Actual allocations change over time and can differ significantly.

(This graph includes all the assets in accounts listed under "A Unique Understanding of Your Financial Needs" on page 1 of this statement.)

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

Financial Statement - The firm's financial statement is available at your branch office, or a copy will be mailed upon written request.

Rights to your Free Credit Balance - We are permitted to use your free credit balances to conduct our business, subject to the limitations of 17C.F.R.240 15c3-3 under the Securities Exchange Act of 1934. You have the right to receive, during normal business operations, delivery of your free credit balances; any securities to which you are entitled and which have been fully paid; and upon full payment of any debt to us, any securities purchased on margin. You may receive interest on free credit balances, provided the funds in your account are awaiting reinvestment. If you currently maintain free credit balances in your account solely for the purpose of receiving credit interest and don't plan to invest the funds in the future, we reserve the right to stop paying interest on those balances or to take any additional necessary action with respect to those balances. Contact your financial advisor to discuss your options.

Insufficient withholding may subject you to estimated income-tax payments to avoid penalties.

Required Minimum Distributions (RMDs) - RMDs from other IRAs must be calculated separately, but the total amount may be removed from one or more of your IRAs. RMDs from qualified plans must be calculated and removed separately from each plan and cannot be part of your IRA RMD. Don't Predict - Prepare

What's next for the economy and financial markets? Rather than trying to predict the future, we believe one of the best ways to survive a crisis is to have a well-thought-out strategy and stick to it. It's also important to have realistic expectations, because market corrections are unpredictable and can happen at any time. For more advice on developing your personal financial strategy, visit www.edwardjones.com and look for the latest "Edward Jones Perspective" video.

A change in IRA regulations could be beneficial for you.

Unlike a traditional IRA, a Roth IRA offers the potential for tax-free income in retirement. Currently, individuals within certain income limits can convert traditional IRA assets to Roth IRAs, and beginning in 2010, the income limit will be eliminated. Could a Roth IRA conversion be appropriate for you? Now is the time to schedule an appointment with your financial advisor to help answer that question. (Edward Jones does not provide tax advice. You should consult with a tax specialist regarding your situation.)

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

Know what to expect next tax season.

January may seem far off, but with some IRS changes on the horizon, it's not too early to be prepared. The IRS changed its deadline for mailing Consolidated 1099 Tax Statements from Jan. 31 to Feb. 15. While we will work to issue 1099s as early as possible, we expect the issuers of some investments to provide final tax data to us later than they have in the past. This means you may not receive your 1099 until February.

September 2009

8 Reasons Why (We Believe) the Recession Is Over

Signs of economic recovery are everywhere, but is the recession over? We believe so, and here's why:

- 1. Leading economic indicators are positive.** By August, the stock market, as measured by the S&P 500, had risen 50% from its March lows. In addition, The Conference Board's Index of Leading Economic Indicators, designed to anticipate changes in the economy three to six months in advance, rose 0.6% in August, its fifth consecutive monthly gain.
- 2. Global economies are recovering.** The Organisation for Economic Co-operation and Development's (OECD) composite leading indicators for its 33 member countries recorded the largest increase since records began in 1962. (Located in Paris, the OECD spells "organisation" as shown.)
- 3. The job market is improving.** In August, non-farm payrolls fell by 216,000, the smallest decline in a year. This rate has been improving since January, when payrolls declined by 741,000. The unemployment rate rose to 9.7% in August but has historically been a lagging indicator, having improved at the end of or well after every recession in the postwar period.
- 4. The Federal Reserve's efforts to stabilize the financial system worked.** Its moves to slash interest rates and pump trillions into the financial system restored the money and corporate credit markets. Corporate America has taken advantage of attractive rates, issuing more than \$800 billion in new bonds during the first seven months of 2009.
- 5. Bank lending is increasing.** Banks' profitability and capitalization have improved, and they have started lending again. According to the Fed's recent periodic survey of banks, the percentage of banks tightening their lending standards has dropped across all types of loans. While standards are expected to remain tight compared to historical standards, the improvement that has occurred should be enough to support economic recovery.
- 6. Expectations for 2010 economic growth continue to improve.** Numerous surveys and forecasts indicate a more promising outlook, including a recent Wall Street Journal survey in which 80% of economists said they believed the recession either had already ended or would end by September.
- 7. The housing bust appears to have bottomed out.** Sales of existing U.S. homes jumped 7.2% in July. This equates to an annual rate of 5.24 million homes, the highest level in almost two years.
- 8. Manufacturing is on the rebound.** The Fed said industrial production rose 0.8% in August compared to July. This was the largest back-to-back gain since 2005 and followed nine consecutive monthly declines. European industrial orders increased 2.6% in July compared to June, the second consecutive increase, according to the European Union's statistics office.

Are you positioned to take part in a recovery? It looks as though the economy is improving, but that doesn't mean you should throw caution to the wind. Instead, sit down with your financial advisor and talk about ways to take advantage of the improving climate while still managing risk. And remember, you can't recover if you're not invested.

Make sure we have cost basis when you sell securities.

If you have sold or are planning to sell securities this year, make sure we have complete cost basis information. Generally, cost basis is your purchase price including commissions and other expenses, and it's used to calculate your capital gains and losses for tax purposes. If we have this information, we can include it in your Consolidated 1099 Tax Statement, simplifying tax season for you and your tax professional. Contact your financial advisor to make sure your cost basis information is complete.

Are you taking advantage of asset allocation?

The Value of Asset Allocation

Asset Allocation refers to the way you spread your investments among various investment categories. Proper asset allocation can help you better work toward your long-term financial goals. Edward Jones has developed suggested allocations for various Portfolio Objectives based on investors' circumstances.

This graph compares your Edward Jones investment and retirement account(s) investments to your Portfolio Objective. Through a comprehensive portfolio review, your financial advisor can help you assess your financial goals, select an appropriate Portfolio Objective and identify the specific investments that should be included in your portfolio based on your specific situation. In addition, adjustments to your asset allocation will be influenced by your unique circumstances, including risk tolerance, time horizon, tax considerations and future investment or distribution needs.

Some investments may be allocated to more than one investment category based upon estimates by Edward Jones or objectives outlined within the fund's prospectus. Actual allocations change over time and can differ significantly.

(This graph includes all the assets in accounts listed under "A Unique Understanding of Your Financial Needs" on page 1 of this statement.)

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

Financial Statement - The firm's financial statement is available at your branch office, or a copy will be mailed upon written request.

Rights to your Free Credit Balance - We are permitted to use your free credit balances to conduct our business, subject to the limitations of 17C.F.R.240 15c3-3 under the Securities Exchange Act of 1934. You have the right to receive, during normal business operations, delivery of your free credit balances; any securities to which you are entitled and which have been fully paid; and upon full payment of any debt to us, any securities purchased on margin. You may receive interest on free credit balances, provided the funds in your account are awaiting reinvestment. If you currently maintain free credit balances in your account solely for the purpose of receiving credit interest and don't plan to invest the funds in the future, we reserve the right to stop paying interest on those balances or to take any additional necessary action with respect to those balances. TERMINOLOGY

Total Estimated Value - The approximate value of the assets held at Edward Jones and outside companies at the statement date shown or date specified in the detail of Your Assets.

It is estimated as the prices used to value your securities are provided by an outside service and do not always represent exact market prices. Edward Jones can't guarantee the accuracy of such values; if you need the exact price, contact your financial advisor. Values for many fixed-income securities are estimates based on coupon rate and credit rating and may not represent actual transaction price. Values don't include accrued interest or dividends and for some investments don't reflect applicable charges and fees.

Your Assets Held Outside Edward Jones - Balances are provided for your information only to give an overall view of your investments with Edward Jones. SIPC coverage isn't extended to assets held outside the custody of Edward Jones. Refer to the statement received directly from these companies for details.

Some, but not all, of Partially Qualified (P) dividends are taxed at reduced rates.

Amount withdrawn shows how much of your investment has been sold, redeemed or transferred. These figures should not be used for tax reporting or tax preparation.

Five Bear Market Lessons

While each bear market has its own unique characteristics, the lessons we learn and the principles we develop from them have not changed. These principles form the foundation of our firm's investment advice. This might be an appropriate time to reflect on some of the most important lessons we can learn from experiencing one of history's worst bear markets.

1. The best time to prepare for a bear market is before it strikes.

You can't predict bear markets, but you can prepare by owning quality investments and maintaining an appropriate level of diversification.* Stock market declines are normal, frequent and usually short - and historically they have been followed by bull markets. A good rule of thumb is, don't own investments today that you wouldn't want to own in a bear market tomorrow.

2. History usually repeats, but it doesn't always rhyme.

We often use historical examples to illustrate a point, but some bear markets aren't average - they're worse. The 10-year period ending Dec. 31, 2008, was the worst 10-year period for the stock market since 1926. But long stretches of poor performance are often followed by prolonged periods of good performance. Past performance is not an indication of future results, but history gives us reasons to be optimistic.

3. Investing isn't as simple as buying when you feel good and selling when you feel bad.

Many investors overestimate their tolerance for risk when the market is rising. They invest too much of their portfolio in stocks, then want to sell after the market falls. The ideal mix of investments is the one that can help you reach your long-term goals and that you can stick with in good times and bad.

4. Base your investment decisions on principles, not predictions.

We believe the three most important principles are quality, proper diversification and a long-term perspective. Diversification can help reduce risk when the market and/or economy don't perform as you expected. Most investors may need 25 stocks and 10 or more bonds to appropriately diversify if individual securities are the core of a portfolio. If you can't purchase that many securities, talk to your financial advisor about other ways to properly diversify.

5. The best way to survive a crisis is to have a strategy and stick to it.

It's important to develop a strategy now. Doing so can help you stay on track through all market conditions. Schedule some time with your financial advisor to discuss your investment strategy and how you can better prepare your portfolio for whatever the market and economy may bring.

*Diversification doesn't guarantee a profit or protect against loss.

TERMINOLOGY

Total Estimated Value - The approximate value of the assets held at Edward Jones and outside companies at the statement date shown or date specified in the detail of Your Assets.

It is estimated as the prices used to value your securities are provided by an outside service and do not always represent exact market prices. Edward Jones can't guarantee the accuracy of such values; if you need the exact price, contact your financial advisor. Values for many fixed-income securities are estimates based on coupon rate and credit rating and may not represent actual transaction price. Values don't include accrued interest or dividends and for some investments don't reflect applicable charges and fees.

Your Assets Held Outside Edward Jones - Balances are provided for your information only to give an overall view of your investments with Edward Jones. SIPC coverage isn't extended to assets held outside the custody of Edward Jones. Refer to the statement received directly from these companies for details.

Tax Information for Income Distributions - Your year-end tax documents (eg. Form 1099) will provide specific classifications of your income distributions. The 2003 tax law allows Qualified (Q) dividends to be taxed at reduced rates: 15%, or 5% for individuals whose tax rates are 15% or less. Nonqualified (N) dividends are taxed at ordinary rates. Some, but not all, of Partially Qualified (P) dividends are taxed at reduced rates.

Cost Basis - The amount paid for a security, including commissions, reinvestments and original issue discount (OID) and adjustments for sales, principal returns, splits and spin offs. Some data may be unsubstantiated and should not be relied upon for tax preparation.

Amount Invested/Withdrawn - Amount invested reflects all purchases and other additions to your holdings, with the exception of dividend reinvestments. Amount withdrawn shows how much of your investment has been sold, redeemed or transferred. These figures should not be used for tax reporting or tax preparation.

Ratings and Recommendations - Edward Jones research opinions, Standard & Poor's, Moody's, and Fitch's ratings may be shown for certain securities. Ratings or recommendations should not be considered an indication of future performance.

Account Activity - Entries appearing in Account Activity sections under columns headed "Where Invested" or "Sources of Funds" are additions to or subtractions from your account. For clients who maintain a money market account, entries indicating "Tax-Free Money Market" mean Edward Jones Tax-Free Money Market Fund and entries indicating "Money Market" mean Edward Jones Money Market Investment Shares or Retirement Shares depending on the share class owned. Activity dates appearing under "Sources of Funds" correspond to the sale date of the designated Edward Jones Money Market Fund. Entries appearing under "Where Invested" will be transacted as a purchase of the previously designated Edward Jones Money Market Fund on the second business day after the date shown, with the following exceptions which will be transacted on the date indicated:

Demystifying the Deficit

Many Americans believe the long-term outlook for our federal budget deficit and our national debt is disturbing. We agree this is a big challenge for our country, but there is still time to address it. Our bottom line is this: Don't abandon your investment strategy over concerns about the deficit. Instead, take steps to manage the risks in your portfolio as the deficit debate drags on. See www.edwardjones.com/deficitmessage for information about steps you can take, and contact your financial advisor for a review of your situation.

REGULATORY DISCLOSURES

Financial Statement - The firm's financial statement is available at your branch office, or a copy will be mailed upon written request.

Rights to your Free Credit Balance - We are permitted to use your free credit balances to conduct our business, subject to the limitations of 17C.F.R.240 15c3-3 under the Securities Exchange Act of 1934. You have the right to receive, during normal business operations, delivery of your free credit balances; any securities to which you are entitled and which have been fully paid; and upon full payment of any debt to us, any securities purchased on margin. You may receive interest on free credit balances, provided the funds in your account are awaiting reinvestment. If you currently maintain free credit balances in your account solely for the purpose of receiving credit interest and don't plan to invest the funds in the future, we reserve the right to stop paying interest on those balances or to take any additional necessary action with respect to those balances. Insufficient withholding may subject you to estimated income-tax payments to avoid penalties.

10 Inflation Principles

Over the past 30 years, inflation has been one of the most feared and least understood variables in the investment outlook. Understanding inflation and its causes is essential to making better investment decisions. To that end, we offer the following perennial inflation principles.

1. Inflation has been a fact of life in the U.S. economy for most of the past 200 years. It always has been and always should be an important consideration in your investment policy.
2. Stock and stock mutual funds have been a better hedge against inflation than bonds over the long term. Their potential for rising income can be an important offset to rising prices.
3. Focusing on quality and diversification for your stocks and bonds is better than "chasing" various inflation hedges. Balance your stock portfolio among various industries and include bonds with short-, intermediate- and long-term maturities.
4. Certain inflation hedges, such as commodities and real estate funds, can improve diversification, but they are extremely volatile and should be owned only in modest amounts.
5. A steady, predictable inflation rate of around 2% to 3% is characteristic of a healthy economy.
6. Disinflation (falling inflation) has been a characteristic of our economy since 1981. This contributed to unusually high returns on stocks and bonds and is unlikely to be repeated in the near future.
7. Price stability is key to an economic recovery. The Federal Reserve's actions over the long term suggest a major commitment to maintaining price stability.
8. In addition to the efforts of the world's central bankers, three other factors have helped keep a lid on inflation: labor costs, technological innovation and intense global competition.
9. Deficits alone are not a cause of inflation. While the government has had to act to stem the current financial crisis, it is committed to avoiding further deficit increases.
10. Most investors should consider creating an income stream that maintains a desired standard of living after taking inflation into account.

Is your investment strategy aligned with these principles? For more in-depth information and a review of your personal situation, call or visit your financial advisor today.

A Lasting Gift

This year, why not give a gift that will last - a contribution to a 529 plan. You can gift up to \$13,000 this year per beneficiary and receive tax benefits. As you look at your priorities toward the end of the year, think about how impactful a gift for a child's future education could be. This could be especially meaningful considering the rising cost of college. Call your financial advisor today to discuss gifting to a college savings plan.

The Importance of Updating Your Estate Plan

There's never a bad time to update your estate plan. But given the upcoming changes to estate tax laws, updating your plan is more important than ever.

As the law now stands, there is no federal estate tax in 2010. In 2011, the estate tax is scheduled to return, with an exemption amount of \$1 million and a top rate of 55%.

Remember, your estate taxes depend on the size of your estate. But no matter the value of your assets, you'll want to have your estate plan in order.

First, you'll need a will. You'll also want to make sure you've named the proper beneficiaries in all your legal documents.

Next, work with your tax and legal professionals and Edward Jones financial advisor to review your financial strategy. During this review, look for options to potentially reduce your estate taxes, which may include the following:

- **Taking Advantage of Your Exemptions** - You and your spouse each receive an exemption from the federal estate tax. To help maximize these exemptions, consider creating a credit shelter trust for your surviving spouse and beneficiaries.
- **Using Life Insurance** - Consider creating an irrevocable life insurance trust (ILIT) with a new insurance policy to help keep the life insurance proceeds out of your taxable estate.
- **Giving Generously** - To help reduce your estate, you can give up to \$13,000 per year to as many individuals as you want without incurring gift taxes. You can also make gifts to charitable organizations.

Keep in mind that estate planning can be complex. It's essential you work with your legal and tax professionals, as well as your Edward Jones financial advisor, before establishing any type of trust or other estate-planning strategy. And with the looming return of the estate tax, there's no time like the present to get started.

Call your financial advisor to schedule time to discuss your estate plan.

Edward Jones, its employees and financial advisors are not estate planners and cannot provide tax or legal advice. Consult a qualified tax professional or attorney for advice about your situation.

Estimated Yield

The Estimated Yield (EY) in the preceding sections(s) compares the anticipated earnings on your investments in the coming year to the current price of the investments. It is based on past interest and dividend payments made by the securities held in your account. Changes in the price of a security over time or in the amount of the investment held in your account will cause the EY to vary. The EY is only an estimate and cannot be guaranteed by Edward Jones or the issuers of the securities. Your actual yield may be higher or lower than the estimated amounts. Estimates for any securities that have a return of principal or capital gain may be overstated. Income cannot be estimated for any securities that do not have an annual payment amount or frequency available at this time.

How to Request a Transaction (refer to the prospectus/brochure for additional details on the terms and conditions of transactions under the plan or DRS sales facility)

You can manage your account online through Investor Centre at the website listed on the top right of the reverse side. Register today!

The IRS requires that we report the cost basis of certain shares acquired after January 1, 2011. If your shares were covered by the legislation and you have sold or transferred the shares and requested a specific cost basis calculation method, we have processed as requested. If you did not specify a cost basis calculation method, we have defaulted to the first in, first out (FIFO) method. Please visit our website or consult your tax advisor if you need additional information about cost basis.

1A. Use section 1A above to sell a portion of your plan shares, or to sell all plan shares and terminate your plan participation. Sale requests submitted on this Transaction Request Form will be treated as a batch order and generally processed no later than five business days after the date on which the form is received. A Market Order sale may be available for transactions submitted by telephone or through Investor Centre at www.computershare.com. Please contact us at the phone number listed on the reverse side or refer to the brochure for the plan or DRS Sales Facility for more information concerning the types of orders available. Note: market orders and batch orders are subject to different fees. Please visit the website or contact us at the phone number listed on the reverse side for fee details. A proceeds check will be mailed to you, less any applicable taxes and fees. You can request electronic funds transfer for your sales proceeds by updating your bank details online through Investor Centre at the website listed on the reverse side. Upon written request, we will provide the name of the executing broker dealer associated with the transaction, and within a reasonable amount of time will disclose the source and amount of compensation received from third parties in connection with the transaction, if any.

ALL SALE INSTRUCTIONS ARE FINAL AND CANNOT BE MODIFIED, STOPPED OR CANCELLED AFTER COMPUTERSHARE HAS RECEIVED THE REQUEST.

To have the proceeds paid to someone other than the current registered holder, the shares must first be transferred to the other party. Transfer instructions are available through the "Frequently Asked Questions" section of Investor Centre or by contacting us at the phone number listed on the reverse side.

1B. Use section 1B above to withdraw a portion or all of your shares from the plan. These shares will become Direct Registration System (DRS) shares and will be held electronically in your account in book-entry form by Computershare. We will mail you a check for the value of any fractional shares (if applicable). If your request is received near a record date, Computershare has the right to reinvest the dividend or pay you in cash. Future dividends for these shares will be paid in cash, unless you rejoin the plan.

1C. Use section 1C above to minimize risk of loss, theft or damage by depositing certificates. Computershare will deposit these shares into your plan account and hold them electronically in book-entry form. Send physical stock certificate(s) via registered mail or a courier service that provides a return receipt to: Computershare, 250 Royall Street, Canton, MA, 02021. Do not endorse the certificate(s) or complete the assignment section. You may want to insure the mailing for 3% of the stock's market value, which is the approximate cost to replace a certificate in the event that it is lost in transit.

1D. All registered holders must sign section 1D for the above instruction(s) to be completed. *Sales requests for partnerships or corporations must include a Medallion Signature Guarantee or a copy of the corporate resolution/partnership agreement. A Medallion Signature Guarantee is a special stamp provided by a bank, broker or credit union (guarantor institutions) that indicates the individual(s) signing a form is legally authorized to conduct the requested transaction. A notarized signature is not a substitute for a Medallion Signature Guarantee.

2. Use section 2 below to make an optional investment through the plan. Detach the completed form and mail it, along with a check payable to Computershare, in the enclosed envelope. Please note the purchase limitations identified on the bottom left of the form.

If you do not keep in contact with us or do not have any activity in your account for the time periods specified by state law, your property could become subject to state unclaimed property laws and transferred to the appropriate state.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

How to Request a Transaction (refer to the prospectus/brochure for additional details on the terms and conditions of transactions under the plan or DRS sales facility)

You can manage your account online through Investor Centre at the website listed on the top right of the reverse side. Register today!

The IRS requires that we report the cost basis of certain shares acquired after January 1, 2011. If your shares were covered by the legislation and you have sold or transferred the shares and requested a specific cost basis calculation method, we have processed as requested. If you did not specify a cost basis calculation method, we have defaulted to the first in, first out (FIFO) method. Please visit our website or consult your tax advisor if you need additional information about cost basis.

1A. Use section 1A above to sell a portion of your plan shares, or to sell all plan shares and terminate your plan participation. Sale requests submitted on this *Transaction Request Form* will be treated as a batch order and generally processed no later than five business days after the date on which the form is received. A Market Order sale may be available for transactions submitted by telephone or through Investor Centre at www.computershare.com. Please contact us at the phone number listed on the reverse side or refer to the brochure for the plan or DRS Sales Facility for more information concerning the types of orders available. Note: market orders and batch orders are subject to different fees. Please visit the website or contact us at the phone number listed on the reverse side for fee details. A proceeds check will be mailed to you, less any applicable taxes and fees. You can request electronic funds transfer for your sales proceeds by updating your bank details online through Investor Centre at the website listed on the reverse side. Upon written request, we will provide the name of the executing broker dealer associated with the transaction, and within a reasonable amount of time will disclose the source and amount of compensation received from third parties in connection with the transaction, if any.

ALL SALE INSTRUCTIONS ARE FINAL AND CANNOT BE MODIFIED, STOPPED OR CANCELLED AFTER COMPUTERSHARE HAS RECEIVED THE REQUEST.

To have the proceeds paid to someone other than the current registered holder, the shares must first be transferred to the other party. Transfer instructions are available through the "Frequently Asked Questions" section of Investor Centre or by contacting us at the phone number listed on the reverse side.

1B. Use section 1B above to withdraw a portion or all of your shares from the plan. These shares will become Direct Registration System (DRS) shares and will be held electronically in your account in book-entry form by Computershare. We will mail you a check for the value of any fractional shares (if applicable). If your request is received near a record date, Computershare has the right to reinvest the dividend or pay you in cash. Future dividends for these shares will be paid in cash, unless you rejoin the plan.

1C. Use section 1C above to minimize risk of loss, theft or damage by depositing certificates. Computershare will deposit these shares into your plan account and hold them electronically in book-entry form. Send physical stock certificate(s) via registered mail or a courier service that provides a return receipt to: Computershare, 250 Royal Street, Canton, MA, 02021. Do not endorse the certificate(s) or complete the assignment section. You may want to insure the mailing for 3% of the stock's market value, which is the approximate cost to replace a certificate in the event that it is lost in transit.

1D. All registered holders must sign section 1D for the above instruction(s) to be completed. *Sales requests for partnerships or corporations must include a Medallion Signature Guarantee or a copy of the corporate resolution/partnership agreement. A Medallion Signature Guarantee is a special stamp provided by a bank, broker or credit union (guarantor institutions) that indicates the individual(s) signing a form is legally authorized to conduct the requested transaction. A notarized signature is not a substitute for a Medallion Signature Guarantee.

2. Use section 2 below to make an optional investment through the plan. Detach the completed form and mail it, along with a check payable to Computershare, in the enclosed envelope. Please note the purchase limitations identified on the bottom left of the form.

If you do not keep in contact with us or do not have any activity in your account for the time periods specified by state law, your property could become subject to state unclaimed property laws and transferred to the appropriate state.

You can manage your account online through Investor Centre at the website listed on the top right of the reverse side. Register today!

The IRS requires that we report the cost basis of certain shares acquired after January 1, 2011. INVESTOR SERVICES

Direct Registration

the security and convenience of certificateless share ownership

The Company in which you own stock has elected to use the Direct Registration System (DRS) as its means of recording stock ownership. This brochure outlines what DRS means to you as a shareholder.

DRS is share ownership without paper stock certificates. Your shares are held in book-entry form. As the Company's transfer agent, Computershare keeps a record of your shares on the Company's register of owners. When you transfer or sell DRS shares, the transaction takes place electronically without the movement of stock certificates. The following pages more fully describe DRS.

Why is the Company using DRS?

DRS:

- Eliminates your risk of loss, theft or destruction of certificates, plus the time and expense to replace a lost certificate
- Eliminates the cost of maintaining a secure place to keep your certificates
- Makes your stock transactions faster and easier
- Saves the Company unnecessary printing and mailing expenses
- Supports the U.S. securities industry's move towards certificateless shares
- Has become the global standard for share ownership
- Offers a quick and convenient way of selling your DRS shares

Without certificates, how will I know how many shares I own?

Each time you have a share transaction you are sent a *Direct Registration Transaction Advice (Advice)* reporting the number of the Company's shares you hold in book-entry form. You are also sent a *Transaction Request Form* which can be used for sales transactions, as described further on in this brochure. For instructions on how to transfer your shares, please visit us online at www.computershare.com, refer to the *Transaction Request Form* or call Computershare at the telephone number on your *Advice*.

What about the certificates I already hold?

You may convert your **certificated shares** in the Company to DRS if you wish. To do this, send your stock certificate(s) and the completed *Transaction Request Form* to:

Computershare
Attn: Stock Transfer Department
250 Royall Street
Canton, MA 02021

Note: We cannot convert your stock certificates to DRS shares without receipt of the actual certificates.

We recommend that you use a courier service and please make sure that you **DO NOT** sign the back of your certificates.

How do I sell my DRS shares?

You may sell your shares as a Batch Order. For some companies, you may be able to sell your shares as a Market Order. The following describes the two types of orders.

Market Order. A market order is a request to sell shares promptly at market price. Market order sales are only available at www.computershare.com through Investor Centre or by telephone.

Batch Order. A batch order is an accumulation of all sales requests for a security submitted together as an aggregated request. Sale instructions for batch orders received by Computershare will be processed no later than five business days after the date on which the order is received (except where deferral is required under applicable federal or state laws or regulations), assuming the applicable market is open for trading and sufficient market liquidity exists. All sale requests received in writing, including on the *Transaction Request Form*, will automatically be treated as batch order sale requests. Batch orders are submitted on each market day, assuming there are sale requests to be processed.

To submit your sale request in writing, please complete the *Transaction Request Form* and mail it to Computershare:

Computershare
Attn: Sales Team
P.O. Box 43078
Providence, RI 02940-3078

For more information about the timing, processing, pricing of sale requests, and fees, see the Terms and Conditions of Sales Facility on the back of this page. Note: the Market Order and Batch Order sale requests are subject to different fees.

Can I transfer my DRS shares to my broker?

Yes, have your broker request your shares be sent to them through the Depository Trust Company's Direct Registration Profile System. You need to supply your broker with a copy of your latest *Advice* and the following information:

- Your Computershare account number (on your *Advice*)
- Your Social Security Number
- Computershare's DTC number, 7807
- The number of whole shares you wish to move from your Computershare account to your brokerage account

Terms and Conditions of Sales Facility

As a condition to using the Direct Registration services provided by Computershare Trust Company, N.A. ("Computershare"), you hereby agree to the following terms:

1. Sale Requests.

- (a) As a holder of book-entry shares, you may request that Computershare sell all or a portion of your shares in writing (via your *Transaction Request Form*), or online at www.computershare.com or via telephone. In submitting the sale instruction, you agree that Computershare may transfer your shares to complete the sale, including transfers to a nominee account of Computershare and to Computershare's brokerage firm.
- (b) If available, market order sale requests received at www.computershare.com through Investor Centre or by telephone will be placed promptly upon receipt during market hours (normally 9:30 a.m. to 4:00 p.m. Eastern Time). Any orders received after 4:00 p.m. Eastern Time will be placed promptly on the next day the market is open. The price shall be the market price of the sale obtained by Computershare's broker, net of fees.
- (c) Batch order sale requests received in writing (including via your *Transaction Request Form*), by telephone or at www.computershare.com through Investor Centre by Computershare will be processed no later than five Business Days after the date on which the order is received assuming the relevant markets are open and sufficient market liquidity exists (and except where deferral is required under applicable federal or state laws or regulations). (As used herein, the term "Business Day" means any day except a Saturday, Sunday, Federal Reserve Bank holiday or New York Stock Exchange holiday). All sale requests received in writing will be submitted as batch order sales. In every batch order sale, the price to each selling shareholder shall be the weighted average sale price obtained by Computershare's broker net of fees for each batch order placed by Computershare and executed by the broker. To maximize cost savings for batch order sale requests, Computershare will seek to sell shares in round lot transactions. For this purpose Computershare may combine each selling shareholder's shares with those of other selling shareholders.
- (d) Proceeds from the sale will generally be mailed within three (3) Business Days of the date upon which the sale transaction is settled. You agree that Computershare makes no representations or warranty that any of the services shall be performed at any set time, and Computershare shall not be liable of any change in the market value of any security at any time. If you are a shareholder enrolled in the Company's dividend reinvestment or direct stock purchase plan (collectively, the "Plan"), and the Plan provides that split, spin-off, or distributed shares are to be allocated to the shareholder through the Plan, then the sale of book-entry shares will be subject to the Plan, in which case such shareholder may not use the sales facility.
- (e) Computershare will instruct its broker, which may be an affiliate of Computershare, to effect sales on any securities market where the Company's shares are traded, subject to such terms with respect to price, delivery or other factors as Computershare may determine. No instruction to sell shares recently acquired will be accepted until the shares have been completely posted by Computershare to your book-entry Direct Registration account. You do not have any authority or power to direct the exact time at which shares may be sold or to select the broker or dealer through whom sales are to be made.
- (f) All sale requests are final. Once Computershare has received your sale instructions, the request cannot be stopped or cancelled. Shares are sold in date order unless otherwise submitted in writing, and may be a combination of DRS and Plan shares. Computershare does not provide any investment advice or recommendations with respect to any sale transaction initiated by you. Any decision to sell any security under the Sales Facility must be made by you based upon your own research and judgment.

2. Fees. In processing a sale instruction, you agree that Computershare is entitled to compensation under its fee schedule. The charge for the transaction is described on the *DRS Transaction Request Form* and available online at www.computershare.com. All fees shall be deducted from the sale proceeds. The fees are subject to change at any time without notice. You may inquire about the applicable fee before requesting a sale.

3. Taxes. Computershare, as dividend disbursing agent and as Direct Registration sales service agent, is required to perform backup withholding on those accounts which do not have a certified tax identification number. To avoid backup withholding on dividend disbursements or on sales of shares, please be sure your tax identification number on file with us is certified through the completion of Form W-9. Please visit us online if you need a W-9 for this purpose.

4. Corporate Insiders. If you are subject to Section 16 of the Securities Exchange Act of 1934 (or any rule promulgated thereunder) or are an affiliate of the Company (as that term is defined in Rule 144 of the Securities Act of 1933), you agree not to use the Sales Facility except in strict compliance with applicable securities law. You further agree that you are solely responsible for determining and maintaining compliance under applicable securities law. (Please note that the processing of such sales orders may entail additional delays.)

5. Limitation of Liability. No obligations are assumed by Computershare other than those that are specifically set forth herein, it being expressly understood that there are no implied duties or obligations under this Sales Facility. Computershare shall not be liable to you for any action taken or omitted to be taken in connection with or under this Sales Facility, except that Computershare shall be liable for direct losses incurred by you arising out of the willful misconduct of Computershare. Under no circumstances whatsoever shall Computershare be liable for special, indirect, incidental, punitive or consequential loss, or damage of any kind whatsoever (including, but not limited to, lost profits), even if Computershare has been advised of the possibility of such loss or damage. Under no circumstances whatsoever shall Computershare be liable for any actions or inactions of any brokerage firm retained by Computershare to perform any services under this Sales Facility. Computershare shall not be liable for any loss or damage resulting from its inability to comply with these Terms and Conditions by reason of events beyond its reasonable control, including acts of war, terrorism, riots, civil emergencies, acts of God or nature, local or regional electrical or communications system breakdowns, or acts of civil or military authority.

6. Entire Agreement and Modifications. The terms and conditions of this Sales Facility, including this brochure and all exhibits attached hereto, constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior or contemporaneous agreements, whether written or oral, between the parties. Computershare reserves the right to amend or modify these Terms and Conditions and to terminate this Sales Facility at any time, by sending a copy of such modification or notice of termination (that may be included with normal company mailings to shareholders) to shareholders in Direct Registration (or by posting a copy of such modification or notice at www.computershare.com).

7. Governing Law and Jurisdiction. The Sales Facility shall be governed by the laws of the State of New York (without regard to the conflict of law principles), and the parties hereby consent to the jurisdiction of courts in Illinois, New Jersey, and Massachusetts (whether state or federal) over all matters relating to this Sales Facility.
